Message from Indiana State Cancer Registry to Healthcare Providers

The Indiana State Cancer Registry (ISCR) would like to remind health care providers in Indiana of state-mandated cancer case reporting requirement:

- Starting from Jan. 1, 2026, please avoid "paper reporting" of cancer cases (mailed, faxed, scanned records).
- We encourage switching to **electronic reporting** by using a secure WebPlus portal at <https://webplus.isdh.in.gov/logonon.aspx>. Contact us at CancerRegistry@health.IN.gov to get your user ID and password.
- Access further instructions on how to **abstract (fill out)** cancer cases in WebPlus and how to submit files to us at:
 - 1) [Health: CDPC: Policy and Procedure Manuals](#)
 - 2) [FCDS - LMS - Frontend - Log In](#) (register as a new user to access materials)
- To receive timely updates from us, submit or update your **contact information** through the QR code on the right or [here](#).

ISCR was established for the purpose of recording cancer cases required to be reported by the federal National Program of Cancer Registries and by [Indiana Code 16-38-2](#) and [Indiana Administrative Code, 410 IAC 21-1](#). Cancer case reporting is mandatory for hospitals, physicians, dentists, medical laboratories, radiation or medical oncology clinics, outpatient surgical centers, nursing homes and other health facilities. Thank you for your compliance efforts!

Sincerely,

Ainur Aiypkhanova, DrPH, MHA
Cancer Registry and Surveillance Director
Division of Chronic Disease, Primary Care, and Rural Health
317-233-7424
