REPORT OF INDEPENDENT AUDITORS

Board of Managers King's Daughters' Health and Affiliated Organization Madison, Indiana

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of King's Daughters' Health and its affiliated organization (the "Hospital")(a nonprofit organization), which comprise the consolidated balance sheets as of December 31, 2017 and 2016, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

Board of Managers King's Daughters' Health and Affiliated Organization Madison, Indiana

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Hospital as of December 31, 2017 and 2016, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 3 to the consolidated financial statements, the Hospital adopted new accounting guidance, Accounting Standards Update 2015-03, *Interest – Imputation of Interest*, which simplifies the presentation of debt issue costs. Our opinion is not modified with respect to this matter.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

1. NATURE OF OPERATIONS

King's Daughters' Health ("KDH") is a not-for-profit, acute care hospital owned by the Bethany Circle of King's Daughters' of Madison, Indiana, Inc., located in Madison, Indiana. KDH is organized for the purpose of providing healthcare services to the residents of Jefferson County, Indiana and the surrounding area. KDH's primary sources of support are from patient revenues. Patient revenues include funds received from Medicare, state agencies, insurance companies, and the patients themselves.

The King's Daughters' Hospital Foundation, Inc. (the "Foundation") is a not-for-profit organization created in 2005 and located in Madison, Indiana. The Foundation operates for the benefit of KDH. The Foundation's main sources of revenue are earnings on investments and contributions received.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies followed by KDH and the Foundation (collectively the "Hospital") in the preparation of the consolidated financial statements are summarized below:

Reporting Entity and Consolidation Policy

The accompanying consolidated financial statements include the accounts of KDH and the Foundation. Intercompany transactions and balances have been eliminated in consolidation.

Management's Estimates

Management uses estimates and assumptions in preparing the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, if any, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

Cash and Cash Equivalents

Cash and cash equivalents include certain investments in highly liquid debt instruments with original maturities of three months or less excluding amounts included in assets whose use is limited.

Patient Accounts Receivable and Net Patient Service Revenue

The Hospital recognizes net patient service revenues on the accrual basis of accounting in the reporting period in which services are performed based on the current gross charge structure, less actual adjustments and estimated discounts for contractual allowances, principally for patients covered by Medicare, Medicaid, managed care, and other health plans. Gross patient service revenue is recorded in the accounting records using the established rates for the types of service provided to the patient. The Hospital recognizes an

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

estimated contractual allowance to reduce gross patient charges to the estimated net realizable amount for service rendered based upon previously agreed-to rates with a payor. The Hospital utilizes the patient accounting system to calculate contractual allowances on a payor-by-payor basis based on the rates in effect for each primary third-party payor. Another factor that is considered and could further influence the level of the contractual reserves includes the status of accounts receivable balances as inpatient or outpatient. The Hospital's management continually reviews the contractual estimation process to consider and incorporate updated laws and regulations and the frequent changes in managed care contractual terms that result from contract negotiations and renewals.

Payors include federal and state agencies, including Medicare and Medicaid, managed care health plans, commercial insurance companies, and patients. These third-party payors provide payments to the Hospital at amounts different from its established rates based on negotiated reimbursement agreements. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and fee schedule payments. Retroactive adjustments under reimbursement agreements with third-party payors are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Allowance for Doubtful Accounts

Accounts receivable are reduced by an allowance for doubtful accounts based on the Hospital's evaluation of its major payor sources of revenue, the aging of the accounts, historical losses, current economic conditions, and other factors unique to the service area and the healthcare industry. Management regularly reviews data about the major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts.

For receivables associated with services provided to patients who have third-party payor coverage, the Hospital analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts, if necessary (for example, expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid, or for payors who are known to be having financial difficulty that make the realization of amounts due unlikely). For receivables associated with self-pay payments, which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill, the Hospital records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

The difference between the standard rates (or the discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts. The December 31, 2017 and 2016 allowance for doubtful accounts balances were comprised of the following:

| | 2017 | 2016 | |
|--|-----------------|-----------------|--|
| Reserve for third-party payor balances | \$ 1,798,008 | \$ 1,729,256 | |
| Reserve for self-pay balances | 7,515,270 | 6,514,967 | |
| Total allowance for doubtful accounts | \$ 9,313,278 | \$ 8,244,223 | |

Inventories

Inventories consist of medical supplies, pharmaceuticals, and office supplies and are valued at the lower of cost or net realizable value, with cost being determined on the first-in, first-out (FIFO) method.

Assets Whose Use is Limited

Assets whose use is limited include assets set aside by the Hospital's Board of Managers for future capital improvements and other long-term uses, over which the Board retains control and may at its discretion subsequently use for other purposes; assets held by trustees under indenture agreements; temporarily restricted assets whose use by the Hospital has been limited by donors to a specific time period or purpose; permanently restricted net assets whose use by the Hospital has been restricted by donors in perpetuity; and deferred compensation assets related to certain deferred compensation agreements.

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair market value in the consolidated balance sheets. Investment income or loss, including unrealized gains and losses on trading securities, interest, and dividends is included in nonoperating gains of unrestricted net assets, unless the income is restricted by donor or law.

