

**Medicaid Section 1115 Substance Use Disorder & Serious Mental Illness and Serious  
Emotional Disturbance Demonstrations  
Monitoring Report Template**

*Note: PRA Disclosure Statement to be added here*

**1. Title page for the state’s substance use disorder (SUD) and serious mental illness and serious emotional disturbance (SMI/SED) demonstrations or the SUD and SMI/SED components of the broader demonstration**

*This section collects information on the approval features of the state’s section 1115 demonstration overall, followed by information for the SUD and SMI/SED components. The state completed this title page as part of its SUD and SMI/SED monitoring protocol(s). The state should complete this table using the corresponding information from its CMS-approved monitoring protocol(s) and submit this as the title page of all monitoring reports. The content of this table should stay consistent over time. Definitions for certain rows are below the table.*

Overall section 1115 demonstration	
State	Indiana
Demonstration name	Healthy Indiana Plan (HIP)
Approval period for section 1115 demonstration	01/01/2021 – 12/31/2025
Reporting period	07/01/2024-09/30/2024
SUD demonstration	
SUD component start date <sup>a</sup>	02/01/2018
Implementation date of SUD component, if different from SUD component start date <sup>b</sup>	N/A

<b>SUD-related demonstration goals and objectives</b>	<p>All Medicaid beneficiaries in Indiana will continue to have access to all current mental health and SUD benefits. In addition, all beneficiaries, ages 21 through 64 will have access to expanded covered services provided while residing in an Institution for Mental Diseases (IMD) for SUD short-term residential stays. The SUD program will allow beneficiaries with SUD to access benefits that include SUD residential treatment, crisis stabilization and withdrawal management services provided in IMDs, which would otherwise be excluded from federal reimbursement.</p> <p>Goals include:</p> <ol style="list-style-type: none"> <li>1. Increased rates of identification, initiation, and engagement in treatment;</li> <li>2. Increased adherence to and retention in treatment;</li> <li>3. Reductions in overdose deaths, particularly those due to opioids;</li> <li>4. Reduced utilization of emergency departments and inpatient settings for treatment where the utilization is preventable or medically inappropriate through improved access to other continuum of care services;</li> <li>5. Fewer readmissions to the same or higher level of care where the readmission is preventable or medically inappropriate; and</li> <li>6. Improved access to care for physical health conditions among beneficiaries.</li> </ol>
<b>SUD demonstration year and quarter</b>	SUD DY7Q3

SMI/SED demonstration	
SMI/SED component demonstration start date <sup>a</sup>	01/01/2020
Implementation date of SMI/SED component, if different from SMI/SED component start date <sup>b</sup>	N/A
SMI/SED-related demonstration goals and objectives	<ol style="list-style-type: none"> <li>1. Reduced utilization and length of stay in emergency departments (EDs) among Medicaid beneficiaries with SMI/SED while awaiting mental health treatment in specialized settings;</li> <li>2. Reduced preventable readmissions to acute care hospitals and residential settings;</li> <li>3. Improved availability of crisis stabilization services, including services made available through call centers and mobile crisis units, intensive outpatient services, as well as services provided during acute short-term stays in residential crisis stabilization programs, psychiatric hospitals, and residential treatment settings throughout the state;</li> <li>4. Improved access to community-based services to address the chronic mental health care needs of beneficiaries with SMI/SED, including through increased integration of primary and behavioral health care; and</li> <li>5. Improved care coordination, especially continuity of care in the community following episodes of acute care in hospitals and residential treatment facilities.</li> </ol>
SMI/SED demonstration year and quarter	DY5Q3

<sup>a</sup> **SUD and SMI/SED demonstration components start dates:** For monitoring purposes, CMS defines the start date of the demonstration as the *effective date* listed in the state's STCs at time of SUD and SMI/SED demonstration component approvals. For example, if the state's STCs at the time of SUD demonstration approval note that the SUD demonstration is effective January 1, 2020 – December 31, 2025, the state should consider January 1, 2020 to be the start date of the SUD demonstration. Note that the effective date is considered to be the first day the state may begin its SUD or SMI/SED demonstration component. In many cases, the effective date is distinct from the approval date of a demonstration; that is, in certain cases, CMS may approve a section 1115 demonstration with an effective date that is in the future. For example, CMS may approve an extension request on December 15, 2020, with an effective date of January 1, 2021 for the new demonstration period. In many cases, the effective date also differs from the date a state begins implementing its demonstration.

<sup>b</sup> **Implementation date of SUD and SMI/SED demonstration components:** The date the state began claiming or will begin claiming federal financial participation for services provided to individuals in institutions for mental disease.

## **2. Executive summary**

*The executive summary for the SUD and SMI components of the demonstration should be reported below. It is intended for summary-level information only and may be combined for all policies included in the title page. The recommended word count is 500 words or less.*

During Q3 2024, the Division of Mental Health and Addiction is continuing to work with providers to designate mobile crisis providers. These mobile crisis units are affiliated with community mental health centers. Currently, Indiana has enrolled 19 mobile crisis units. There are several more waiting for designation from DMHA.

