Commercial and Office Space: IHCDA Rental Housing financing resources cannot be used to finance commercial space within a Development. Income generated and expenses incurred from this space, though, must be factored into IHCDA's underwriting for the Development as a whole when reviewing the application. If the Development involves the development of commercial space, the applicant will need to provide separate annual operating expense information and a separate 15-year proforma for the commercial space. Be sure to label which forms are for the housing and which ones are for the commercial space. Also separate out all development costs associated with the commercial space on line M of the Development Costs chart.

Note: The actual amount of credit for the Development is determined by IHCDA. If the Development is eligible for Historic Tax Credit, include a complete breakdown of the determination of eligible basis for the Historic Credit with the Application. If the Development's basis has been adjusted because it is in a high cost area or qualified census tract, the actual deduction for the Historic Cost items must be adjusted by multiplying the amount by 130%. This does not apply to Historic Tax Credits.