Property and Equipment

Property and equipment are recorded at cost, except for donations, which are recorded at the fair market value at the date of the donation. Property and equipment include expenditures for additions and repairs which substantially increase the useful lives of existing property and equipment. Maintenance, repairs, and minor improvements are expensed as incurred.

The property and equipment of the Hospital are being depreciated using the straight-line method of depreciation over their estimated useful lives based upon the American Hospital Association's *Estimated Useful Lives of Depreciable Hospital Assets*.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

Cost of Borrowing

Interest costs incurred on borrowed funds during the period of construction of capital assets, if any, are capitalized as a component of the cost of acquiring those assets. For the years ended December 31, 2017 and 2016, interest costs incurred were as follows:

| | | 2017 | 2016 |
|----------------------------|----|-----------|-----------------|
| Interest costs capitalized | \$ | -0- | \$ -0- |
| Interest costs expensed | | 5,412,200 | 5,466,172 |
| Interest costs incurred | \$ | 5,412,200 | \$ 5,466,172 |

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the Hospital has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the Hospital in perpetuity.

Consolidated Statements of Operations

For purposes of display, transactions deemed by management to be ongoing, major, or central to the provision of healthcare services are reported as operating revenues and expenses and included within the line *income* (*loss*) from operations in the consolidated statements of operations. Peripheral and incidental transactions are reported as nonoperating gains (losses). Nonoperating gains (losses) which are excluded from *income* (*loss*) from operations include contributions and donations, investment income or loss, and gain or loss on disposal of capital assets.

Performance Indicator

The consolidated statements of operations include excess revenues (expenses). Consistent with industry practice, changes in net assets which are excluded from excess revenues (expenses) include, if any, unrealized gains and losses on investments other than trading securities, permanent transfers of assets to and from affiliates for other than goods and services, and contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets).

Advertising

The Hospital expenses advertising costs as incurred. Advertising expenses were \$180,078 and \$172,846 for the years ending December 31, 2017 and 2016, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

Charity Care

The Hospital provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Amounts determined to qualify as charity care are reported as deductions from revenue.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets to the Hospital are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give, if any, are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted revenue if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

Income Taxes

KDH and the Foundation are not-for-profit corporations as described in Section 501(c)(3) of the Internal Revenue Code and are exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. As such, KDH and the Foundation are generally exempt from income taxes. However, KDH and the Foundation are required to file Federal Form 990 – Return of Organization Exempt from Income Tax which is an informational return only.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Hospital and recognize a tax liability if the Hospital has taken an uncertain tax position that more likely than not would not be sustained upon examination by various federal and state taxing authorities. Management has analyzed the tax positions taken by the Hospital, and has concluded that as of December 31, 2017 and 2016, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the accompanying consolidated financial statements. The Hospital is subject to routine audits by taxing jurisdictions. However, as of the date the financial statements were issued, there were no audits for any tax periods in progress.

Going Concern Evaluations

Management evaluates whether there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern for a period of one year from the date the financial statements are issued.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

Risk Management

The Hospital is exposed to various risks of loss from torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; and employee health and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters. Settled claims have not exceeded this commercial coverage in any of the three preceding years. The Hospital is insured for medical malpractice claims and judgments.

Reclassifications

Certain 2016 amounts have been reclassified to provide for consistency with reporting of 2017 information. These reclassifications have no effect on the previously reported total change in net assets or net assets.

Subsequent Events

The Hospital has evaluated events or transactions occurring subsequent to the consolidated balance sheet date for recognition and disclosure in the accompanying consolidated financial statements through the date the consolidated financial statements are issued, which is May 15, 2018.

3. CHANGE IN ACCOUNTING PRINCIPLE

During 2017, the Hospital adopted Accounting Standards Update 2015-03, *Interest – Imputation of Interest*, which simplifies the presentation of bond issue costs by presenting them as a direct deduction from the face amount of the related debt. Previously, bond issue costs were aggregated and presented as a deferred charge within the other assets section of the consolidated balance sheet. Bond issue costs will continue to be amortized over the term of the related debt, but are now presented as a component of interest expenses in the consolidated statement of operations.

The 2016 consolidated financial statements have been retroactively restated to adopt this new guidance as detailed in the following table:

| | As previously | | | Effects of | | |
|---------------------------------------|---------------|------------|----|--------------|----|-------------|
| | | reported | im | olementation | / | As restated |
| Consolidated balance sheet: | | | | | | |
| Other assets | \$ | 7,463,899 | \$ | (1,532,827) | \$ | 5,931,072 |
| Long-term debt | \$ | 93,823,589 | \$ | (1,532,827) | \$ | 92,290,762 |

| Consolidated statement of cash flows: | | | | | | |
| Amortization | \$ | 53,472 | \$ | (53,472) | \$ | -0- |
| Amortization of bond issue costs | \$ | -0- | \$ | 53,472 | \$ | 53,472 |

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

4. ASSETS WHOSE USE IS LIMITED

Assets whose use is limited are reported at market value and include the following at December 31, 2017 and 2016:

| | 2017 | 2016 |
|-----------------------------------|----------------|---------------|
| Cash | \$ 3,981,382 | \$ 1,273,733 |

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

Board-Designated Funds

The Hospital's Board of Managers approved the funding of depreciation expense to meet the capital asset replacement needs of the facility. Depreciation is funded totally with expenditures for capital assets reducing the funded depreciation balance. All income amounts earned by the Board-designated funds are left to accumulate as additions to the funds.

