

iTAMS has gone through a thorough **Bridge Reconfiguration** of its chapters and fields within the Asset and Inspection level. This is to provide an improved user experience and limit the need for multiple data entry, that may cause data inconsistencies.

The goals for this reconfiguration of the chapters and fields are:

- ✓ To organize the data views to a more meaningful way
- ✓ Elimination of the obsolete fields
- ✓ Applying triggers to automate the population of some data
- ✓ To streamline the processes by eliminating the duplication of data entry in some fields

To enable a smooth transition:

- ✓ iTAMS is **not** going to be available today, Thursday, April 18, 2024 from 5:00 PM EST to 9:00 AM EST of Friday, April 19, 2024.
- ✓ All users should login to iTAMS at <https://itams.sixense.co/login> in the morning of Friday, April 19, 2024 to ensure everything is working accordingly.
- ✓ If user experience any issues, contact iTAMSHelp@indot.in.gov support.
