

ADVANCED TRAUMA CARE FOR NURSES[®]

Advanced Trauma Care for Nurses (ATCN) is an advanced course designed for the registered nurse interested in increasing his/her knowledge in management of the multiple trauma patient. The ATCN course is taught concurrently with the American College of Surgeons (ACS) Advanced Trauma Life Support[®] (ATLS). ATCN[®] was developed to teach established standards of care and practical, life-saving skills. This advanced trauma course is designed for nurses working in emergency departments, ICUs, medical-surgical floors or operating rooms who wish to increase their knowledge and practical skills in managing multiple-trauma patients.

The ATCN program has been operational for over 15 years and has an excellent record of offering a superb trauma educational program, and maintaining a positive collaboration with the ACS Committee on Trauma.

WHO SHOULD ATTEND?

ATCN is overseen by the Society of Trauma Nurses. This course targets experienced nurses practicing in the following areas: pre-hospital and aeromedical, emergency departments, surgical intensive care units and operating rooms.

CONTINUING EDUCATION CREDIT

The Society of Trauma Nurses is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation. The ATCN Student Course has been awarded 17.5 contact hours to students who attend the entire course. *Partial credits are not available.*

COST

\$350.00 fee includes both the ATCN and ATLS manuals as well as meals both days.

SOCIETY OF TRAUMA NURSES

CANCELLATION POLICY

Registrants who cancel more than 30 days prior to the course will receive a refund minus a \$100 processing fee.

Registrants who cancel 15-30 days prior to the course receive no refund but can apply the fee (less a \$100 processing fee) toward a future course.

Registrants who cancel fewer than 15 days prior to the course will forfeit the entire registration.

COURSE DESCRIPTION

The nurse participants actively engage in the ATLS lectures. During the ATLS skill and testing stations, the ATCN group is separated and directed through the ATCN skill stations, which include:

- Initial Assessment and Management
- Airway and Ventilatory Management
- Pediatric Trauma
- Hemorrhagic Shock
- Musculoskeletal & Spinal Trauma
- Head Trauma

The skill stations are based on an interactive "hands-on: scenario-based approach" to adult education. The practical testing stations allow the ATCN students to demonstrate the application of ATLS and ATCN information on a moulaged patient.

The ATCN certification is valid for 4 years.