In addition, the Division of Mental Health and Addiction are currently looking to expand telehealth services that are being utilized by the OTPs and bringing in more behavioral health services to OTPs. DMHA has reached the legislative threshold of allowed number of OTPs by certifying the final provider in this reporting quarter.

OMPP is currently working with a contractor to create a new provider type and specialty for the CCBHC providers. In addition, Indiana was informed that we were one of the states chosen for the upcoming certified community behavioral health center (CCBHC) demonstrations.

To prepare providers for the upcoming transition of the new American Society of Addiction Medication criteria, DMHA has provided training seminars and materials statewide. DMHA and OMPP are currently looking into how to incorporate the new criteria into existing policy.

Finally, OMPP and DMHA have been drafting revisions to their respective Indiana Administrative Codes to reflect the ongoing changes that have been happening in behavioral health.

3. Narrative information on implementation, by milestone and reporting topic

A. SUD component

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
<b>1. Assessment of need and qualification for SUD services</b>			
<b>1.1 Metric trends</b>			
1.1.1 The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to assessment of need and qualification for SUD services.	X	#3, #4	
<b>1.2 Implementation update</b>			
1.2.1 Compared to the demonstration design and operational details, the state expects to make the following changes to:	X		
1.2.1.a The target population(s) of the demonstration			
1.2.1.b The clinical criteria (e.g., SUD diagnoses) that qualify a beneficiary for the demonstration			DMHA and OMPP have continued to collaborate on the phase-in of the new ASAM 4.1 criteria. DMHA held sessions from May to September 2024 with providers and MCEs to discuss the new criteria and the important revisions to notice from ASAM 3.1 to ASAM 4.1.
1.2.2 The state expects to make other program changes that may affect metrics related to assessment of need and qualification for SUD services.	X		

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
<b>2. Access to Critical Levels of Care for OUD and other SUDs (Milestone 1)</b>			
<b>2.1 Metric trends</b>			
2.1.1 The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to Milestone 1.		#6, #7, #8, #9, #10, #11, #12,	<p><b>#6:</b> Number of beneficiaries enrolled in the measurement period receiving any SUD treatment service, facility claim, or pharmacy claim during the quarter decreased 0.33%</p> <p><b>#7:</b> The number of beneficiaries who used early intervention services (such as procedure codes associated with SBIRT) decreased 9.78% compared to Q2. The average decreased from 30.66 (Q2) to 27.66 (Q3).</p> <p><b>#8:</b> The number of beneficiaries who used outpatient services for SUD (such as outpatient recovery or motivational enhancement therapies, step down care, and monitoring for stable patients) during the measurement period increased 0.04% in Q3 compared to Q2 2024.</p> <p><b>#9:</b> The average monthly utilization for Intensive Outpatient and Partial Hospitalization services for SUD decreased 0.17% in Q3 compared to last quarter, Q2.</p> <p><b>#10:</b> The number of beneficiaries who use residential and/or inpatient services for SUD increased 1.91% in Q3.</p> <p><b>#11:</b> The number of beneficiaries who use withdrawal management services (such as outpatient, inpatient, or residential) increased 3.87% in Q3.</p> <p><b>#12:</b> The number of beneficiaries who have a claim for MAT for SUD decreased 2.09% in Q3.</p>

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
<b>2.2 Implementation update</b>			
<p>2.2.1 Compared to the demonstration design and operational details, the state expects to make the following changes to:</p> <p>2.2.1.a Planned activities to improve access to SUD treatment services across the continuum of care for Medicaid beneficiaries (e.g., outpatient services, intensive outpatient services, medication-assisted treatment, services in intensive residential and inpatient settings, medically supervised withdrawal management)</p>			<p>Between July 2024 and September 2024, Indiana Medicaid and the Division of Mental Health and Addiction continued to answer policy and reimbursement questions around using G reimbursement codes for medication-assisted treatment. In addition, both divisions continue to collaborate with each other in the implementation of the certified community behavioral health centers. DMHA has hosted numerous quarterly summits with managed care entities and providers. DMHA and OMPP are looking into expanding behavioral health services at OTP facilities.</p>
<p>2.2.1.b SUD benefit coverage under the Medicaid state plan or the Expenditure Authority, particularly for residential treatment, medically supervised withdrawal management, and medication-assisted treatment services provided to individual IMDs</p>	X		

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
2.2.2 The state expects to make other program changes that may affect metrics related to Milestone 1.			The Division of Mental Health and Addiction is currently designating different organizations to render mobile crisis services. Mobile crisis unit response coverage has been effective since July 2023. The Office of Medicaid Policy and Planning received approval for the Mobile Crisis State Plan Amendment in September 2023. Indiana Medicaid has since provided clarification on the specific codes and process to become a designated mobile crisis unit. As of September 2024, DMHA has designated 19 mobile crisis providers. Initially, Indiana allowed CMHCs to provide mobile crisis services. In April, Indiana expanded mobile crisis services by allowing non-CMHCs to be designated as a mobile crisis service provider.

