

To: All IHCD RED Partners Notice: **RED 18-53**
 From: IHCD Real Estate Department
 Date: December 12, 2018
 Re: **Updates to the Environmental Review User's Guide**

Most of the federal funding sources housed in or associated with the IHCD Real Estate Department (CDBG, CDBG Disaster, HOME, HOME Tenant Based Rental Assistance, National Housing Trust Fund, Lead Hazard Reduction Demonstration Grant Program, Neighborhood Stabilization Program, and Continuum of Care) require environmental and historic reviews before federal funds can be utilized. Additionally, a historic review process is required for applicants and recipients of IHCD's Development Fund. This notice is to inform applicants and recipients of new edits to the Environmental Review Record (ERR) and Section 106 Historic Review documents for the federal funding sources.

This manual was last updated in August 2018. A few additional edits have been made to the User's Guide and in the appendices as of December 2018. For a full summary of all edits, refer to the December 2018 version of the document titled "Updates to the ERR and Section 106 Documents" found [here](#).

It is important to note that one of the updates was to all of the boilerplate public notices in Appendix 5. The notices are required for publication as part of the Release of Funds process for federal funds. Recipients must use the latest version of these notices or republication may be necessary.

Please contact Carmen Lethig at clethig@ihcda.in.gov for questions regarding these changes.
