

Project DELTA

Indiana Department of Correction

April 2022

April Talking Points

What do I need to know this month?

- Continued progress made on the **development and testing of the DELTA system**:
 - Sprint 16 was completed
 - 14 functionality areas in DELTA were updated and added to the User Acceptance Testing (UAT) environment for validation by IDOC staff
 - Functional UAT testing for Conduct, PREA, and Parole began; 64% of test cases, *currently assigned*, have been completed by IDOC staff
- The training plan has been completed and content development is underway. Below are **key training takeaways**:
 - Training for all field staff will take place this fall
 - Senior and designated instructors at each facility will receive training in late summer. They will lead all field staff sessions in the fall (*training will be held in person at regional locations across the state*)
- The Change Agent Network (CAN) April meeting was held, with a focus on UAT:
 - CAN members **received access to UAT** and can now explore the system, as it is today. They are encouraged to share their experience with others at IDOC
 - Change Agents also received a similar update on DELTA's progress and training, we encouraged you all to **share this information with colleagues**

How are staff impacted?

- **All field staff will receive training on the DELTA system this Fall.** More information around training specifics will be shared once it is available
- With more staff accessing UAT, we **encourage all questions** to be submitted to the **Project DELTA Intranet and mailbox** to help ensure they are routed to the correct individuals

What actions can I take?

- Continue to engage and discuss DELTA with members of your facilities
- **Engage with Change Agent Network Members!** Talk to them about their experience with DELTA in the UAT environment and their thoughts on:
 - How does the system look and feel?
 - How the modules work together in one system?
- **Visit the Project DELTA Intranet** site for more project information and review the **Glossary & FAQs** and point staff to other resources if you're unable to guide them

What resources are available?

- Change Agent Network Members
- Project DELTA mailbox
- Project DELTA Intranet site
- UAT Environment
