SECTION 2.3.11 (A)

DISASTER RECOVERY PLAN

In the event of a natural disaster, Blackjack Uniforms would be most affected in the information technology area..

Therefore, in an effort to prepare for a disaster, Blackjack Uniforms maintains a proactive approach in keeping up-to-date computer programs allowing for all Inventory, Invoices, and Documents to be maintained in two separate locations with all pertinent information backed up continually on flash-drives etc. In the event of a disaster, Blackjack Employees would have access to all documentation allowing them to continue to operate and resume servicing the requirements of the IDOC.

In addition, Blackjack President Judith Crowell maintains an office at her home location, wherein she would have access to all IDOC records etc. and could continue to service the IDOC without being present or traveling to/from office locations.
