Re: Request for Proposals – Grants Management Software

---

The Indiana Housing and Community Development Authority is looking to work with a software vendor to help us move to an off-the-shelf configurable grants management system.

The selected vendor will help IHCDA transition usage from our current system to the new system and provide training to both external and internal users of the system. IHCDA would like to begin transitioning programs from the old system to the new system in 2027.

The scope of services and requirements are in the RFP and will cover what IHCDA needs in a new system as well as more detailed timelines