Trustee-Held Funds

The trustee-held funds are restricted for the payments of principal, interest, and construction costs related to certain long-term debt agreements.

Donor-Restricted Funds

Donor-restricted funds represent contributions that have been restricted by the donors for a specific purpose.

Deferred Compensation Funds

The deferred compensation funds represent assets that have accumulated under separate deferred compensation plans. The Hospital simply maintains the funds for the participants until they are withdrawn according to the specific terms of each separate deferred compensation agreement. The Hospital records liabilities equal to the deferred compensation assets.

Fair Value Measurements and Disclosures

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Hospital has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in
 active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs
 other than quoted prices that are observable for the asset or liability; inputs that are derived
 principally from or corroborated by observable market data by correlation or other means. If the
 asset or liability has a specified (contractual) term, the level 2 input must be observable for
 substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

- Money market mutual funds: Generally transact subscription and redemption activity at a \$1 stable
 net asset value (NAV); however, on a daily basis the funds are valued at their daily NAV calculated
 using the amortized cost of the securities held in the fund.
- Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.
- Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the
 Hospital are open-end mutual funds that are registered with the Securities and Exchange
 Commission. These funds are required to publish their daily net asset value and to transact at that
 price. The mutual funds held by the Hospital are deemed to be actively traded.
- Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.
- U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

The following table sets forth by level, within the hierarchy, the Hospital's assets measured at fair value on a recurring basis as of December 31, 2017 are as follows:

| | Level 1 | Level 2 | | evel 3 | Total |
|-----------------------------------|-------------------|------------------|----|--------|-------------------|

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

The Hospital's policy is to recognize transfers between levels as of the end of the reporting period. There were no significant transfers between levels 1 and 2 during 2017 and 2016.

Risks and Uncertainties

The Hospital holds investments in common stocks, mutual funds, corporate bonds, and U.S. Government Securities. Such investments are exposed to various risks such as interest rate, market, and credit. Due to the level of risk associated with these securities and the level of uncertainty related to changes in value, it is at least reasonably possible that changes in the various risk factors will occur in the near term that could affect the amounts reported in the accompanying consolidated financial statements. The Hospital's management is currently unable to determine the effect, if any, the decline in market conditions may ultimately have on the Hospital's investment portfolio and ability to fund certain projects.

5. PROPERTY AND EQUIPMENT, NET

Property and equipment, net consists of the following at December 31, 2017 and 2016:

| | 2017 | 2016 |
|-------------------------------|----------------|----------------|
| Land | \$ 4,045,918 | \$ 4,937,784 |
| Buildings and improvements | 117,987,460 | 119,252,475 |
| Fixtures and equipment | 63,480,802 | 64,213,779 |
| | 185,514,180 | 188,404,038 |
| Less accumulated depreciation | (78,694,337) | (73,018,343) |
| | 106,819,843 | 115,385,695 |
| Construction in progress | 185,916 | 164,766 |
| Property and equipment, net | \$ 107,005,759 | \$ 115,550,461 |

Impairment of Property and Equipment

The Hospital evaluates the recoverability of the carrying value of long-lived assets whenever events or circumstances indicate the carrying amount may not be recoverable. If a long-lived asset is tested for recoverability and the undiscounted estimate future cash flows expected to result from the use and eventual disposition of the asset is less than the carrying amount of the asset, the asset cost is adjusted to fair value and an impairment loss is recognized as the amount by which the carrying amount of a long-lived asset exceeds its fair value. The Hospital did not recognize a loss on impairment of property and equipment for the years ended December 31, 2017 and 2016, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

Conditional Asset Retirement Obligation

FASB Accounting Standards Codification Topic 410 (Topic 410) clarified when an entity is required to recognize a liability for a conditional asset retirement obligation. Management has considered Topic 410, specifically as it relates to its legal obligation to perform asset retirement activities, such as asbestos removal, on its existing properties. Management believes there is an indeterminate settlement date for the asset retirement obligations because the range of time over which the Hospital may settle the obligations is unknown and cannot be estimated. As a result, as of December 31, 2017 and 2016, the Hospital cannot reasonably estimate a liability related to these potential asset retirement activities.