Prompt		State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
<b>3. Use of Evidence-based, SUD-specific Patient Placement Criteria (Milestone 2)</b>				
<b>3.1 Metric trends</b>				
3.1.1	The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to Milestone 2.	X	#5, #36	
<b>3.2 Implementation update</b>				
3.2.1	Compared to the demonstration design and operational details, the state expects to make the following changes to:			DMHA has investigated how the new revision of the ASAM criteria (ASAM 4.1) will impact provider expectations and quality control. From May 2024 to September 2024, DMHA held informational sessions on the new ASAM criteria.
3.2.1.a	Planned activities to improve providers' use of evidence-based, SUD-specific placement criteria			
3.2.1.b	Implementation of a utilization management approach to ensure (a) beneficiaries have access to SUD services at the appropriate level of care, (b) interventions are appropriate for the diagnosis and level of care, or (c) use of independent process for reviewing placement in residential treatment settings			During Q3 of 2024, the Division of Mental Health and Addiction continued discussions relating to 3.7 ASAM level designations for our SUD residential providers.  OMPP and DMHA collaborated with Next Level Recovery to launch ATLAS (Addiction Treatment Locator, Assessment, and Standards platform) as the state's addiction treatment locator. This effort will help individuals seeking addiction treatment find high quality care. ATLAS successfully launched in the state in September 2023. Between July and September 2024, 7043 users utilized Atlas with 5386 being unique individuals. The top four substance filters are Alcohol, Methamphetamine, Cocaine and Heroin/Fentanyl. During this time 1330 assessments were completed. As part of Atlas, there is an ability to directly link to 988 and 911 with 70 users utilizing 911 and 25 utilizing 988.

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
3.2.2 The state expects to make other program changes that may affect metrics related to Milestone 2.	X		

Prompt		State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
4. Use of Nationally Recognized SUD-specific Program Standards to Set Provider Qualifications for Residential Treatment Facilities (Milestone 3)				
4.1 Metric trends				
4.1.1	The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to Milestone 3.  Note: There are no CMS-provided metrics related to Milestone 3. If the state did not identify any metrics for reporting this milestone, the state should indicate it has no update to report.	X		
4.2 Implementation update				
4.2.1	Compared to the demonstration design and operational details, the state expects to make the following changes to:  4.2.1.a Implementation of residential treatment provider qualifications that meet the ASAM Criteria or other nationally recognized, SUD-specific program standards			As reported previously, DMHA began providing ASAM designations for the State’s residential providers on March 1, 2018. By the end of this reporting period (September 2024), for ASAM level 3.1 there was a total of 12 providers with 221 beds. For ASAM level 3.5, there was a total of 61 providers with 2576 beds. For combined ASAM 3.1 and 3.5 facilities, there were 10 providers and 311 beds for this reporting period. In the quarter, two providers ceased 3.1 services, not all these settings qualify as residential IMDs, however. To qualify as an IMD, the setting must meet the bed count requirement and be enrolled as an 836 (SUD residential addiction treatment facility) provider with Indiana Medicaid. Furthermore, not all residential providers are enrolled as an IHCP provider with Indiana Medicaid. The data reported includes all residential providers, regardless of Medicaid participation.

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
4.2.1.b Review process for residential treatment providers' compliance with qualifications.	X		
4.2.1.c Availability of medication-assisted treatment at residential treatment facilities, either on-site or through facilitated access to services off site	X		
4.2.2 The state expects to make other program changes that may affect metrics related to Milestone 3.	X		

Prompt		State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
<b>5. Sufficient Provider Capacity at Critical Levels of Care including for Medication Assisted Treatment for OUD (Milestone 4)</b>				
<b>5.1 Metric trends</b>				
5.1.1	The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to Milestone 4.	X	#13, #14	
<b>5.2 Implementation update</b>				
5.2.1	Compared to the demonstration design and operational details, the state expects to make the following changes to: Planned activities to assess the availability of providers enrolled in Medicaid and accepting new patients across the continuum of SUD care.	X		
5.2.2	The state expects to make other program changes that may affect metrics related to Milestone 4.	X		

Prompt		State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
<b>6. Implementation of Comprehensive Treatment and Prevention Strategies to Address Opioid Abuse and OUD (Milestone 5)</b>				
<b>6.1 Metric trends</b>				
6.1.1	The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to Milestone 5.	X	#23 #27	
<b>6.2 Implementation update</b>				
6.2.1	Compared to the demonstration design and operational details, the state expects to make the following changes to:	X		
6.2.1.a	Implementation of opioid prescribing guidelines and other interventions related to prevention of OUD			
6.2.1.b	Expansion of coverage for and access to naloxone	X		

