Teresa Henson (Teams)

I. Call to Order and Establishment of Quorum

10:00 am

Katherine Noel calls the meeting to order.

II. Adoption of Agenda

Commissioner Biederman made a motion to adopt the agenda. Commissioner Gilroy seconded.

Approved: 4/0

III. Approval of Minutes from August 13, 2026

Commissioner Biederman made a motion to approve. Commissioner Gilroy seconded.

Approved: 4/0

IV. Consideration of Post-Employment Waivers

- a. Indiana Department of Transportation – Ryan Falls; Presented by Ethics Officer Chris Devlin

Commissioner Gilroy made a motion to approve. Commissioner Biederman seconded.

Approved: 4/0

- b. Governor's Office – Sophie McGowen; Presented by Trent Bennett on behalf of Ethics Officer Stephanie Flittner

Commissioner Biederman made a motion to approve. Commissioner Satrom seconded.

Approved: 4/0

- c. Governor's Office – Alex Hickner; Presented by Trent Bennett on behalf of Ethics Officer Stephanie Flittner

Commissioner Satrom made a motion to approve. Commissioner Biederman seconded.

Approved: 4/0

- d. Indiana Department of Health – Ethan Wright; Presented by Ethics Officer Rebecca Brelage

Commissioner Biederman made a motion to approve. Commissioner Satrom seconded.

Approved: 4/0

V. Consideration of Formal Advisory Opinion

- a. Indiana Department of Health – Karen Momper; Presented by Ethics Officer Rebecca Brelage

Commissioner Biederman made a motion to rule the Commission finds Karen Momper campaigning for the trustee position is not prohibited by the Code and the Commission declines to analyze whether she could serve if elected. Commissioner Gilroy Seconded.

Approved: 4/0

VI. State Ethics Commission Director's Report

1. The new State Ethics Commission Director is Rachael Ehlich.
2. 28 Informal Advisory Opinions have been issued since the last meeting.
3. The bi-annual ethics training for State employee and special appointees has concluded and agencies have begun the process of certifying compliance to the OIG.

VII. Adjournment

Commissioner Biederman made a motion to adjourn; Commissioner Satrom seconded.

Approved: 4/0

The meeting adjourned at approximately 10:41 am.

Indiana Code § 4-2-6-11
Post-Employment Waiver

As the Appointing Authority, per Ind. Code § 4-2-6-1(a)(3), and Chief Administrative Officer of the Indiana Economic Development Corporation ("IEDC"), I am filing this waiver of the application of certain post-employment restrictions of the Indiana Code of Ethics as they may apply to Joshua Richardson, IEDC's President (hereinafter, "Richardson"), in his desired post-employment opportunity as the principal of JR Advisory Services, LLC, a newly formed consulting firm, which may include limited lobbying activity.

I understand that I must file and present this waiver to the State Ethics Commission at its next available meeting. I further understand that this waiver is not final until and unless approved by the State Ethics Commission.

A. This waiver is provided pursuant to IC § 4-2-6-11(g) and specifically waives the application of:

IC § 4-2-6-11(b)(1): 365-day required "cooling off" period before a former state employee may receive compensation as a lobbyist. The other restrictions of the "cooling off" period under IC § 4-2-6-11(b) are not implicated by this prospective post-employment opportunity. Richardson is not requesting a waiver of IC § 4-2-6-11(c).

B. IC § 4-2-6-11(g)(2) requires that an agency's appointing authority, when authorizing a waiver of the application of the post-employment restrictions in IC § 4-2-6-11(b)-(c), also include specific information supporting such authorization. Please provide the requested information in the following five (5) sections to fulfill this requirement.

1. Please explain whether the employee's prior job duties involved substantial decision-making authority over policies, rules, or contracts:

As President of the IEDC, Richardson's job duties did involve substantial decision-making authority over policies, rules, and certain contracts. Richardson's post-employment compensation will be paid exclusively by JR Advisory Services, LLC, a single-member consulting firm he formed to support his private-sector work. RAISE US, the prospective client that is the subject of this waiver, is not a party to any contract, incentive agreement, regulatory matter, licensing decision, or other discretionary action in which Richardson personally and substantially participated while employed by the State. For these reasons, the arrangement does not present a risk of undue influence, preferential access, or conflict of interest under IC § 4-2-6-11.