6. OTHER ASSETS

Other assets consist of the following at December 31, 2017 and 2016:

| | 2017 | 2016 |
|--|--------------|--------------|
| Investment in captive insurance company | 335,311 | 335,311 |
| Captive insurance company subscriber savings | 1,558,773 | 1,284,878 |
| Executive Benefit Plan notes receivable | 3,967,401 | 3,422,030 |
| Life insurance policies | 379,280 | 371,637 |
| Physician recruiting notes receivable | 456,146 | 576,185 |
| Pledges receivable | 187,924 | 274,543 |
| Total other assets | 6,884,835 | 6,264,584 |
| Less: current portion of other assets | (298,734) | (333,512) |
| Other assets, net of current portion | \$ 6,586,101 | \$ 5,931,072 |

The Hospital is a 7.1 percent owner of Tecumseh Health Reciprocal Risk Retention Group (the "Captive"), a risk retention company created to purchase professional liability and general liability insurance for its members. The Hospital accounts for this investment using the cost method. In addition, the Captive retains a subscriber savings account for each of its members based upon the premiums paid in and the resulting claims paid out, plus other factors. Members are paid the balance of their subscriber savings account once they leave the Captive in accordance with the terms of the Captive agreement.

See Note 7 for a description of the Executive Benefit Plan.

The Hospital is the holder of life insurance policies for several different physicians and key management members. The Hospital has a liability outstanding for the expected payout that will be paid out on the insured's behalf.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

Physician recruiting notes receivable are forgiven if the physicians meet the period of service requirement. If the physicians do not meet the period-of-service requirement, the notes are immediately due in full. Other physician notes receivable are paid back over the terms of the notes. All physician notes receivable are in varying amounts maturing through April 2022 and carry interest rates ranging from 3.25 percent to 4.25 percent.

Pledges receivable represent pledges made by donors for the construction of the cancer center at the Hospital. Pledges receivable are recorded at their estimated net realizable value and discounted to their estimated net present value. The Hospital's management uses historical losses, economic climate, and other factors when estimating the allowance for uncollectible pledges amount. The allowance for uncollectible pledges was \$-0- at both December 31, 2017 and 2016. Pledges receivable consist of the following at December 31, 2017 and 2016:

| | 2017 | | 2016 | |
|---|------|----------|------|----------|
| Pledges receivable | \$ | 201,686 | \$ | 312,925 |
| Less: discounts to present value (4.5%) | | (13,762) | | (38,382) |
| Pledges receivable, net of discount | \$ | 187,924 | \$ | 274,543 |

The maturity of pledges receivable at December 31, 2017 is as follows:

| Total | \$ 187,924 |
|-------------------------|---------------|
| Unamortized discounts | (13,762) |
| Due in 1 to 5 years | 113,309 |
| Due in less than 1 year | 88,377 |

The current portion of other assets represents the amount of notes receivable from physicians expected to be repaid or forgiven in the next fiscal year, according to individual employment contracts and the amount of pledges receivable due in one year.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

7. EXECUTIVE BENEFIT PLAN

The Hospital entered into collateral assignment split-dollar life insurance arrangements, referred to as the Executive Benefit Plan, for eight of its executives. Under the Executive Benefit Plan, the Hospital shall pay the planned periodic premiums set forth in the policies for each participant during their employment with the Hospital. The premium payments made by the Hospital shall be treated as a series of loans (notes) by the Hospital to the participants that are secured by the death benefit of the policy.

Death benefits under the policy subject to a collateral assignment are as follows:

- 1. The employer shall receive an amount equal to the recoverable amount, determined as of the date the death benefit is paid, which amount shall be paid before any other amounts, and
- 2. The balance of the death benefit shall be payable to the beneficiary under the policy.

The recoverable amount is determined as follows:

- 1. The pre-effective date premium amount plus the premium accretion amount, using the applicable interest rate, plus
- 2. The cumulative premiums that have been paid by the employer plus the premium accretion amount for each premium payment using the interest factor.

The balance of the Executive Benefit Plan notes receivable as of December 31, 2017 and 2016 was \$3,967,401 and \$3,422,030, respectively. The notes bear interest at the applicable Federal rate for a term loan, as defined in Internal Revenue Code Section 1274(d), at the date the note is made. The Federal rates for the notes outstanding at December 2017 range from 2.54% to 3.39%.

8. OBLIGATIONS UNDER CAPITAL LEASES

The Hospital is the lessee of certain equipment under capital leases expiring in various years through 2021. The assets and liabilities under capital leases are initially recorded at the lower of the present value of the minimum lease payments or the fair value of the asset. Amortization of assets held under capital leases is included in depreciation expense and was \$380,231 and \$357,456 for the years ended December 31, 2017 and 2016, respectively.

Following is a summary of property held under capital leases:

| | | 2017 | | 2017 | | 2017 | | 2016 |
|--------------------------------|----|-----------|----|-----------|--|------|--|------|
| Equipment | \$ | 1,876,069 | \$ | 1,534,378 | | | | |
| Less: accumulated amortization | | 624,340 | | 678,608 | | | | |
| | \$ | 1,251,729 | \$ | 855,770 | | | | |

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

Minimum future lease payments under capital leases as of December 31, 2017 are as follows:

| Year Ending December 31, | | Amount |
|------------------------------------|----|-----------|
| 2018 | \$ | 513,203 |
| 2019 | | 452,863 |
| 2020 | | 449,773 |
| 2021 | | 50,819 |
| | | 1,466,658 |
| Less: amount representing interest | | 96,642 |
| Present value of minimum | | |
| lease payments | \$ | 1,370,016 |

