**CITY OF DELPHI**  
**TESTING AND PILOT PFAS TREATMENT**  
**Project No. E24001**

**Date: April 22, 2026**

Pursuant to IC 5-1.2-3, the Emerging Contaminants Program has determined that the project described here and in the City of Delphi's Potential Alternative Analysis will have no substantial negative environmental impact. Therefore, the Indiana Finance Authority (IFA) is issuing a preliminary decision of Categorical Exclusion (CE) from the requirements of substantive environmental review.

*How were environmental issues considered?*

The National Environmental Policy Act requires agencies disbursing Federal funds to include environmental factors in the decision-making process. A summary of the project is attached for your review. The SRF's preliminary review has found that the proposed project does not require the preparation of either an Environmental Assessment or an Environmental Impact Statement.

*Why is additional environmental review not required?*

Our environmental review has concluded that significant environmental impacts will not result from the proposed action. In the absence of significant comments, the attached CE shall serve as the final environmental document.