2. Please describe the nature of the duties to be performed by the employee for the prospective employer:

RAISE US is a nonpartisan, national nonprofit organization that partners with states, employers, training partners, and workers to help Americans make a successful transition to an AI economy. Its work focuses on workforce development and worker upskilling to prepare for and expand opportunities for workers in a changing economy. It is Richardson's intention and belief that RAISE US will engage JR Advisory Services, LLC, a consulting firm of which Richardson is the sole member. Richardson's work for RAISE US will consist primarily of program design and implementation. A portion of that work would include communication with Indiana state officials about pilot projects, private and philanthropic funding opportunities, employer partnerships, and related initiatives benefiting Hoosier workers. Because some of these communications could arguably constitute lobbying activity, Richardson is submitting this waiver request.

This request is limited to RAISE US as a client. Richardson understands that in the event other clients become interested in his services such that any post-employment rule may be implicated, Richardson will seek the advice of the Office of the Inspector General or the Indiana State Ethics Commission at that time.

- 3. Please explain whether the prospective employment is likely to involve substantial contact with the employee's former agency and the extent to which any such contact is likely to involve matters where the agency has the discretion to make decisions based on the work product of the employee:**

Richardson's work for RAISE US may involve some contact with IEDC, as well as with the Indiana Department of Workforce Development ("DWD"), where Richardson served in several roles, including as Chief of Staff and, most recently, as Commissioner. That contact would relate to coordinating pilot projects and related initiatives and is not expected to involve matters in which IEDC has discretion to make decisions based on Richardson's work product. For 365 days following his separation from state employment, Richardson will not represent or advocate on behalf of any person or entity seeking a procurement, competitive solicitation, grant, contract, incentive, or other discretionary award or benefit from IEDC or DWD. Richardson will not participate in any particular matter in which he personally and substantially participated as a state employee, and will not disclose confidential information acquired during his state service.

Richardson's compensation for his work with RAISE US is not contingent on, and will not vary based on, any action or decision by IEDC, DWD, or any other state agency. RAISE US has no contracts, grants, or incentive agreements with IEDC, DWD, or any other Indiana state agency.

- 4. Please explain whether the prospective employment may be beneficial to the state or the public, specifically stating how the intended employment is consistent with the public interest:**

If the purpose of the one-year lobbying restriction is to prevent a former state employee from trading on relationships and access developed in public service for private gain, and to prevent the prospect of future compensation from influencing an employee's official conduct, neither concern is present here. As described in Section 3, Richardson's compensation does not depend on securing any state action. His client is a nonpartisan nonprofit who would work with the state only to the extent its mission aligns with the State's own priorities in workforce development, economic development, employer engagement, education and training, and preparing workers and communities for the opportunities and benefits of economic change driven by artificial intelligence. The waiver also leaves every other protection in place: Richardson will not seek any procurement, grant, contract, or other discretionary benefit from IEDC or DWD, will not participate in any particular matter from his state service, and will not use confidential information.

The communications this waiver would permit are the ones most likely to benefit Indiana. Richardson would work with RAISE US to help employers, educators, training providers, and the State of Indiana develop and test approaches that help individuals obtain the skills needed for jobs in the economy of the future. Those are the pilot projects, employer partnerships, and private and philanthropic resources described above. Applying the restriction here would not protect the State from undue influence, because none is at stake. It would instead limit the State's access to a person well positioned to help bring that work to Indiana and carry it out effectively. Granting the waiver extends the State's investment in Richardson's expertise rather than walling it off from Indiana's interests. It also supports the State's long-term ability to attract talented individuals into public service, by allowing experienced public servants to stay engaged with organizations serving related public purposes.

5. Please explain the extent of economic hardship to the employee if the request for a waiver is denied:

Richardson does not assert economic hardship as a basis for this waiver. It is Richardson's understanding that RAISE US's engagement of his firm, and the terms of that engagement, do not depend on whether this waiver is granted. The hardship from denial would fall instead on the State. Without a waiver, Richardson would need to avoid, for one year, any RAISE US communications with Indiana executive branch officials that could be considered "lobbying" under a broad definition, reducing the effectiveness and the benefit to Indiana of RAISE US's work here, as described in Section 4.

These factors support approval of the requested waiver.

C. Signatures

1. Appointing authority/state officer of agency:

By signing below, I authorize the waiver of the above-specified post-employment restrictions pursuant to IC § 4-2-6-11(g)(1)(A). In addition, I acknowledge that this waiver is limited to an employee or special state appointee who obtains the waiver before engaging in the conduct that would give rise to a violation.

