Non-GAAP Measures

Adjusted EBITDA is a non-GAAP measurement. Eldorado defines adjusted EBITDA as operating income (loss) before depreciation and amortization, stock-based compensation, transaction expenses, severance expense, selling costs associated with the disposition of properties, proceeds from terminated sales, preopening expenses, business interruption insurance proceeds, real estate tax settlements, other than temporary impairments on investments, impairment charges, equity in income (loss) of unconsolidated affiliates, (gain) loss on the sale or disposal of property and equipment, (gain) loss associated with the sales of assets and other non-cash regulatory garning assessments. Adjusted EBITDA also excludes the expense associated with our Master Lease with Gaming and Leisure Properties, Inc. as the transaction was accounted for as a financing obligation.

Caesars defines Adjusted EBITDAR as revenues less property operating expenses and is comprised of net income/(loss) before (i) interest expense, including finance obligation expenses, net of interest capitalized and interest income, (ii) income tax provision, (iii) depreciation and amortization, (iv) corporate expenses, (v) certain items that the Company does not consider indicative of its ongoing operating performance at an operating property level, and (vi) lease payments associated with our financing obligation.

Combined Adjusted EBITDAR is based on the combination of Eldorado's Adjusted EBITDA and Caesars' Adjusted EBITDAR for the applicable period.