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
6.2.2 The state expects to make other program changes that may affect metrics related to Milestone 5.			Indiana has submitted and received approval from CMS for a state plan amendment to CMS to restructure how opioid treatment programs are currently reimbursed by Indiana Medicaid. Indiana Medicaid has completed its transition of the per diem code to the weekly G-code bundle, to incorporate other forms of MAT treatment besides methadone (e.g. buprenorphine, naltrexone) and to include mechanisms for take-home MAT dispensing. This SPA received approval from the Indiana State Budget Committee in July 2022, and OMPP submitted these SPA pages to CMS in Q1 of 2023. CMS approved the state amendment pages in June 2023, and these changes became effective in July 2023. Indiana Medicaid further aligned with Medicare by implementing the OTP G-codes that would allow for more services on a weekly basis including the ability to allow take-home supplies. From July 2024 to September 2024, DMHA and Indiana Medicaid have continued to collaborate with providers, managed care entities, and outside stakeholders to provide informational sessions and bulletins on the updates to various OTP services.

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
<b>8. SUD health information technology (health IT)</b>			
<b>8.1 Metric trends</b>			
8.1.1 The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to its SUD health IT metrics.		S.1, S.2, S.3	<p><b>S.1:</b> Number of prescribers accessing INSPECT increased by 0.17% compared to Q2.</p> <p><b>S.2:</b> The number of patient requests made into INSPECT on a statewide basis decreased 5.10% in Q3 2024 compared to Q2 2024.</p> <p><b>S.3:</b> The Number of hospitals that have integrated INSPECT into their health care system's electronic health record increased from 153 to 154.</p>
<b>8.2 Implementation update</b>			
8.2.1 Compared to the demonstration design and operational details, the state expects to make the following changes to: 8.2.1.a How health IT is being used to slow down the rate of growth of individuals identified with SUD	X		
8.2.1.b How health IT is being used to treat effectively individuals identified with SUD	X		
8.2.1.c How health IT is being used to effectively monitor “recovery” supports and services for individuals identified with SUD	X		

Prompt		State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
8.2.1.d	Other aspects of the state’s plan to develop the health IT infrastructure/capabilities at the state, delivery system, health plan/MCO, and individual provider levels	X		
8.2.1.e	Other aspects of the state’s health IT implementation milestones	X		
8.2.1.f	The timeline for achieving health IT implementation milestones	X		
8.2.1.g	Planned activities to increase use and functionality of the state’s prescription drug monitoring program	X		
8.2.2	The state expects to make other program changes that may affect SUD metrics related to health IT.	X		
<b>9. Other SUD-related metrics</b>				
<b>9.1 Metric trends</b>				
9.1.1	The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to other SUD-related metrics.		#24	The average monthly count of inpatient stays for SUD per 1,000 beneficiaries increased 3.10% in Q3 compared to Q2. Metric #24’s quarterly average increased from 1.88 (2024 Q2) to 1.94 (2024 Q3).
<b>9.2 Implementation update</b>				

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
9.2.1 The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to other SUD-related metrics.		#33, #34	<p><u>#33</u>, In Q3, only two grievances were filed related to SUD treatment services. This is a 33.33% decrease compared to the three filed in Q2. The decrease appears significant due to the small numbers.</p> <p><u>#34</u>, The number of appeals filed related to SUD treatment services increased 47.73%. In Q3, 195 appeals were filed versus the 132 appeals filed in Q2 2024.</p>

<b>3. Access to Continuum of Care, Including Crisis Stabilization (Milestone 3)</b>			
<b>3.1 Metric trends</b>			
3.1.1 The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to Milestone 3.		#13, #14, #15, #16, #17, #18	<p><b>#13:</b> The number of beneficiaries who used inpatient services related to mental health increased 0.99 % in Q3 2024 compared to Q2.</p> <p><b>#14:</b> The number of beneficiaries in the demonstration population who used intensive outpatient and/or partial hospitalization services related to mental health decreased 1.06% in Q3 2024 compared to Q2.</p> <p><b>#15:</b> The number of beneficiaries in the demonstration population who used outpatient services related to mental health during quarter decreased 4.06% in Q3 2024 compared to Q2.</p> <p><b>#16:</b> The number of beneficiaries who use ED services for mental health decreased by 5.74% in Q3 2024 compared to Q2.</p> <p><b>#17:</b> The number of beneficiaries who used telehealth services for mental health decreased by 3.38% in Q3 2024 compared to Q2.</p> <p><b>#18:</b> The number of beneficiaries in the demonstration population who used any services related to mental health during the quarter decreased 3.22% in Q3 2024 compared to Q2.</p>
<b>3.2 Implementation update</b>			

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
<p>3.2.1 Compared to the demonstration design and operational details, the state expects to make the following changes to:</p> <p>3.2.1.a State requirement that providers use an evidenced-based, publicly available patient assessment tool to determine appropriate level of care and length of stay</p>	X		
<p>3.2.1.b Other state requirements/policies to improve access to a full continuum of care including crisis stabilization</p>	X		
<p>3.2.2 The state expects to make other program changes that may affect metrics related to Milestone 3.</p>			<p>With the current pursuit of the certified community behavioral health center demonstration, DMHA is investigating how MRO, and its assessments would be implemented into this project. This discussion is ongoing, and OMPP has been involved in these conversations.</p>