IC 4-2-6-11 Post-employment waiver

As the Appointing Authority of the Indiana Department of Environmental Management (IDEM), I am filing this waiver of the application of the Code of Ethics' post-employment restriction as it applies to Heath Hartley (Hartley) in his post-employment with Patriot Engineering. Hartley is a section chief in IDEM's Office of Air Quality's (OAQ) Permits Branch. Hartley's job duties at IDEM include review and approval of various IDEM Air Quality permits and supervision of the Permits section. The staff supervised by Hartley include permit writers and engineers, whose work includes drafting permits and ensuring that permits comply with state and federal regulations. Hartley has recently applied for a consultant position with Patriot Engineering (Patriot), an environmental consulting company in the state of Indiana.

I understand that I must file and present this waiver to the State Ethics Commission at their next available meeting. I further understand that this waiver is not final until approved by the State Ethics Commission.

A. This waiver is provided pursuant to IC 4-2-6-11(g) and specifically waives the application of *(Please indicate the specific restriction in 42 IAC 1-5-14 (IC 4-2-6-11) you are waiving):*

- ☐ IC 4-2-6-11(b)(1): 365 day required "cooling off" period before serving as a lobbyist.
- ☐ IC 4-2-6-11(b)(2): 365 day required "cooling off" period before receiving compensation from an employer for whom the state employee or special state appointee was engaged in the negotiation or administration of a contract and was in a position to make a discretionary decision affecting the outcome of such negotiation or administration.
- ☐ IC 4-2-6-11(b)(3): 365 day required "cooling off" period before receiving compensation from an employer for which the former state employee or special state appointee made a directly applicable regulatory or licensing decision.
- ☒ IC 4-2-6-11(c): Particular matter restriction prohibiting the former state employee or special state appointee from representing or assisting a person in a particular matter involving the state if the former state officer, employee, or special state appointee personally and substantially participated in the matter as a state worker. *(Please provide a brief description of the specific particular matter(s) to which this waiver applies below):*

IDEM hereby requests the waiver of any applicable particular matter restrictions for all air quality permits drafted and reviewed by Hartley during his time with IDEM's Office of Air Quality, both as a permit writer and as section chief of the OAQ Permits section. The types of permits include all those issued by IDEM under authority granted by the Clean Air Act and Title 13 of the Indiana Code. Included with this document is the list of permits organized by county.

There are questions of whether Hartley's prospective role would ever entail work on a specific permit document, and whether the next permit and/or documentation for the same source would constitute a continuing particular matter for the purposes of IC 4-2-6-11(a) or (c). IDEM does not seek to answer these questions at this time, but only to waive the potential particular matters out of an abundance of caution and to ensure that Hartley's transition to the prospective role would not violate the Code of Ethics.

B. IC 4-2-6-11(g)(2) requires that an agency's appointing authority, when authorizing a waiver of the application of the post-employment restrictions in IC 4-2-6-11(b)-(c), also include specific information supporting such authorization. Please provide the requested information in the following five (5) sections to fulfill this requirement.

1. Please explain whether the employee's prior job duties involved substantial decision-making authority over policies, rules, or contracts:

In his current role with IDEM, Hartley does not possess substantial decision-making authority over agency policies, rules, or contracts. His position focuses on technical permitting work rather than agency-level policy or contractual oversight. While Hartley contributes to the permitting process, he does not develop policy, direct rulemaking with respect to permits or other matters, or negotiate or administer contracts on behalf of IDEM. Those functions are handled by other personnel within the agency.

2. Please describe the nature of the duties to be performed by the employee for the prospective employer:

In the prospective consulting role, Hartley would perform duties typical of an environmental permitting consultant. These duties would include assisting clients in identifying their air permitting needs; evaluating emission units and determining applicable regulatory requirements; preparing and submitting permit applications; and guiding clients through the permitting process. The work would focus on technical assessments, regulatory interpretation, and the preparation of materials for IDEM review.

The prospective employer operates as an environmental consulting firm serving businesses throughout Indiana and beyond. Its work includes regulatory compliance, permitting assistance, technical evaluations, and environmental support services. Hartley's role would focus on helping clients understand and comply with state and federal air permitting requirements, contributing to the firm's ability to serve a diverse set of industries.

3. Please explain whether the prospective employment is likely to involve substantial contact with the employee's former agency and the extent to which any such contact is likely to involve matters where the agency has the discretion to make decisions based on the work product of the employee:

The prospective employment would involve contact with IDEM, as the submission of air permit applications on behalf of regulated clients is central to the consulting role. However, this contact is typical, routine, and consistent with the type of communication any consulting firm would have with the agency. Further, Hartley's experience with IDEM has prepared him to better understand how and when such outreach would be appropriate with the state.

