INSPECTION & MAINTENANCE POST-CONSTRUCTION STORMWATER BMP

Structure Type	Turf Grass Filter Strip	Asset ID	
Typical Corrective Actions	• Vegetation – re-establish as needed so that cover is approximately 90% • Erosion and scour – re-grade as needed, install erosion protection if required • Trash and debris buildup – remove trash and debris as needed • Ponding or concentrated flow - regrade as needed so that stormwater travels as sheet flow across the filter strip • Inflow and outflow points and/or structures – repair structures and remove debris or blockage as needed
