2024 wellness activities consisted of the following events and activities:

- **Annual Greene County Back-to-School Health Fair**

Imagine a vibrant event where families gather, smiles abound, and health takes center stage. That’s our Countywide back-to-school health fair! This health fair was open to all county residents of any age. We provided free health services galore including vaccinations, blood pressure checks, glucose and A1C screenings for adults and lead screenings for children aged 7 and younger—the works! And school aged children, left with fresh haircuts and brand-new school supplies—ready to conquer the academic year. Our health fair also provided valuable health information and connected families to essential care resources. Event partners included Greene County General Hospital, Greene County EMS & EMA, Greene County School Districts, Pregnancy Choices, PACE Community Services and The Hamilton Center.

- **Childhood Obesity Prevention**

We proudly supported a demonstration project in partnership with WRV School District and YAPA Grant. This project creates play and exercise opportunities for youth and adolescents, especially those who are not involved in organized sports after school.

- **School-Based Pop-up Clinics**

In 2024, Greene County was ranked 10th out of the 92 state counties for youth who are up to date on vaccination requirements for school attendance. This positive outcome directly correlates with our school-based monthly pop-up clinic activities. Additionally, in-school vaccinations provide crucial support for parents who cannot afford to miss work.

- **Community-based Harm Reduction**

Recognizing the urgency and paramount importance of immediate intervention, we engaged in combating the critical issue of overdose incidents in our community with the distribution of Narcan (naloxone)—an essential life-saving medication that can reverse the effects of opioid overdose, and Fentanyl test strips, and linkages to drug treatment programs that offer comprehensive care and support for individuals grappling with substance use.

| Metric | Indiana Rate | Greene County Rate | Greene County Rank |
|---|--------------|--------------------|--------------------|
| Adult Obesity | 43.6% | 43.6% | #76 |
| Children <3 Years Old Completing Recommended Vaccine Series | 59.1% | 71.5% | #18 |
| Infant Mortality Rate | 6.8 | 7.93% | #62 |
| Life Expectancy | 76.5 | 74.7 | #60 |
| Smoking Rate | 21.0% | 24.0% | #62 |
| Rate of Mother Smoking During Pregnancy | 6.6% | 11.5% | #52 |
| Suicide Rate | 15.77% | 17.1% | #41 |
| Prevalence Rate of Deaths Due to Opioid Overdose | 25.7% | 13.9% | #31 |
| Years of Potential Life Lost Due to Injury (Age-Adjusted) | 2,527.14 | 203.01 | #39 |
| Social Vulnerability Index | -- | 0.5384 | #50 |

Retail Food Establishments:

- 123 Number of retail food establishments that require 2 routine inspections per year.
- 16 Number of retail food establishments that require 1 routine inspection per year.
- 62 Number of mobile food establishments.
- 2 Number of operations with HACCP Plans.

The Environmental Health – Sanitation Division performs risk-based food inspections with the number of inspections performed per year dependent upon the complexity of the menus. If critical violations are noted during an inspection and cannot be corrected on site, a follow up is conducted to ensure compliance with the Indiana Food Code.

In addition to inspections, Environmental Health – Sanitation Division is responsible for, permitting retail food establishments, planning reviews of new establishments, compliant investigations, foodborne illness investigations, education and prevention activities, and monitoring/compliance of:

- Farmers Markets
- Micro-Markets
- Food Pantries
- Home Base Vendors
- Bed & Breakfast

| Final Inspections | | | | | | 3 | 6 | 5 | 2 | 7 | | | 23 |

The Environmental Health – Habitation Division oversees the permitting and inspection of residential and commercial on-site sewage systems (septic systems) new installation and repairs. This program includes establishing system requirements from soil evaluation reports provided by Indiana Registered Soil Scientists, inspection of sites prior to plan approval, approval of plans for the systems, and final inspection of sewage systems to determine installation compliance with approved plan design and compliance with Indiana’s on-site sewage systems (OSS) administrative rule.

In addition to OSS activities, the Environmental Health – Habitation Division investigates public complaints such as blighted properties, homes unfit for human habitation, and homes/properties that pose a public health risk such as the build-up of trash, pest infestations, mold, standing water or leaking effluent, city sewer backups, etc.

This division held its annual Greene County installers Septic Installer Symposium and Exhibition at the Community Events Center (4H Fairgrounds), Bloomfield, IN with a full day of learning. This annual event is a part of our ongoing efforts to protect human health and the environment by providing opportunities for a well-trained septic installer workforce who are updated on the rules and latest septic technologies for proper construction/installation of on-site sewage systems. The event is supported by the Indiana Department of Health’s (IDOH) Environment Health Division, Indiana Onsite Wastewater Professional Association, and local onsite septic system vendors and supply chain.

2024 YEAR-TO-DATE REPORT OF COLLECTIONS

| Description | Year to Date Collections |