IDEM issues hundreds of permits annually, each assigned to individual permit writers and reviewed through several layers of internal oversight. Decisions regarding permit conditions and application

sufficiency are made independently by agency staff based on established regulatory criteria, including state and federal law, public comments, and, where applicable, U.S. EPA review.

IDEM's discretion in issuing permits is exercised through its standard permitting procedures and multilayer review process, not through individual consultant involvement. Any contact Hartley would have with IDEM would be reasonable, necessary, and limited to the submission of applications, with agency personnel retaining full discretion over permitting decisions.

4. Please explain whether the prospective employment may be beneficial to the state or the public, specifically stating how the intended employment is consistent with the public interest:

Hartley's technical experience with IDEM provides an opportunity to support regulated entities by helping them better understand and comply with state and federal air permitting requirements. This would, in turn, facilitate smoother and more accurate permitting submissions, reduce errors and delays, and ultimately improve environmental compliance outcomes. These benefits extend not only to regulated businesses but also to the agency and the public through clearer, more complete applications and more efficient review processes.

The knowledge gained during Hartley's service at IDEM would enable him to assist clients in meeting environmental requirements and reducing air pollution risks. By promoting compliance and supporting environmental protection, the prospective employment aligns with the public interest and furthers IDEM's broader mission, while also benefiting communities and the environment throughout Indiana.

5. Please explain the extent of economic hardship to the employee if the request for a waiver is denied:

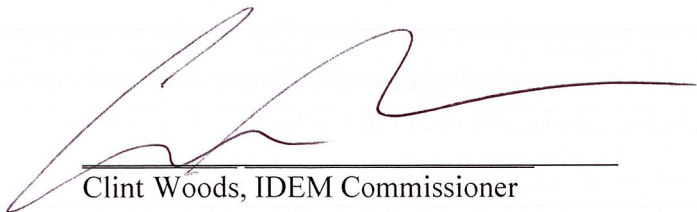

The prospective position represents a significant professional advancement, offering higher compensation, greater opportunities for growth, and the ability to build long-term career prospects in the environmental field. If the waiver were denied, Hartley would face economic hardship, as the inability to work with previously permitted sources would substantially limit his ability to perform the core duties expected in the consulting role. This restriction would reduce his prospective employer's ability to grow its business and diminish the value he could provide, potentially jeopardizing the employment.

Securing a comparable position with similar responsibilities, compensation, and advancement opportunities would be difficult, and denial of the waiver could result in a substantial delay in obtaining alternative work. Such a delay would have a material financial impact.

Mike Braun, Governor
Lyndsay Quist, Commissioner

IC 4-2-6-11

Post-employment waiver

As the Appointing Authority of the Indiana Department of Transportation (INDOT), I am filing this waiver of the application of the Code of Ethics' post-employment restriction as it applies to Anthony McClellan in his post-employment with Volkert, Inc.

I understand that I must file and present this waiver to the State Ethics Commission at their next available meeting. I further understand that this waiver is not final until approved by the State Ethics Commission.

A. This waiver is provided pursuant to IC 4-2-6-11(g) and specifically waives the application of
(Please indicate the specific restriction in 42 IAC 1-5-14 (IC 4-2-6-11) you are waiving):

☐ IC 4-2-6-11(b)(1): 365 day required "cooling off" period before serving as a lobbyist.

☒ IC 4-2-6-11(b)(2): 365 day required "cooling off" period before receiving compensation from an employer for whom the state employee or special state appointee was engaged in the negotiation or administration of a contract and was in a position to make a discretionary decision affecting the outcome of such negotiation or administration.

☐ IC 4-2-6-11(b)(3): 365 day required "cooling off" period before receiving compensation from an employer for which the former state employee or special state appointee made a directly applicable regulatory or licensing decision.

☐ IC 4-2-6-11(c): Particular matter restriction prohibiting the former state employee or special state appointee from representing or assisting a person in a particular matter involving the state if the former state officer, employee, or special state appointee personally and substantially participated in the matter as a state worker.
(Please provide a brief description of the specific particular matter(s) to which this waiver applies below):

B. IC 4-2-6-11(g)(2) requires that an agency's appointing authority, when authorizing a waiver of the application of the post-employment restrictions in IC 4-2-6-11(b)-(c), also include specific information supporting such authorization. Please provide the requested information in the following five (5) sections to fulfill this requirement.

