

What's included in this module:

The CTP module facilitates the successful re-integration of offenders returning to the community by tracking the eligibility of each offender for the program. It also displays details of the program for each offender, such as the Program Commencement Date and County of Release.

What's in it for me?

- Information will be more traceable
- One screen for all of my work
- Easily accessible historical information

Associated Personas:

CTP Coordinators

Unit Team Staff

Classification Release Staff

Module: CTP

Key Changes?

- 

There will be a CTP Screen for every offender, regardless of how much time they have left to their ERP or CTP Commencement Date, which will automatically show a status of whether they are eligible for CTP.
- 

DELTA will display the history of reasons for approving or denying an offender's CTP eligibility. This will make it easier for staff to understand how CTP eligibility is determined or why an offender is not eligible.
- 

In DELTA, staff will be able to select a reason why an offender is being flagged as temporarily ineligible.
- 

Community Transition Program comments will be entered directly on the CTP Details screen.

What will be the same?

- 

CTP eligibility status will still be automatically checked in the system.
- 

DELTA will still display the County of Notification and County of Release.
- 

DELTA will continue to calculate the Program Commencement Date, and this date can still be modified if necessary.
- 

Court decisions and Court Order dates can still be entered.
