

What's included in this module:

The Parole Board module includes the ability to track an individual's status regarding the IPB. This includes parole revocation, review, clemency, and pre-10/77 LIFE review hearings. All listed hearings will be scheduled by IPB staff and reflected on the IPB dashboard. DELTA also allows for final hearing results and special orders to be recorded in the IPB module.

What's in it for me?

Less paper-based processes

Efficient communications & notifications

Easily accessible historical information

Associated Roles:

Parole Agent

IPB Member

IPB Admin Assistant

Facility Parole Board Liaison

Module: Parole Board

Key Changes?

All forms that are required to be filled out by the Parole Board will be available within DELTA and accessible during the meetings. They will no longer be paper-based. When a hearing is scheduled, it can also be viewed in DELTA.

DELTA will have a Parole Board Hearing Result List, which will show the results of an offender's previous hearings scheduled in DELTA.

Members of the Parole Board will vote in DELTA during a Parole Board Hearing. Logic will be built into the screen, making it so that related outcomes are selected together, and appropriate dates are entered when certain outcomes are selected. This will help to reduce errors.

Facilities will no longer have to send Parole Board hearing forms as they will all be generated in DELTA and printed once finalized. Each facility will upload signed hearing notices directly into DELTA.

Parole Board Hearings will be scheduled (and date of availability can be viewed) in DELTA immediately after the IPB Admin and Board Member are notified of offender arrival. Clemency Hearings will be scheduled in DELTA, but no other Clemency paperwork will be in DELTA.

Once hearings are complete and results are finalized, a notification email will immediately be sent to COA Sentence Computation and Release, as well as SVOR and VN. This notification will only be forwarded for 'Granted' individuals and will include a hyperlink to the results.

What will be the same?

Parole Board hearing and transmittal statistics will continue to be monitored on a monthly, quarterly, and annual basis.

All forms will continue to be printed for the hard file and scanned to IRIS.

Recommendations will continue to be made to the Governor.

Facility liaisons will maintain their current notification process for the scheduling of Parole Board Hearings.
