

Training Topics

By

Child Care Health Consultants

It should be noted that the following list represents trainings that the Child Care Health Consultant Nurses have already completed. If there is a training topic that you feel you would like to have for your staff and it is not listed here, please contact your consultant. Most of the trainings will last 1 hour. There is never a cost for training. Contact hour certificates are always given to those who attend.

We also provide training through webinars. These are facilitated by Indiana Association for Child Care Resource and Referral (IACCRR). Go to www.iaccrr.org, open a training account and register through "Training Central". Several people can participate from one site, using one computer. All must have registered through "Training Central" in order to get credit for the training. IACCRR has web based trainings available 24 hours a day and live trainings conducted through your local CCRR office.

Another source for web based training is www.healthychildcare.org
