Re: **2024 Low Income Housing Tax Credit Income and Rent Limits**

The 2024 Multifamily Tax Subsidy Income Limits for the Low-Income Housing Tax Credit Program were released by HUD with an effective date of April 01, 2024 and must be implemented within 45 days of that date.

Background information

Income and rent limits are no longer based solely on the county in which a development is located. Instead, limits are project-specific based on the placed-in-service date. Remember that a “project” is defined by the election made by the owner on Form 8609 Part II Line 8b. If buildings within the same development are considered separate “projects” (i.e., if Line 8b of the 8609 is marked “no”), then each building may potentially have different sets of limits. Even if the multiple building project election is marked yes, it is important to note that separate phases are always considered different projects and are therefore likely to have different sets of limits.

The Housing and Economic Recovery Act of 2008 (HERA) created HERA special limits for projects defined as “HUD hold harmless impacted projects.” A project is eligible to use the HERA special limits if:

1. The county has HERA special limits published; and
2. The project placed in service on or before December 31, 2008.

Furthermore, HERA established an additional “hold-harmless” policy for all tax credit projects. Under this policy, a project’s income and rent limits will never decrease from one year to the next, even if there is a decrease in the HUD published limits for the county in which the project is located. However, a project is never eligible to use a set of limits if it was not placed-in-service during the time those limits were in effect. A multiple building project is considered placed-in- service on the date the first building in that project places in service.

For more information on correctly applying income and rent limits, please refer to Section 4, Parts 4.1 and 4.2 of IHCDA’s [2024 Rental Housing Tax Credit Compliance Manual](#).
