

Accessing Other State Registries from CHIRP

- Remote Registry access is now available to both providers and school nurses.
- Providers and school nurses can make use of the Remote Registry feature in CHIRP to access patient vaccination records administered outside of Indiana.
- CHIRP is currently able to access several immunization registries participating in the Remote Registry initiative

Remote Registry

- To access a patient record via remote registry, first search for and select the patient.
- 'Remote Registry' on the left-hand menu will be enabled once the patient is selected.
- If the patient does not exist in CHIRP, they will need to be added to enable 'Remote Registry' feature.

The image shows a screenshot of a web application interface. On the right side, there is a 'Patient Search' form with the following fields:

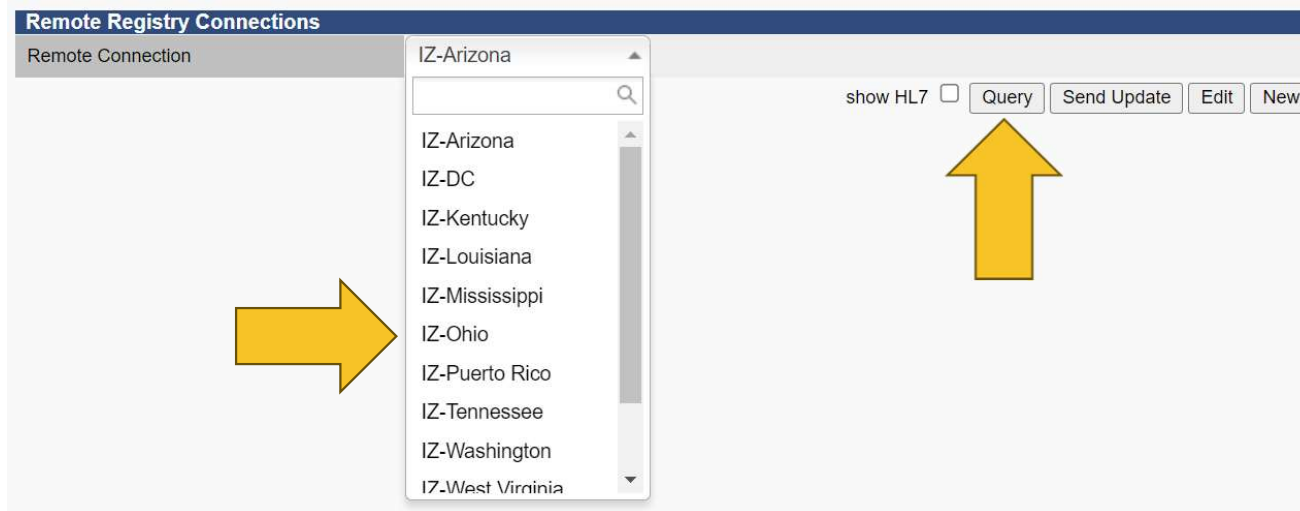

Patient Search	
First Name or Initial:	<input type="text"/>
Last Name or Initial:	<input type="text"/>
Birth Date:	<input type="text" value="mm/dd/yyyy"/>
Family and Address Information:	
Guardian First Name:	<input type="text"/>
Street:	<input type="text"/>
City:	<input type="text"/>
Zip Code:	<input type="text"/>

On the left side, there is a 'Patient' menu with the following options:

- Search/Add
- Demographics
- Remote Registry
- Manage Population

A large yellow arrow points from the 'Remote Registry' option in the menu to the search form.

Remote Registry

- From the remote registry, you'll need to select the state whose data you wish to query.
- When ready, click on the 'Query' button.
