

Medicaid & Maternal Health Updates

*S. Maria E. Finnell, MD, MS
Chief Medical Officer, FSSA
Medicaid Advisory Committee
November 2023*

Extended Coverage

FSSA expanded maternal and child health coverage as a step towards reducing Indiana's maternal mortality rate.

① Postpartum Coverage Extension – [BT202226](#)

Effective April 1, 2022, the postpartum coverage period for traditional Medicaid, Healthy Indiana Plan Maternity, and Hoosier Healthwise members was extended from **60 days to one year**.

② Prenatal Tests and Screening Coverage – [BT202295](#)

Effective Dec. 1, 2022, Medicaid covers certain prenatal screenings for **all pregnant women**.

Extended Coverage (Cont.)

FSSA expanded maternal and child health coverage as a step towards reducing Indiana's maternal mortality rate.

3 LARC Carve-out – [BT202323](#)

Effective Nov. 1, 2022, FQHCs and rural health clinics are **separately reimbursed for LARC devices** using the prospective payment system (PPS) rate.

4 Donor Breastmilk Coverage – [BT202280](#)

Effective Nov. 1, 2022, accredited donor milk banks are now considered **eligible providers** and a stand-alone specialty.

Perinatal Psychiatry Phone Line

The Indiana Consultations for Healthcare Providers in Addiction, Mental Health, and Perinatal Psychiatry Program (CHAMP), launched in March 2023, is a free statewide phone consultation line, referral service, and educational opportunities available to providers who work with adults 18+ patients.

Providers call **317-274-2400** and after a short intake with a CHAMP health navigator, are connected to a psychiatrist.

The provider will then be connected to a psychiatrist **within 30 minutes** or at a specific callback time that works for them.

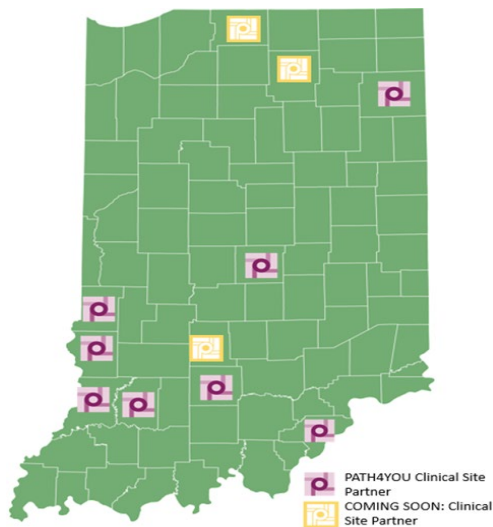

At the conclusion of the conversation, the provider will receive a brief written **documentation of the recommendations** via encrypted email.

Long-Acting Reversible Contraception RFF 23-010

FSSA released a Request for Funding (RFF) opportunity to address barriers to family planning and expand access to long-acting reversible contraception (LARC) and associated services.

County Coverage

Investment in Sustainability of Maternal Health Services

FSSA is braiding federal funding sources to support recent Medicaid changes by investing in sustainability planning for maternal home visiting and doula services.

Doula Services as a Medicaid Reimbursable Benefit

Purpose: Develop a comprehensive system for doula services as a Medicaid benefit

Funded Activities:

- Propose Medicaid reimbursement levels for Doula services
- Explore approaches to ensure uptake and utilization of benefits by high-risk women
- Engage stakeholders and coordinate with other Medicaid benefits

Sustainability Planning for Maternal Home Visiting

Purpose: Develop a sustainability plan for home visiting services

Funded Activities:

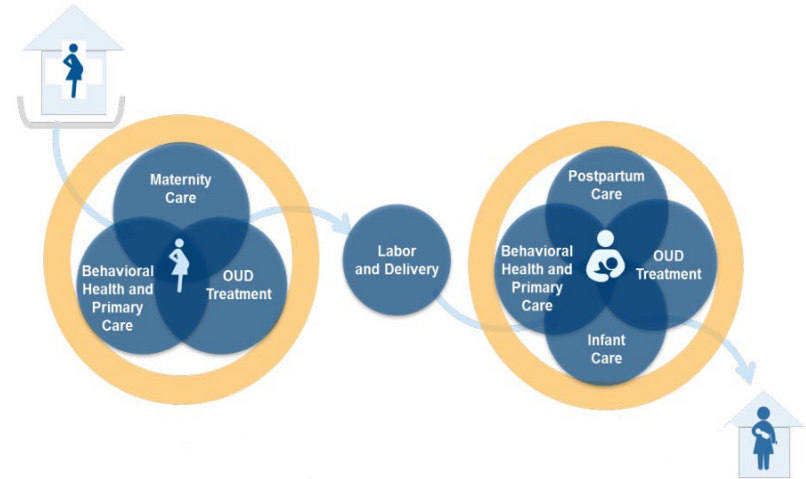

- Assess current funding sources for home visiting services delivery
- Make recommendations on options to cover services under allowable Medicaid benefits
- Engage stakeholders including the Department of Health, County/Social Service Organizations, and Medicaid to gather input

Pregnancy Promise Program

- 5-year Cooperative Agreement with CMS Innovation Centers (currently in Y4)
- Improve outcomes for pregnant/postpartum individuals and infants impacted by opioid use disorder
- FSSA administers program in partnership with Medicaid Managed Health Plans to offer enhanced high-risk OB case management services to participants

*Indiana Pregnancy
Promise Program*

Pregnancy Promise Program – Eligibility and Referral

To be eligible, participants must meet the following criteria:

- Pregnant or within 90 days of the end of pregnancy
- Identify as having current or previous opioid use
- Be eligible for or receive Medicaid health coverage

Indiana Pregnancy Promise Program

What are the Pregnancy Promise Program benefits?

- **Connection:** Participants in the Pregnancy Promise Program will be matched with a case manager. Case managers will offer confidential support during enrollment to be sure parents and infants receive the care and resources they need during and after pregnancy to be healthy and well.
- **Coordination:** Pregnancy Promise Program case managers will work with participants and their team of doctors and providers to coordinate care and identify community resources for families.
- **Prevention:** By connecting pregnant individuals with health care and treatment as early as possible, the Pregnancy Promise Program aims to reduce and prevent the negative impacts of opioid use to the parent and child.

To make a referral for yourself or someone you know, visit www.PregnancyPromise.in.gov, email PregnancyPromise@fssa.in.gov, call 317-234-5336 or call toll-free 888-467-2717.

Pregnancy Promise Program Enrollment

- 675 enrollees to date
- 475 infants born to date
- 86 counties with enrollment

*Indiana Pregnancy
Promise Program*

Enrollment Trends:

- ❖ 89% participants identify as White/Non-Hispanic
- ❖ 70% between the ages of 25-35 years old
- ❖ 95% have multiple co-occurring mental health conditions
- ❖ 65% enroll during pregnancy vs. early postpartum period

Pregnancy Promise Program Preliminary Outcomes & Next Steps

- 94% program retention of mothers
- 94% no documented or reported setbacks or return to use
- 92% of infants discharged home with mother following birth
- 82-85% infants born with healthy birth weight
- 72% discharged after 0-5 days observation
- 50-55% of infants receive breastmilk
- 30% received diagnosis of NAS

Sustainability Planning:

- Comparison analysis underway led by FSSA Data & Analytics Team
- Ongoing communication with MCEs to develop long-term programming
- Various pathways for fiscal sustainability being explored
