

Radon Publications

Radon is a naturally occurring radioactive gas that can enter homes from the ground and build up to dangerous levels. The U.S. Environmental Protection Agency (EPA) has several publications – including guides for consumers, home buyers and sellers – to help people better understand radon and its health risks.

Scan the QR Codes below to access the publications, or scan the code to the right to explore EPA's radon website.

A Citizen's Guide to Radon: The Guide to Protecting Yourself and Your Family from Radon

This guidance offers strategies for testing your home for radon, discussions of what steps to take after you have tested, discussions of the risk of radon and radon myths.

Indoor Air Quality (IAQ)

Home Buyer's and Seller's Guide to Radon

This booklet is intended for anyone who is buying or selling a home, real estate and relocation professionals, home inspectors and others.

Indoor Air Quality (IAQ)

Consumer's Guide to Radon Reduction: How to Fix Your Home

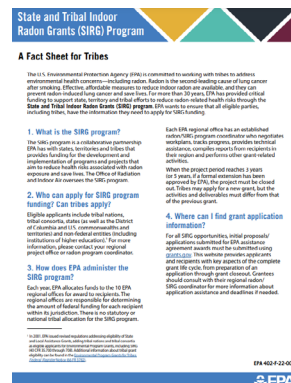

This guidance is designed for people who have tested their home and confirmed that they have elevated radon levels — 4 picocuries per liter (pCi/L) or higher. Know what to look for when selecting a qualified contractor to reduce the radon levels in your home, determine an appropriate radon reduction method and maintain your radon reduction system.

Indoor Air Quality (IAQ)

State and Tribal Indoor Radon Grants (SIRG)

This factsheet provides information to ensure that all eligible parties, including tribes, have the information they need to apply for SIRG funding.
