FOR IMMEDIATE RELEASE - May 31, 2013 - This is a clarification update to the Salmolux press release announcing its voluntary recall of certain cold smoked salmon products. This update does not add to the total pounds recalled, but merely adds clarifications on description of products and one more UPC code only.

On May 25th, 2013, Salmolux of Federal Way, WA, voluntarily recalled certain of its **cold smoked salmon products, described below,**because of the potential to be contaminated with *Listeria monocytogenes,* an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, Listeria infection can cause miscarriages and stillbirths among pregnant women.

No confirmed illnesses have been reported.

Products, a total of approximately 4,930 lb, were distributed in **AZ, CA, ID, MI, NV, NY, OH, TX, WA** states through retail stores. The product distributed in Texas was limited to Sea Passion brand, Wild Alaskan Smoked Salmon, 3 oz.

Salmolux has completed its recall protocol.

Product is packed in vacuum bags and lot number information is on the back of the pack.

The recall was the result of a routine sampling program by FDA which revealed that the finished products contained the bacteria. Salmolux has voluntarily initiated the recall and is continuing its investigation. The company is currently contacting its customers who are affected by this recall.

Consumers who have purchased the products are urged to return it to the place of purchase for a full refund. Consumers with questions may contact the company at 253.874.2026 (Business hours: Mon-Fri 7:30-4:30 PST).
