Re: Request for Qualifications – Weatherization Assistance Program Multifamily Statewide Contractor Pool

The Indiana Housing and Community Development Authority seeking qualified contractors and entities interested in providing installation and related services for multifamily projects through the Weatherization Assistance Program (WAP).

The Weatherization Assistance Program provides energy conservation measures to reduce the utility bills of low-income Hoosiers across the state. The program offers clients a long-term solution to reducing household energy costs by improving energy efficiency, health, and safety of homes. The United States Department of Energy (DOE) allocates funds to IHCDA for administration of the program through Indiana's network of Local Service Providers.

IHCDA is releasing a Request for Qualifications (RFQ) to establish a statewide pool of qualified contractors capable of supporting multifamily weatherization projects throughout Indiana. IHCDA is seeking contractors with experience in areas including, but not limited to, insulation, air sealing, HVAC, electrical, plumbing, ventilation, and other energy-efficiency or building-performance.

Click **here** to access the RFQ.

The deadline for submission is Friday, November 20, 2026, at 5:00 PM ET.

Responses must be submitted via email. All documents must be submitted as a combined PDF unless otherwise indicated in the RFQ with the subject line, "Multifamily Statewide Contractor Pool" to:

Jamison Washington
iwx@ihcda.IN.gov

Applications that miss the deadline for submission and/or do not contain all of the required forms/documents as listed in the RFQ may be determined ineligible for further consideration
