

Reportable Condition Reporting Guidance

Infectious Disease
Epidemiology &
Prevention Division

Condition Name:

Hansen's disease (leprosy)

Condition Name in NBS:

Hansen Disease (Leprosy)

Reporting Timeframe:

Within One Working Day

TO REPORT:

- NBS users: Report conditions via Morbidity Report in **NBS**
- Non-NBS users: Report with **this** form

Associated Reportable Laboratory Results

- *Mycobacterium leprae* identified by culture or PCR.
- Demonstration of acid fast bacilli in skin or dermal nerve from a biopsy of a skin lesion using Fite stain, without growth of mycobacteria on conventional media (if done).
- Identification of noncaseating granulomas with peripheral nerve involvement, without growth of mycobacteria on conventional media (if done).

Condition Specific Reporting Details

- Clinical, Epidemiologic, Lab Report, and Treatment information sections within the NBS Morbidity Report.

Additional Documentation to Include

- Relevant clinical notes and results of any skin biopsies.