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
<b>4. Earlier Identification and Engagement in Treatment, Including Through Increased Integration (Milestone 4)</b>			
<b>4.1 Metric trends</b>			
4.1.1 The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to Milestone 4.		#21, #22, #23, #26, #29, #30	#21: The number of beneficiaries with SMI/SED decreased by 3.01% in Q3 2024 to compared to Q2.
<b>4.2 Implementation update</b>			
4.2.1 Compared to the demonstration design and operational details, the state expects to make the following changes to: 4.2.1.a Strategies for identifying and engaging beneficiaries in treatment sooner (e.g., with supported education and employment)			DMHA is collaborating with community partners to develop and implement CRSS sites and designate mobile crisis teams statewide.
4.2.1.b Plan for increasing integration of behavioral health care in non-specialty settings to improve early identification of SED/SMI and linkages to treatment			DMHA is collaborating with community partners to develop and implement CRSS sites and designate mobile crisis teams statewide.
4.2.1.c Establishment of specialized settings and services, including crisis stabilization services, focused on the needs of young people experiencing SMI or SED			OMPP and DMHA are currently designating mobile crisis providers across the state. As for September 2024, there are 19 mobile crisis providers. More providers have submitted their applications to be designated by DMHA to render these services. DMHA has started a Crisis Stabilization Services pilot program.

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
4.2.1.d Other state strategies to increase earlier identification/engagement, integration, and specialized programs for young people			OMPP submitted a state plan amendment to expand school-based services by allowing school psychologists to provide testing services. This SPA was approved in 2023. OMPP is currently having discussions with the Department of Education on defining the scope of practice for an independent practice school psychologist. OMPP is currently working on updating the Indiana Administrative Code to define what services can be rendered by a school psychologist and who can supervise a school psychologist.
4.2.2 The state expects to make other program changes that may affect metrics related to Milestone 4.	X		

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
<b>5. SMI/SED health information technology (health IT)</b>			
<b>5.1 Metric trends</b>			
5.1.1 The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to its SMI/SED health IT metrics.		Q1, Q1, Q3	<p><b>Q1:</b> The number of Indiana DOC facilities connected to HIE is unchanged from last quarter.</p> <p><b>Q2:</b> The count of Behavioral Health providers (Psychiatric, Pediatric Nurse Practitioner, Obstetric Nurse Practitioner, Family Nurse Practitioner, Clinical Nurse Specialist, Outpatient Mental Health Clinic, Community Mental Health Center (CMHC), Health Service Provider in Psychology (HSPP), AMHH Service Provider, CMHW Service Provider, Behavioral and Primary Healthcare Coordination (BPHC), MRO Clubhouse, ABA Therapist, Licensed Psychologist, Licensed Independent Practice School Psychologist, Licensed Clinical Social Worker, Licensed Marriage and Family Therapist, Licensed Mental Health Counselor, Licensed Clinical Addiction Counselor, Opioid Treatment Program, SUD Residential Addiction Treatment Facility and Psychiatrist) enrolled in Medicaid increased 3.55%.</p> <p><b>Q3:</b> The percentage of CMHCs accessing client outcome reports decreased 28.57% in Q3 2024 from seven in Q2 to five in Q3.</p>
<b>5.2 Implementation update</b>			
5.2.1 Compared to the demonstration design and operational details, the state expects to make the following changes to: 5.2.1.a The three statements of assurance made in the state's health IT plan	X		

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
5.2.1.b Closed loop referrals and e-referrals from physician/mental health provider to physician/mental health provider and/or physician/mental health provider to community-based supports	X		
5.2.1.c Electronic care plans and medical records	X		
5.2.1.d Individual consent being electronically captured and made accessible to patients and all members of the care team	X		
5.2.1.e Intake, assessment and screening tools being part of a structured data capture process so that this information is interoperable with the rest of the health IT ecosystem	X		
5.2.1.f Telehealth technologies supporting collaborative care by facilitating broader availability of integrated mental health care and primary care	X		
5.2.1.g Alerting/analytics	X		
5.2.1.h Identity management	X		
5.2.2 The state expects to make other program changes that may affect SMI/SED metrics related to health IT.	X		