9. LONG-TERM DEBT

At December 31, 2017 and 2016, the Hospital was obligated for long-term debt agreements as follows:

| | 2017 | 2016 |
|--|------------------|------------------|
| Indiana Finance Authority Hospital Revenue Bonds, dated October 2010, payable in annual principal installments commencing August 2015 through August 2045, in amounts ranging from \$1,370,000 to \$6,400,000. Serial remaining fixed interest rates ranging from 5.0% to 5.5%. Secured by gross revenues. | \$ 95,740,000 | \$ 97,235,000 |
| Less unamortized bond discounts | (1,853,215) | (1,916,411) |
| Less bond issue costs | (1,479,355) | (1,532,827) |
| Less current portion | (1,570,000) | (1,495,000) |
| Long-term debt, net of current portion | \$ 90,837,430 | \$ 92,290,762 |

Bond issue costs are being amortized over the 35-year life of the bonds beginning in 2010.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

Maturities of long-term debt for each of the five years subsequent to December 31, 2017, are as follows:

| | Principal | | |
|--------------------------|-----------|------------|--|
| Year Ending December 31, | Amount | | |
| 2018 | \$ | 1,570,000 | |
| 2019 | | 1,645,000 | |
| 2020 | | 1,730,000 | |
| 2021 | | 1,815,000 | |
| 2022 | | 1,910,000 | |
| Thereafter | | 87,070,000 | |
| Total | \$ | 95,740,000 | |

Under the terms of the Series 2010 Bonds, the Hospital is required to maintain certain deposits with a trustee. Such deposits are reported in the consolidated financial statements as assets whose use is limited. These agreements also place limits on the occurrence of additional borrowings and require that the Hospital satisfy certain covenants, including debt service coverage ratio, days cash on hand, and submission of audited financial statements. Management believes the Hospital is in compliance with all restrictive covenants.

10. TEMPORARILY AND PERMANENTLY RESTRICTED NET ASSETS

Temporarily restricted net assets are donor-restricted for a specific use or by the passage of time. Permanently restricted net assets are donor-restricted assets whereby the principal amount is never to be expended. Income earned from these principal amounts includes both temporarily restricted and unrestricted amounts. Temporarily and permanently restricted net assets include the following at December 31, 2017 and 2016:

| | 2 | .017 | 2016 | | |
|---|----|-------|----------|-------|--|
| Temporarily restricted | | | <u> </u> | | |
| Prenatal/Postnatal Education Program Fund | \$ | 386 | \$ | 1,846 | |
| May Library Fund | | -0- | | 4,641 | |
| National Nurses Week | | -0- | | 39 | |
| Patient Scales | | -0- | | 219 | |

11. ENDOWMENTS

The Hospital's endowments consist of individual donor-restricted funds established by the donors to function as endowments. As required by accounting principles generally accepted in the United States of America, net assets associated with endowment funds, including funds designated by the Board of Managers to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Board of Managers has interpreted the Uniform Prudent Management of Institutional Funds Act ("UPMIFA") as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Hospital classifies as permanently restricted net assets (a) the original value of the gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets, if any, is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Hospital in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Hospital considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds.

- (1) The duration and preservation of the fund
- (2) The purposes of the Hospital and the donor-restricted endowment funds
- (3) General economic conditions
- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the Hospital
- (7) The investment policies of the Hospital

The Hospital has adopted investment and spending policies for endowment assets that attempt to balance the mission of building capital for future use with the corresponding obligation to support current and future needs of the Hospital. Endowment assets include those assets of donor-restricted funds that the organization must hold in perpetuity or for a donor-specified period. Under this policy, as approved by the Board of Managers, the endowment assets are invested in a manner that is intended to produce long-term growth of capital without undue exposure to risk.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

To satisfy its long-term rate of return objectives, the Hospital relies on a total return strategy in which investment decisions shall be made with the intent of maximizing the long-term total return of the portfolio through market value changes (realized and unrealized) and through earned income (dividends and interest).

On balances of endowed funds, as of the beginning of each fiscal year, an amount as determined by the Hospital Board will be distributed for the intended purposes of the endowment annually. Growth of the endowment will come from the annual earnings of investments in excess of distributions plus contributions made to the endowment.

Endowment net asset composition by type of fund as of December 31, 2017 is as follows:

| | Tem | porarily | Per | manently | | |
|----------------------------------|------------|----------|------------|----------|-------|--------|
| | Restricted | | Restricted | | Total | |
| Donor restricted endowment funds | \$ | 2,244 | \$ | 20,000 | \$ | 22,244 |

Changes in Endowment Net Assets for the year ended December 31, 2017 is as follows:

| | Tem | porarily | Per | manently | |
|---|-----|----------|-----|-----------|--------------|
| | Re | stricted | Re | estricted | Total |
| Endowment net assets, beginning of year | \$ | 1,188 | \$ | 20,000 | \$ 21,188 |

