|                                                                                                              | B. The 1/3/17 and the 3/2/17 skilled nursing recertification assessments was conducted by a former employee.  2. An interview with the Employee C, on 5/31/17 at 2:30 p.m., indicated a discharge visit was not conducted. The employee indicated the assessment was based off her own assessment but could not indicate when the last time she had assessed the patient. Employee C indicated the former Director of Clinical Services took over as the patient's case manager last year and provided the last skilled nursing assessment. |                                                                                   |                     | what assessment date paperwis being used to complete the discharge. Once 100% compliance is achieved 25% of discharges will audited monthl monitor for compliance. (To be by 8/25/17) | of<br>y to           |

If a visit is not made, nurse will document reason, complete a missed visit report and notify MD of missed visit. If patient requires a task that is not listed on the Plan of care, nurse will contact MD and obtain an order for the needed task. If LPN notes there is something needed that is not on the Plan of Care, LPN will contact he RN case manager or Director of Nursing to discuss patient's need before MD is contacted. (To be completed by 8/25/17) Director of Nursing will be |        | 08/25/2017 |