Prompt		State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
<b>6. Other SMI/SED-related metrics</b>				
<b>6.1 Metric trends</b>				
6.1.1	The state reports the following metric trends, including all changes (+ or -) greater than 2 percent related to other SMI/SED-related metrics.		#36, #37, #38	<p><b>#36:</b> There was a 250% increase in the number of SMI grievances in Q3 2024 (n=7) compared to Q2 2024 (n=2). The increase appears significant due to the small numbers.</p> <p><b>#37:</b> There was a 15.63% increase in the number of SMI appeals filed in Q3 2024 (n=148) compared to Q2 2024 (n=128).</p> <p><b>#38:</b> There was a -13.20% decrease in critical incidents in Q3 2024 (n=526) compared to Q2 2024 (n=606).</p>
<b>6.2 Implementation update</b>				
6.2.1	The state expects to make the following program changes that may affect other SMI/SED-related metrics.	X		
<b>7. Annual Assessment of Availability of Mental Health Services (Annual Availability Assessment)</b>				
<b>7.1 Description of changes to baseline conditions and practices</b>				
7.1.1	Describe and explain any changes in the mental health service needs of Medicaid beneficiaries with SMI/SED compared to those described in the Initial Assessment of the Availability of Mental Health Services (for example, prevalence and distribution of SMI/SED). Recommended word count is 500 words or less.	X		

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
7.1.2 Describe and explain any changes to the organization of the state’s Medicaid behavioral health service delivery system compared to those described in the Initial Assessment of the Availability of Mental Health Services. Recommended word count is 500 words or less.	X		
7.1.3 Describe and explain any changes in the availability of mental health services for Medicaid beneficiaries with SMI/SED in the state compared to those described in the Initial Assessment of the Availability of Mental Health Services. At minimum, explain any changes across the state in the availability of the following services: inpatient mental health services; outpatient and community-based services; crisis behavioral health services; and care coordination and care transition planning. Recommended word count is 500 words or less.			In July 2023, the mobile crisis units became effective. In September 2023, CMS approved the SPA for the mobile crisis units. Also, there is current cross-collaboration between the Division of Mental Health and Addiction and OMPP to designate these mobile crisis units. As of September 2024, there are 19 mobile crisis providers through various community mental health providers with more providers submitting applications to DMHA. As of September 2024, 14 of the 20 community mental health centers have received their designation, but the remainder are still offering services to Medicaid beneficiaries. In addition, DMHA and OMPP are collaborating on the upcoming implementation of the certified community behavioral health centers.
7.1.4 Describe and explain any changes in gaps the state identified in the availability of mental health services or service capacity while completing the Annual Availability Assessment compared to those described in the Initial Assessment of the Availability of Mental Health Services. Recommended word count is 500 words or less.	X		

Prompt	State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
7.1.5 Describe and explain whether any changes in the availability of mental health services have impacted the state’s maintenance of effort (MOE) on funding outpatient community-based mental health services. Recommended word count is 500 words or less.	X		
<b>7.2 Implementation update</b>			
7.2.1 Compared to the demonstration design and operational details, the state expects to make the following changes to: 7.2.1.a The state’s strategy to conduct annual assessments of the availability of mental health services across the state and updates on steps taken to increase availability			Throughout the assessments, that state has continued to improve data collection. As a result, the data sources for a few settings have changed between the assessments. Given that the Division of Mental Health and Addiction is the licensing authority for multiple settings in the assessment, OMPP has continued to update processes as needed to collaborate with DMHA more closely.  In Q3, to potentially increase availability, DMHA is collaborating with CCBHC pilot sites, CMHCs, and stakeholders to survey their capacity to provide care.
7.2.1.b Strategies to improve state tracking of availability of inpatient and crisis stabilization beds			DMHA is working with Bamboo Health to improve open beds, which provides real-time care coordination between crisis management stakeholders to help individuals access expedited behavioral health crisis assessment and treatment.

Prompt		State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
<b>8. Maintenance of effort (MOE) on funding outpatient community-based mental health services</b>				
<b>8.1 MOE dollar amount</b>				
8.1.1	Provide as a dollar amount the level of state appropriations and local funding for outpatient community-based mental health services for the most recently completed state fiscal year.	X		
<b>8.2 Narrative information</b>				
8.2.1	Describe and explain any reductions in the MOE dollar amount below the amount provided in the state's application materials. The state should confirm that it did not move resources to increase access to treatment in inpatient or residential settings at the expense of community-based services.	X		

Prompt		State has no trends/update to report (place an X)	Related metric(s) (if any)	State response
<b>9. SMI/SED financing plan</b>				
<b>9.1 Implementation update</b>				
9.1.1	Compared to the demonstration design and operational details, the state expects to make the following changes to:	X		OMPP established a provider type/specialty for mobile crisis units to able them to receive direct reimbursement by Indiana Medicaid. Mobile crisis services have been effective in Indiana since July 2023. CMS approved the Mobile Crisis Unit State Plan Amendment in September 2023. DMHA is continuing the process of designating mobile crisis unit providers. OMPP has established a provider specialty and type that allows non-CMHCs to render mobile crisis units.
9.1.1.a	Increase availability of non-hospital, non-residential crisis stabilization services, including services made available through crisis call centers, mobile crisis units, and observation/assessment centers, with a coordinated community crisis response that involves law enforcement and other first responders			DMHA has a total of 19 mobile crisis teams, with 2 teams in progress of getting their designation.
9.1.1.b	Increase availability of on-going community-based services, e.g., outpatient, community mental health centers, partial hospitalization/day treatment, assertive community treatment, and services in integrated care settings such as the Certified Community Behavioral Health Clinic model			Currently, Indiana uses the community mental health center (CMHC) to deliver accessible behavioral health care to the residents of Indiana. DMHA has started the planning stages of implementing the designation process of certified community behavioral health center (CCBHC). In Q4 2023, DMHA and OMPP worked collaboratively on the financial/reimbursement aspects of the CCBHC project. In March 2024, DMHA successfully applied for the CMS 1115 Demonstration for CCBHC. In June 2024, CMS awarded Indiana the 1115 Demonstration Waiver for CCBHC.  DMHA is working toward CCBHC rollout on 1/1/25.

