Event Description

003000000086619

Seed Harvester for SW Region - To allow for sufficient processing time in compliance with Indiana State Law, all quoted prices offered to the State under this Solicitation Event must be valid for thirty (30) calendar days after the Response Due Date (aka Finish Time) listed above.

These native seed harvesters are built for larger capacity harvesting than the pull type harvesters but generally cannot access as many difficult to reach locations. However, they are built for all-terrain operations.

Responses can be emailed to kmevans@dnr.in.gov or mailed to Kathy Evans, Indiana Department of Natural Resources, 402 W. Washington Street, W 265, Indianapolis, IN 46204.

This bid is NOT eligible for electronic submission through the supplier portal.

A completed bid package MUST be submitted by the due date/time. The bid package is available for download through the Bid Documents link in the Event Name column.

If you have any questions, please contact Kathy Evans at kmevans@dnr.in.gov or call (317) 233-8214.

General Comments

- Pricing must be listed in the unit requested, and must be inclusive of all applicable charges (i.e., shipping, reconditioning, installation and labor). Prices listed above and beyond what is requested shall not be considered and shall be reason to reject offer.
- As required by IC 4-13-2-14.8:
Notwithstanding any other law, rule, or custom, a person or company who has a contract with the State or submits invoices to the State for payment shall authorize in writing the direct deposit by electronic funds transfer of all payments by the State to the person or company. The written authorization must designate a financial institution and an account number to which all payments are to be credited. For forms and additional information see the State Comptroller's website at <https://www.in.gov/comptroller/forms/>
- Supplier must include shipping and/or any other additional costs in bid response. Shipping and/or additional costs will not be paid if added to invoice.
- These native seed harvesters are built for larger capacity harvesting than the pull type harvesters but generally cannot access as many difficult to reach locations. However, they are built for all-terrain operations.

Description: Front end loader seed harvester - 8 ft.

Comments:

- The front-end loader native seed harvester comes in standard 8-foot harvesting width. These harvesters require a tractor with at least 45hp and work best with a quick attach system for easy attachment and removal.

These native seed harvesters are built for larger capacity harvesting than the pull type harvesters but generally cannot access as many difficult to reach locations. However, they are built for all-terrain operations.

A native seed harvester is an attachment that uses a hydraulically powered rotary brush to dislodge mature seed from the seed head, the brush creates a vacuum that deposits int in a hopper.

The harvester should be 8 foot wide with a usable hopper capacity of 32 cubic feet. It should have a painted tubular steel frame, stainless steel screens for increased durability, has reversable reel and internal hopper baffle is powered directly by the hydraulic system of the machine it is attached to.

Harvests grass, sedge, wildflower, herbs, spices with standard stripper header.

With the optional upgraded stripper header with metal teeth the harvester can harvest conventional cereal crops, herbs, spices, shrubs, and hard to shell out wildflowers.

Features:

- 1) Custom built to fit tracker loader mount system. Quick attach system
- 2) Reversible hydraulic brush drive, lift & tilt
- 3) Requires 45 hp+ tractor/loader with 15 gpm (60 liters per min) hydraulic flow operates from 4in (10cm) above ground level to the maximum safe operating height of your loader
- 4) Quick unloading right from tractor seat with hydraulic bottom dump door fully screened hopper top with adjustable internal baffle ensures effective air flow seed capture & maximum harvesting
- 5) Dual stage, reversible, long lasting nylon brush efficiently collects the seed, leaving stalks and straw standing
- 6) Rugged construction of galvanized sheet, painted plate & tubular steel
- 7) Quick payback period - usually pays for itself in one season or less
- 8) 8ft (2.4m) harvest width; harvest 4 ac/hr @ 3 mph ground speed
- 9) Hopper capacity - 40cu ft (1.1 cu m); empty weight 1,000 lbs (454 kg)

Optional Features:

- 1) Optional stainless-steel Shelbourne-Reynolds type header for tough headed wildflower & regular grain seeds
- 2) Optional concave harvester bar for more aggressive seed threshing