1. Please explain whether the employee's prior job duties involved substantial decision-making authority over policies, rules, or contracts:

Mr. McClellan is the District Deputy Commissioner for the Indiana Department of Transportation – Seymour District. He supervises the Construction, Operations Support, Maintenance, Capital Program, and Technical Services Departments. In his time at INDOT, Mr. McClellan has had limited interaction with Volkert and did not personally make any selections or any other contract decisions for their pursuits.

Mr. McClellan is the appointing authority for the Seymour District, and he is in a position to advise on and make discretionary decisions on any projects or contracts overseen by employees who report to him. McClellan would have overseen departments that had dealings with Volkert, as well as those that would have made decisions that would impact Volkert. Some of the departments in McClellan's vertical may have made regulatory and permitting decisions involving Volkert.

2. Please describe the nature of the duties to be performed by the employee for the prospective employer:

In his post-INDOT employment, McClellan will serve as a Vice President – Indiana operations for Volkert, a firm that does business with INDOT. This position will provide leadership for the State of Indiana with responsibility for the success and growth of regional marketing and operations. The Indiana Practice Leader will provide technical direction and lead client-facing teams and support the continued growth of Volkert services through effective business development, marketing, and sales. Mr. McClellan will grow service lines across multiple disciplines within Planning, Environmental, Design, Engineering, Program Management, and Construction Management.

INDOT relies on the private engineering and construction industry to design and build the state's transportation infrastructure. Volkert is a significant player in the field of transportation engineering in the Nation and is looking to provide that same support in the State of Indiana. In his new role, McClellan will be ensuring Volkert's work is compliant with INDOT standards.

3. Please explain whether the prospective employment is likely to involve substantial contact with the employee's former agency and the extent to which any such contact is likely to involve matters where the agency has the discretion to make decisions based on the work product of the employee:

Volkert, Inc, has at least ten (10) open contracts with INDOT statewide and is pursuing at least two (2) more contracts. Only one (1) of the active contracts is within the Seymour District and under Mr. McClellan's authority. Several of these contracts are on-call consulting contracts that are on-going.

Mr. McClellan anticipates that he will have contact with INDOT personnel. Mr. McClellan anticipates that this interaction will be like the contact of other state leaders for consulting engineering firms without an INDOT background.

Mr. McClellan will be involved in both engineering design and construction inspection pursuits and efforts. McClellan and Volkert understand that he cannot work on any project for Volkert that he participated in while at INDOT.

4. Please explain whether the prospective employment may be beneficial to the state or the public, specifically stating how the intended employment is consistent with the public interest:

Mr. McClellan is a licensed professional engineer in the State of Indiana and has over thirty-two (32) years of experience in the transportation engineering field. Mr. McClellan's knowledge and expertise in transportation engineering, operations, and construction fields would be beneficial to the public because he has a thorough knowledge of what INDOT expects in its construction and design projects and how to efficiently provide that quality of work. His knowledge will ensure INDOT's vision and priorities will continue to be implemented by its private sector partners.

5. Please explain the extent of economic hardship to the employee if the request for a waiver is denied:

Mr. McClellan is retiring from INDOT after 29 years with the department. Due to his role at INDOT as a District Deputy Commissioner, there are few roles outside of INDOT that would not require a similar post-employment waiver for Mr. McClellan to be employed within the industry.

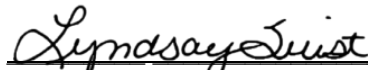

Within INDOT, there are few opportunities for advancement of position and salary for Mr. McClellan. He is a member of the executive team, and any higher position would require him to relocate to Indianapolis. Mr. McClellan would like to use his experience in the private sector, where he can still serve the State of Indiana with his knowledge of the transportation engineering industry.

Mr. McClellan's experience is in the transportation engineering industry, and it is government that builds roads with the assistance of the private sector. Denying the post-employment waiver would require Mr. McClellan to either remain at INDOT, leave the state, enter an entirely new field of engineering, or fully retire, which is not a financial reality at this time for Mr. McClellan.

C. Signatures

1. Appointing authority/state officer of agency

By signing below I authorize the waiver of the above-specified post-employment restrictions pursuant to IC 4-2-6-11(g)(1)(A). In addition, I acknowledge that this waiver is limited to an employee or special state appointee who obtains the waiver before engaging in the conduct that would give rise to a violation.

Lyndsay Quist, Commissioner

10/05/2026
DATE

2. Ethics Officer of agency

By signing below I attest to the form of this waiver of the above-specified post-employment restrictions pursuant to IC 4-2-6-11(g)(1)(B).

James Boyer, Deputy Commissioner
