SUBJECT: Whole Foods Market Recall

SUGGESTED

ACTION: Unclassified Recall; Whole Catch Yellow fin Tuna Steaks (frozen) because of possible elevated levels of histamine; Recommend notification of affected stores via phone, fax or e-mail.

From the information provided by FDA, the product being recalled was distributed in the State of Indiana. Whole Foods Market has removed the affected lot code from all store shelves. Detail information is not available at this time. In addition, if any recalled product is found, please notify this office at 317-233-7360.

Recall -- Firm Press Release

FDA posts press releases and other notices of recalls and market withdrawals from the firms involved as a service to consumers, the media, and other interested parties. FDA does not endorse either the product or the company.

Whole Foods Market Voluntarily Recalls Frozen Whole Catch Yellow Fin Tuna Steaks Due To Possible Health Risks

Media Contact:

Libba Letton, Whole Foods Market
512-542-3031

FOR IMMEDIATE RELEASE – April 4, 2010 – Whole Foods Market announced the recall of its Whole Catch Yellow fin Tuna Steaks (frozen) with a best by date of Dec 5th, 2010 because of possible elevated levels of histamine that may result in symptoms that generally appear within minutes to an hour after eating the affected fish. No other Whole Foods Market, Whole Catch, 365 or 365 Organic products are affected.

The product, sold in twelve ounce bags with **Best by Date:** exp 05 DEC 2010 with **Lot Code:** **4853309157A** and displays the following UPC code:

- 0-99482-42078-9 Whole Catch Yellow fin Tuna Steaks (Frozen) 12 oz.

High levels of histamine can produce an allergic reaction called scombroid poisoning when the fish is consumed. The following are the most common symptoms of scombroid poisoning: tingling or burning sensation in the mouth, facial swelling, rash, hives and itchy skin, nausea, vomiting or diarrhea. However, each individual may experience symptoms differently.

There have been two reported incidents by consumers. Whole Foods Market feels that while these were isolated incidents, every precautionary measure should be taken when it comes to consumer health and safety. This recall does not impact any other fish or seafood sold by Whole Foods Market.

If consumers have this product with the indicated UPC code and Best By date, they may return it to the store for a full refund. Consumers with questions may contact the company by calling 512-542-0656.

Whole Foods Market has removed the affected lot code from all store shelves. Product was distributed to 28 states plus the District of Columbia including Texas, Oklahoma, Louisiana, Illinois, Indiana, Kansas, Ohio, Wisconsin, Minnesota, Missouri, Michigan, Maryland, Virginia, Pennsylvania, Florida, Alabama, Georgia, Kentucky, South Carolina, Tennessee, North Carolina, Connecticut, Nebraska, New Jersey, New York, Maryland, Rhode Island, Maine and Washington, D.C.