#### 4. Narrative information on other reporting topics applicable to both SUD and SMI/SED components

Prompts	State has no update to report (place an X)	State response
<b>10. Budget neutrality</b>		
<b>10.1 Current status and analysis</b>		
10.1.1 Describe the current status of budget neutrality and an analysis of the budget neutrality to date. If the SUD and SMI/SED components are part of a broader demonstration, the state should provide an analysis of the SUD- and SMI/SED-related budget neutrality and an analysis of budget neutrality as a whole.		<p>The budget neutrality for Q3 2024 has been updated to include actual experience for January 1, 2021, through September 30, 2024. The “Total Adjustments” tab reflects adjustments made to Schedule C expenditures that weren’t previously reported from January 2021-June 2024. This adjustment is necessary as Schedule C reporting has a lag of six months. Enrollment for SUD and the two SMI MEGs is assumed to grow at 5% for DY 11. The state anticipates that institutions of mental disease (IMD) and residential treatment utilization may continue to grow as the program continues to serve members with SMI and additional providers are identified.</p> <p>Indiana launched the Pathways for Aging program on 7/1/2024. As a result, it may impact the budget neutrality. Encounter claims for Pathways for Aging are not yet being submitted consistently or timely to the EDW and were not used for recipient summaries. The count of actual recipients be understated for July-September 2024, but the projections rely on the period prior to the implementation of PathWays.</p> <p>To address additional information requested by CMS, OMPP’s actuaries are submitting figures to the actual enrollment and projected enrollment sections of the report. Recipients are those that receive IMD or residential SUD treatment and not those with SUD/SMI diagnosis receiving outpatient services</p>
<b>10.2 Implementation update</b>		
10.2.1 The state expects to make other program changes that may affect budget neutrality.	X	

Prompts	State has no update to report (place an X)	State response
<b>11. SUD- and SMI/SED-related demonstration operations and policy</b>		
<b>11.1 Considerations</b>		
11.1.1 The state should highlight significant SUD and SMI/SED (or if broader demonstration, then SUD- and SMI/SED-related) demonstration components' operations or policy considerations that could positively or negatively affect beneficiary enrollment, access to services, timely provision of services, budget neutrality, or any other provision that has potential for beneficiary impacts. Also note any activity that may accelerate or create delays or impediments in achieving the SUD and SMI/SED demonstration components approved goals or objectives, if not already reported elsewhere in this document. See Monitoring Report Instructions for more detail.	X	Indiana Medicaid has finalized a telehealth code set that was effective July 2022. This code set includes expanded services available via telehealth service delivery, such as expanded behavioral health treatment, and substance use disorder treatment services (e.g., counseling, psychotherapy, MAT adherence/management services, intensive outpatient therapy, etc.). In addition, Indiana Medicaid will also continue to cover audio-only telehealth options in the delivery of behavioral health treatment. In coordination with the Indiana Division of Mental and Health Addiction, the Office of Medicaid Policy and Planning has allowed coverage for skills training and development through telehealth certain criteria have been met. The updated code set for telehealth services will remain in place in 2022 and 2023. At the end of 2023, Indiana Medicaid will reevaluate these codes. Currently, there are discussions being held among OMPP and FSSA leadership to discuss the re-evaluation of the telehealth codes. Indiana Medicaid has utilized a collaboration with local research universities to determine the feasibility of allowing intensive outpatient treatments to be rendered through the telehealth modality. Throughout this quarter (July to September 2024), these conversations continued to take place.
<b>11.2 Implementation update</b>		
11.2.1 The state experienced challenges in partnering with entities contracted to help implement the demonstration (e.g., health plans, credentialing vendors, private sector providers) and/or noted any performance issues with contracted entities.	X	
11.2.2 The state is working on other initiatives related to SUD, OUD and/or SMI/SED.	X	

Prompts	State has no update to report (place an X)	State response
11.2.3 The initiatives described above are related to the SUD and/or SMI/SED demonstration components. (The state should note similarities and differences from the SUD and SMI/SED demonstration components).	X	
11.2.4 Compared to the demonstration design and operational details, the state expects to make the following changes to: 11.2.4.a How the delivery system operates under the demonstration (e.g., through the managed care system or fee for service)	X	
11.2.4.b Delivery models affecting demonstration participants (e.g., Accountable Care Organizations, Patient Centered Medical Homes)	X	
11.2.4.c Partners involved in service delivery	X	
11.2.4.d <b>SMI/SED-specific:</b> The state Medicaid agency's Memorandum of Understanding (MOU) or other agreement with its mental health services agency	X	

