

Children's Special Health Care Services Administrative Policy Manual

Benefit – Basic Services Policy # C-1a

DocuSigned by:

BD4B0861CBE34C4

Title: Director,
Children's Special Health Care Services (CSHCS)

Latest Revision Date: January 1, 2023

Previous Title: Provision of Primary/Secondary Care
Effective Date: July 1, 1993
Revision Reason: Clarify to enable fair, objective and consistent administration.

Title: Primary Medical Care

Purpose: To describe the primary medical care benefit to be provided in the Basic Services included in the Health Care Service Package.

Rule References:

- 410 IAC 3.2-1-27 – “Primary care visits” defined
- 410 IAC 3.2-7-1 – Health care delivery system
- 410 IAC 3.2-7-2 – Basic services included in the health care service package

Policy: Primary Medical Care equates to “Well Child Care”. Each participant in the CSHCS program will be assigned “Linked” to a Primary Care Physician, where they will receive observation and care in accordance with recommendations of the American Academy of Pediatrics.

Discussion: Linkage of each participant to a Primary Care Physician provides “**access to care**” for the participant. The Primary Care Physician will be an individual or group of individuals, each of which possess an unlimited license to practice medicine. Medically necessary care provided by this physician within their office. However, services, which are excluded from coverage, will not be reimbursed.

The Primary Care Physician “**Linked**” with the participant may be board certified in a specialty appropriate for the “Secondary Care” required by the participant, due to the participant’s diagnoses or eligible medical condition.

Each participant will be “**Linked**” to at least one (1), sometimes several physicians certified in specialties appropriate for the treatment of the participant’s diagnoses or eligible medical condition(s).