12. NET PATIENT SERVICE REVENUE

For the years ended December 31, 2017 and 2016, net patient service revenue was as follows:

| | 2017 | 2016 |
|-------------------------------------|----------------|----------------|
| Gross patient service revenue | | |
| Inpatient revenue | \$ 96,267,087 | \$ 91,003,450 |
| Outpatient revenue | 286,009,117 | 269,242,819 |
| Total gross patient service revenue | 382,276,204 | 360,246,269 |
| Deductions from revenue | | |
| Contractual allowances | (241,873,942) | (223,404,664) |
| Charity care | (1,439,511) | (1,601,743) |
| Medicaid DSH recognized | 218,284 | 2,378,669 |
| Provision for bad debts | (11,956,871) | (12,305,614) |
| Total deductions from revenue | (255,052,040) | (234,933,352) |
| Total net patient service revenue | \$ 127,224,164 | \$ 125,312,917 |

For the years ended December 31, 2017 and 2016, net patient service revenue, net of contractual allowances and discounts (but before the provision for bad debts), by major payor source was as follows:

| | 2017 | 2016 |
|--|------------------------------------|-----------------------------|
| Patient service revenue (net of contractual allowances and discounts): | | |
| Third party payors Patients | \$ 129,315,591 <u>9,865,444</u> | \$ 129,058,257 8,560,274 |
| Total | \$ 139,181,035 | \$ 137,618,531 |

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

The Hospital grants credit without collateral to its patients, most of who are local residents and insured under third-party payor agreements. The mix of receivables from patients and third-party payors at December 31, 2017 and 2016 is as follows:

| | 201 | 7 | _ | 20 | 16 |
|------------------|---------|-------------|---|---------|-------------|
| | Revenue | Receivables | _ | Revenue | Receivables |
| Medicare | 49 % | 34 | % | 45 % | 40 |
| Medicaid | 16 | 20 | | 17 | 14 |
| Blue Cross | 18 | 12 | | 20 | 13 |
| Other Commercial | 14 | 20 | | 16 | 19 |
| Self-Pay | 3 | 14 | = | 2 | 14 |
| | 100 % | 100 | % | 100_% | 100 |

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

- **Medicare**. The Hospital is a provider of services to patients entitled to coverage under Title XVIII (Medicare) of the Health Insurance Act. The Hospital is reimbursed for Medicare inpatient services based on a fixed price per discharge for each diagnosis related grouping (DRG) and Medicare outpatient services based on a fixed price per clinical unit of service. Differences between the total program billed charges and the payments received are reflected as deductions from revenue. At the Hospital's year end, a cost report is filed with the Medicare program computing reimbursement amounts related to Medicare patients. The difference between computed reimbursement and interim reimbursement is reflected as a receivable from or payable to the third-party program. The Hospital's classification of patients under the Medicare program and the appropriateness of their admission are subject to an independent review by a peer review organization under contract with the Hospital. As of December 31, 2017, the Hospital's submitted Medicare cost reports have been final settled with the Fiscal Intermediary through December 31, 2014.
- Medicaid. The Hospital is a provider of services to patients entitled to coverage under Title XIX
 (Medicaid) of the Health Insurance Act. The Hospital is reimbursed for Medicaid inpatient services
 under a prospectively determined rate-per-discharge and Medicaid outpatient services based on a
 fixed price per clinical unit of service. Differences between the total program billed charges and the
 payments received are reflected as deductions from revenue. There is no cost settlement for either
 of the inpatient or outpatient programs.
- **Other**. The Hospital has also entered into preferred provider agreements with certain commercial insurance carriers. The basis for payment to the Hospital under these arrangements is a discount from established charges and fee schedule payments.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

• Charity Care and Uninsured Discounts. The Hospital provides care without charge or at less than its established rates to patients who meet certain criteria under its charity care policy. Because the Hospital does not collect amounts deemed to be charity care, they are not reported as revenue. The estimated costs of providing charity services are based on a calculation which applies a ratio of costs to charges to the gross uncompensated charges associating with providing care to charity patients. The ratio of cost to charges is calculated based on the Hospital's total operating expenses divided by gross patient service revenue. For the years ended December 31, 2017 and 2016, the Hospital incurred estimated charity costs of \$465,613 and \$545,398, respectively.

The health care industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Recently, government activity has increased with respect to investigation and/or allegations concerning possible violations of fraud and abuse statutes and/or regulations by health care providers. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Final determination of compliance with such laws and regulations is subject to future government review and interpretation. Violations may result in significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. The Hospital believes that it is in compliance with all applicable laws and regulations.

The Centers for Medicare and Medicaid Services ("CMS") has been granted authority to suspend payments, in whole or in part, to Medicare providers if CMS possess reliable information on overpayment, fraud or if willful misrepresentation exists. If CMS suspects payments are being made as the result of fraud or misrepresentation, CMS may suspend payment at any time without providing prior notice to the Hospital. The initial suspension period is limited to 180 days. However, the payment suspension period can be extended indefinitely if the matter is under investigation by the United States Department of Health and Human Services Office of Inspector General or the United States Department of Justice. Therefore, the Hospital is unable to predict if or when it may be subject to a suspension of payments by the Medicare and/or Medicaid programs, the possible length of the suspension period, or the potential cash flow impact of a payment suspension. Any such suspension would adversely impact the Hospital's financial position, results of operations, and cash flows.