Prompts	State has no update to report (place an X)	State response
<b>12. SUD and SMI/SED demonstration evaluation update</b>		
<b>12.1 Narrative information</b>		
12.1.1 Provide updates on SUD and SMI/SED evaluation work and timeline. The appropriate content will depend on when this monitoring report is due to CMS and the timing for the demonstration. There are specific requirements per 42 Code of Federal Regulations (CFR) § 431.428a(10) for annual reports. See Monitoring Report Instructions for more details.		Throughout Q3, the SMI and SUD Independent Evaluators finalized drafts of the Interim Evaluations for the public comment period and tribal notice required by the 1115 renewal process. Indiana is in the process of renewing the 1115 SUD and SMI waivers and as a result, published both drafts.
12.1.2 Provide status updates on deliverables related to the demonstration evaluation and indicate whether the expected timelines are being met and/or if there are any real or anticipated barriers in achieving the goals and timeframes agreed to in the STCs.		There are no barriers or issues with the timeline currently. Both evaluations will be submitted to CMS no later than December 31, 2024, in addition to the renewal application.
12.1.3 List anticipated evaluation-related deliverables related to this demonstration and their due dates.		The SUD and SMI 2021-2023 Interim Evaluations will be submitted to CMS no later than December 31, 2024. Indiana will submit the renewal application by December 31, 2024, to renew the waivers between 2026-2030.

Prompts	State has no update to report (place an X)	State response
<b>13. Other demonstration reporting</b>		
<b>13.1 General reporting requirements</b>		
13.1.1 The state reports changes in its implementation of the demonstration that might necessitate a change to approved STCs, implementation plan, or monitoring protocol.	X	
13.1.2 The state anticipates the need to make future changes to the STCs, implementation plan, or monitoring protocol, based on expected or upcoming implementation changes.	X	
13.1.3 Compared to the demonstration design and operational details, the state expects to make the following changes to: 13.1.3.a The schedule for completing and submitting monitoring reports	X	
13.1.3.b The content or completeness of submitted monitoring reports and/or future monitoring reports	X	Indiana found that the state's data to address the original Q3 health IT metric in the currently approved protocol was poor in quality. Due to this, in agreement with CMS, Indiana re-worked the Q3 metric and will replace the Q3 metric in the monitoring reports with a new metric moving forward. Reporting on the new Q3 metric began in Q2 2023.
13.1.4 The state identified current or anticipated issues submitting timely post-approval demonstration deliverables, including a plan for remediation.	X	
13.1.5 Provide updates on the results of beneficiary satisfaction surveys, if conducted during the reporting year, including updates on grievances and appeals from beneficiaries, per 42 CFR § 431.428(a)5.	X	

Prompts	State has no update to report (place an X)	State response
<b>13.2 Post-award public forum</b>		
13.2.2 If applicable within the timing of the demonstration, provide a summary of the annual post-award public forum held pursuant to 42 CFR § 431.420(c) indicating any resulting action items or issues. A summary of the post-award public forum must be included here for the period during which the forum was held and in the annual monitoring report.		On August 21, 2024, OMPP completed the 1115 Demonstration Waiver Post Award Forum. OMPP received comments specific to SUD and SMI from one MCE. The MCE submitted a letter of support and remains committed to their partnership with OMPP and providing SUD and SMI benefits for members.

Prompts	State has no update to report (place an X)	State response
<b>14. Notable state achievements and/or innovations</b>		
<b>14.1 Narrative information</b>		
14.1.1 Provide any relevant summary of achievements and/or innovations in demonstration enrollment, benefits, operations, and policies pursuant to the hypotheses of the SUD and SMI/SED (or if broader demonstration, then SUD- or SMI/SED-related) demonstration components or that served to provide better care for individuals, better health for populations, and/or reduce per capita cost. Achievements should focus on significant impacts to beneficiary outcomes. Whenever possible, the summary should describe the achievement or innovation in quantifiable terms (e.g., number of impacted beneficiaries).	X	

\*The state should remove all example text from the table prior to submission.

Note: Licensee and states must prominently display the following notice on any display of Measure rates:

*SUD measures IET-AD, FUA-AD, FUM-AD, and AAP [Metrics #15, 17(1), 17(2), and 32] and SMI/SED measures MPT, FUH-CH, FUH-AD, FUA-AD, FUM-AD, AAP, and APM measures (#13, 14, 15, 16, 17, 18, 7, 8, 9, 10, 26, 29) are Healthcare Effectiveness Data and Information Set (HEDIS®) measures that are owned and copyrighted by the National Committee for Quality Assurance (NCQA). HEDIS measures and specifications are not clinical guidelines, do not establish a standard of medical care and have not been tested for all potential applications. The measures and specifications are provided “as is” without warranty of any kind.
