

**Network Adequacy - Count of Counties Where Average Driving Distances Exceeds Upper Bound in Facility and Agency-Based**

The data shown below represents the number of counties where the actual member driving distances in CY2019 exceeded the distance limit in the contract.

The data shown below represents the average driving distances in CY2019 submitted by external review for each MCE and program.

**How are the MCEs Doing on these Measures?**

 MCE count > 5 counties above statewide average value

Provider Category	Mile threshold	HHW					HIP					HCC		
		Statewide	Hoosier Healthwise				Statewide	Healthy Indiana Plan				Statewide	Hoosier Care Connect	
			Anthem	CareSource	MDwise	MHS		Anthem	CareSource	MDwise	MHS		Anthem	MHS
Acute Care Hospital - Urban	30	3	3	4	3	3	2	3	2	3	2	3	4	3
Acute Care Hospital - Rural	60	0	0	0	0	0	0	0	0	0	0	0	0	0
Inpatient Psychiatric Facility	60	1	3	0	4	3	1	5	0	3	1	0	0	1
*Clinic	30	8	13	9	9	5	8	14	5	6	4	16	20	16
Pharmacy	30	0	0	0	0	0	0	0	0	0	0	0	0	0
ESRD Clinic	60	NR	NR	NR	NR	NR	0	0	0	NR	0	0	0	0

NR - Not reportable due to low sample size (for MCEs, individual counties excluded if <10 trips in sample; for Program-wide columns, if <50 trips in sample overall)

\*Note that the mileage thresholds set for clinic shown here were set by B&A in the external review because OMPP does not have a published standard