13. ELECTRONIC HEALTH RECORDS (EHR) INCENTIVE PAYMENTS

The Hospital receives EHR incentive payments under the Medicare and Medicaid programs. To qualify for EHR incentive payments, the Hospital must meet "meaningful use" criteria that become more stringent over time. The Hospital periodically submits and attests to its use of certified EHR technology, satisfaction of meaningful use objectives, and various patient data. These submissions generally include performance measures for each annual EHR reporting period (Federal fiscal year ending on September 30th). The related EHR incentive payments are paid out over a four year transition schedule and are based upon data that is captured in the Hospital's cost reports. The payment calculation is based upon

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

an initial amount as adjusted for discharges, program utilization using inpatient days multiplied by a factor of total charges excluding charity care to total charges, and a transitional factor that ranges from 100% in first payment year and thereby decreasing by 25% each payment year until it is completely phased out in the fifth year.

The Hospital recognizes EHR incentive payments as grant income when there is reasonable assurance that the Hospital will comply with the conditions of the meaningful use objectives and any other specific grant requirements. In addition, the financial statement effects of the grants must be both recognizable and measurable. During 2017 and 2016, the Hospital recognized \$511,265 and \$1,038,181, respectively, in EHR incentive payments as grant income using the cliff recognition method. Under the cliff recognition method, the Hospital records income at the end of the EHR reporting period in which compliance is achieved. EHR incentive income/expense is included in other revenue in the consolidated statements of operations. EHR incentive income recognized is based on management's estimate and amounts are subject to change, with such changes impacting operations in the period the changes occur. Receipt of these funds is subject to the fulfillment of certain obligations by the Hospital as prescribed by the program, subject to future audits and may be subject to repayment upon a determination of noncompliance.

14. RETIREMENT PLAN

The Hospital sponsors a defined contribution retirement plan that covers all eligible employees who work over 1,000 hours a year. All employees are eligible for enrollment on the first day of the month following their hire date. The Hospital contributes 2 percent for each eligible employee. The employee may contribute up to 15 percent with a maximum of 6 percent being matched at a rate of 50 percent. For the years ended December 31, 2017 and 2016, the amount of retirement expense was \$1,880,762 and \$1,661,657, respectively.

15. DEFERRED COMPENSATION AGREEMENTS

Previously, the Hospital maintained a deferred compensation plan for a select group of key management employees. Under the terms of the plan, the Hospital contributed 4 percent of a participant's compensation, as defined in the agreement, each calendar quarter. The Hospital no longer offers this plan, but still records a liability for any amounts that were unpaid at year-end. The deferred compensation asset and liability amounts under this agreement were both \$40,735 and \$47,021 at December 31, 2017 and 2016, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

16. PROFESSIONAL LIABILITY INSURANCE

The Indiana Medical Malpractice Act (the "Act"), IC 34-18, provides a maximum recovery of \$400,000 for an occurrence of malpractice and \$1,650,000 for an injury or death of a patient due to an act of malpractice. The Act requires physicians to maintain medical malpractice liability insurance in the minimum amount of \$400,000 per occurrence and \$1,200,000 in the annual aggregate and hospitals to maintain medical malpractice liability insurance in the minimum amount of \$400,000 per occurrence and \$8,000,000 for hospitals with less than 100 occupied beds. The Hospital's insurance policies conform to the Act. The Act also requires the Hospital to pay a surcharge to the State Patient's Compensation Fund. This fund may be used to pay medical malpractice claims in excess of the annual aggregate amount noted above, under certain terms and conditions.

The Hospital maintains professional liability insurance through a multi-provider reciprocal risk retention group (the "Group"), in which premiums are accrued based on the Group's experience to date. This provides protection from liability in amounts not to exceed as follows:

| | 2017 | 2016 |
|---|---|---|
| Hospital per occurrence | \$ 400,000 | \$ 250,000 |
| Hospital aggregate | \$ 8,000,000 | \$ 5,000,000 |
| Group umbrella aggregate Group first additional umbrella aggregate Group second additional umbrella aggregate | \$ 10,000,000 10,000,000 10,000,000 | \$ 10,000,000 10,000,000 10,000,000 |
| Total Group umbrella aggregate | \$ 30,000,000 | \$ 30,000,000 |

Liabilities for incurred but not reported losses at December 31, 2017 and 2016 are not determinable; however, in management's opinion, such liabilities, if any, will not have a material effect on the Hospital's financial position and its malpractice and general liability insurance is adequate to cover losses, if any. Should the policies not be renewed or replaced with appropriate insurance coverage, claims based upon occurrences during these terms, but reported subsequently, will be uninsured. The Hospital intends to continue carrying such insurance.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

17. HOSPITAL ASSESSMENT FEE

The purpose of the Hospital Assessment Fee ("HAF") Program is to fund the State share of enhanced Medicaid payments and Medicaid Disproportionate Share ("DSH") payments for Indiana hospitals as reflected in the hospital assessment fee reported in the consolidated statements of operations. Previously, the State share was funded by government entities through intergovernmental transfers. The Medicaid enhanced payments relate to both fee for service and managed care claims. The Medicaid enhanced payments are designed to follow the patients and result in increased Medicaid rates. The Hospital recognized HAF program expense of \$2,729,746 and \$2,323,666 at December 31, 2017 and 2016, respectively.

