At the start of incident on the video, Resident C was standing at his door, pushing on it, as if he was trying to keep it closed. CNA 1 was observed to open the door and take a step inside the resident's room, while raising his right arm with his right hand up to Resident C's right eye and forehead area. At that time, Resident C placed his hands on his face, and he fell down onto the floor backwards, landing on his buttocks. CNA 1 stepped all the way into the resident's room and picked the resident up off the floor by placing his arms under the resident's arms. CNA 1 walked Resident C over to his bed with his arms under the resident's arms and tossed him onto his bed. As the resident was tossed onto his bed, he bounced when he landed. There was no audio with the video. After CNA 1 tossed the resident on the bed, he left the room.
