

What's included in this module:

The Count module allows for the capture and tracking of counts conducted by facilities.

What's in it for me?

Historical information in a central system

Easily accessible & searchable information

Associated Role:

Module: Count

Key Changes?

In addition to using Excel spreadsheets, Correctional Officers will track Counts in DELTA. Specifically, they will input Facility, Count Type, Count Date & Time, and Signal 1000 Time.

On the Count Records History screen in DELTA, Count records can be searched by Facility, Count Type, Count Date Range, and Count Officer.

The Count module in DELTA eliminates the need for count emails to be sent to the Director of Operational Support Services.

The Population Count Report will be completed in DELTA.

What will be the same?

Apart from entering information in DELTA, the Count process will remain the same.

The Population Count Report will remain the same.
