

Project DELTA

Indiana Department of Correction

August 2022

Leadership Talking Points - August

What do I need to know this month?

- **Change Agent Network Updates:**
 - Change Agents received an overview of the key benefits that the DELTA system is bringing to the Classification Module from an IDOC SME including:
 - The differences between the legacy system vs. DELTA and key benefits this update will have on staff.
 - Change Agents received a scavenger hunt to guide their exploration of select features of the UAT environment and its functionality with additional activities planned in months to come.
- **Training Updates:** *Change Agents participated in a training scenario to practice addressing some of their peer's most pressing questions.*
 - All staff training will occur in-person across 6 regional locations (plus parole districts) beginning January 2023.
 - All staff will be assigned to a specific training class and location and should have received a calendar invite, specific to them. (If not, contact the Project DELTA mailbox; ProjectDELTA@idoc.in.gov).
 - With operations in mind, training schedules will assure staff levels remain adequate during the training period. Not all facility staff will be attending training at the same time.

What actions can I take?

- **Direct specific questions on training to Change Agents** and share information, *above*, with staff. Please ask your staff to keep an eye open for calendar invites to their assigned training. For questions related to their scheduled time, please direct staff to the Project DELTA mailbox; ProjectDELTA@idoc.in.gov
- **Ask your facility and parole district's Change Agent for a demonstration of the DELTA System** and hear what they explored with this month's Scavenger Hunt.
- **Ask your facility and parole district's Change Agent** about the positive impacts DELTA will have on classification, compared to the legacy system.
