

CULINARY TRAINING FOR FOOD SERVICE STAFF

The Indiana Child and Adult Care Food Program (CACFP) is offering 10 regional culinary workshops for child care food service staff. The purpose of this training is to encourage childcare cooks and facilities to prepare healthier meals with fresh fruits and vegetables, legumes and whole grain products. This hands-on training will be developed and presented by two professional chefs, Michelle Plummer and Sam Brown.

This is a perfect training opportunity for the person at your facility who prepares and serves the meals to the children. Please get a substitute and make arrangements for your “chef” to attend this important workshop. We guarantee he or she will return with some wonderful new ideas, skills and maybe some other surprises. Certificates for 3 hours of nutrition training will be provided at the end of each workshop.

Please see the locations below and make sure you register your “chef” for one of these events. There is no charge and the 10 workshops will be held across the state. Participants will do tastings throughout the workshop, but should bring their own beverage. Please do not contact the locations directly. For more information or questions, contact Heather Stinson at hstinson@doe.in.gov or 317-232-0869. Select the location links below for directions to each site.

All Culinary Workshops are from 10 a.m. to 1 p.m. local time
