Re: Request for blanket authorization for qualified INDOT historians and archaeologists, and INDOT's qualified professional consultants, to conduct phase Ia archaeological investigations and above-ground historical studies on properties owned by or leased by INDOT (DHPA #31638)

Dear Dr. Coon:

The Indiana Department of Natural Resources, Division of Historic Preservation and Archaeology ("DHPA") has reviewed the plan to conduct field investigations (under Indiana Code 14-21-1-16) on property owned or leased by the Indiana Department of Transportation ("INDOT").

This plan covers:

- Phase Ia scientific archaeological investigation conducted by qualified INDOT archaeologists or INDOT's qualified professional archaeological consultants or sub-consultants on INDOT owned or leased property (see #1 below).
- Above-ground historic studies conducted by or under the supervision of qualified professional historians on INDOT owned or leased land.

The plan is acceptable with the following conditions:

1. The Principal Investigator for archaeology must meet the state qualification requirements (312 IAC 21-3-4 b). Currently, INDOT staff who meet this requirement are yourself (prehistoric, historic) and Dawn Alexander (prehistoric).

All archaeological investigations will be directly supervised in the field and laboratory by a qualified INDOT staff archaeologist or qualified archaeological consultant/sub-consultant meeting the supervisory criteria (field/laboratory supervisor or Principal Investigator) of 312 IAC 21.

2. Any scientific archaeological investigation other than Phase Ia [archaeological monitoring, Phase Ib, Ic, II, or III] will be conducted under an approved plan separate from this one.
3. All required reports and site forms resulting from investigations conducted under this approved plan will include the plan number listed below.
4. The methods and techniques for Phase Ia archaeology in the 2022 *Guidebook for Indiana Historic Sites and Structures Inventory—Archaeological Sites* will be adhered to for all Phase Ia archaeological field investigations conducted under this approved plan. Artifact collection protocol will follow the 2002 *Guidebook*. Per the *Guidebook*, reports must be submitted within one year after the completion of fieldwork unless otherwise specified arrangements are made.
5. Any proposed revision of methodology must be submitted to our office, in writing, for review and comment prior to implementation.
6. The approved plan will be in effect beginning January 1, 2024 through December 31, 2024 and is non-transferrable.

With these conditions, the plan for field investigations is approved (#2023046). A copy of this letter, along with proper identification, will be carried in the field. If you have any questions regarding this matter, please contact State Archaeologist Amy Johnson at 317/232-6982 or ajohnson@dnr.IN.gov.

Very truly yours,