18. OPERATING LEASES

The Hospital leases certain equipment under noncancelable operating leases expiring in 2018. Minimum future rental payments under these noncancelable operating leases as of December 31, 2017, are as follows:

| Year Ending December 31, | Amount | | | |
|--------------------------|---------------|--|--|--|
| 2018 | \$ 152,870 | | | |

The Hospital incurred \$218,158 and \$223,016 in total rent expense for the years ended December 31, 2017 and 2016, respectively, under both cancelable and noncancelable leases.

19. CONCENTRATIONS OF CREDIT RISK

The Hospital maintains its cash in bank deposit accounts, which at times, may exceed federally insured limits. The Hospital has not experienced any losses on such accounts. The Hospital believes it is not exposed to any significant credit risk on cash.

20. FUNCTIONAL EXPENSES

The Hospital provides general healthcare services to residents within its geographic area. Expenses related to providing these services are broken down as follows for the years ended December 31, 2017 and 2016:

| 2017 | 2016 |
|----------------|------------------------------|
| \$ 107,524,922 | \$ 104,532,164 |
| 16,123,138 | 18,132,751 |
| \$ 123,648,060 | \$ 122,664,915 |
| | \$ 107,524,922 16,123,138 |

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

21. CONTINGENCIES

The Hospital is susceptible to a variety of legal proceedings and claims by others against the Hospital in a variety of matters arising out of the conduct of the Hospital's business. The ultimate resolution of such claims would not, in the opinion of management, have a material adverse effect on the financial statements.

<u>HIPAA</u>

Management continues to implement policies, procedures, and a compliance–monitoring organizational structure to enforce and monitor compliance with the Health Insurance Portability and Accountability Act of 1996 ("HIPAA") and other government statutes and regulations. The Hospital's compliance with such laws and regulations is subject to future government review and interpretations, as well as regulatory actions which are unknown or unasserted at this time.

22. COMMITMENTS

As of December 31, 2017, the Hospital has construction and renovation project commitments as follows:

| | Expected Date | Estin | Estimated Total | | Incurred as of |
|-------------------------------------|----------------------|-------|------------------------|----|----------------|
| Project | of Completion | Cost | Cost of Project | | nber 31, 2017 |
| Versailles Medical Bldg Renovation | 1st Qtr 2018 | \$ | 25,000 | \$ | 13,043 |
| Cloudwave Storage & Refresh Project | 4th Qtr 2018 | | 163,000 | | 59,649 |
| McKesson- Conserus SW | 2nd Qtr 2018 | | 33,388 | | 24,153 |
| McKesson- Radiology Upgrade | 2nd Qtr 2018 | | 233,993 | | 89,071 |
| | | \$ | 455,381 | \$ | 185,916 |

23. RELATED PARTY TRANSACTIONS

German American Bank

A Hospital Board member is the spouse of the Regional Chairman of German American Bank. At December 31, 2017 and 2016, the Hospital had the following related party transactions with German American Bank:

| | 2017 | | 2016 | |
|-----------------|------|------------|------|------------|
| Deposits | \$ | 13,415,300 | \$ | 18,129,217 |
| Interest income | \$ | 138,538 | \$ | 137,527 |
| Service fees | \$ | 7,779 | \$ | 6,798 |

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

24. NEW ACCOUNTING STANDARDS

On May 28, 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*. The core principle of this new guidance is that "an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services". On August 12, 2015, the FASB further amended this guidance and issued ASU 2015-14, *Revenue from Contracts with Customers (Topic 606)*, which deferred the effective date for all entities by one year. These new standards, which the Hospital is not required to adopt until its year ending December 31, 2018, deal with the timing of reporting revenues from contracts with customers, and disclosures related thereto.

On February 25, 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*. This new standard, which the Hospital is not required to adopt until its year ending December 31, 2019, is intended to improve financial reporting about leasing transactions by requiring entities that lease assets to recognize on their balance sheet the assets and liabilities for the rights and obligations created by those leases, and to provide additional disclosures regarding the leases. Leases with terms (as defined in the ASU) of twelve months or less are not required to be reflected on an entity's balance sheet.

On August 18, 2016, FASB issued ASU No. 2016-14 *Presentation of Financial Statements of Not-for-Profit Entities (Topic 958)* that amends how a not-for-profit organization classifies its net assets, as well as the information it presents in financial statements and notes about its liquidity, financial performance, and clash flows. This new standard, which the Hospital is not required to adopt until its year ending December 31, 2018, requires improved presentation and disclosures to help not-for-profits provide more relevant information about their resources (and the changes in those resources) to donor, grantor, creditors, and other users. This ASU completes the first phase of a two-phase project to amend non-for-profit financial reporting requirements.

The Hospital is presently evaluating the effects that these ASUs will have on its future financial statements, including related disclosures.
