

3455.20.00 ~~FINANCIAL ELIGIBILITY FOR RBARCAP~~-RELATED MEDICAID ~~LIABILITY~~ (MED 1)

~~When an individual has been determined to be eligible for Residential Care Assistance Program (RCAP), the individual is financially eligible for Medicaid. There is no budget for Medicaid eligibility purposes. The income standard used in determining eligibility for MA R is 100% the FPL and are the same as those listed in section 3010.20.05 and 3010.20.05.05.~~

The resource limit used in determining eligibility for MA R is as follows:

- \$2000 for an applicant/member, who is single or whose spouse qualifies as a "community spouse".
- \$3000 for an applicant/member and their spouse (whether or not the spouse is an applicant/member) if the couple is living together or separated only for medical reasons.

When the worker determines that the individual is eligible for RCAP, a "Y" should be entered in the relevant field on the Living Arrangement/Domicile – Details screen. On Living Arrangement/Domicile – Details screen enter "N" in the response field for the question regarding Medicaid certification of the institution, since an RCAP facility is not Medicaid certified.
