Re: Consultant Firm Billing Direct Hourly Rate Guidelines

The Indiana Department of Transportation (INDOT) made adjustments in 2015 to its limitation on hourly rate for reimbursement of incurred direct labor for architectural and engineering consulting service contracts. INDOT will consider rate adjustments annually.

The standard adjustment, if not altered by INDOT, will be the 12 month ECI percent change as of the prior calendar year ending December 31, and will be applicable on July 1st of each year. A negative percentage change will automatically result in an equal decrease in the rate, provided, however, INDOT reserves the right to annually consider relevant economic and financial factors to make any rate adjustment it considers in the best interest of the State of Indiana. The ECI for the 12 months ended December, 2014 was 2.0%.

The ECI is from Table 9 Wages and Salaries (not seasonally adjusted) for private industry workers, for the group Professional, scientific, and technical services, Base = December 2005, as issued by the US Department of Labor, Bureau of Labor Statistics.

The maximum allowable reimbursement, without executive approval, for consultant's incurred direct labor is \$63.43 per hour.

This hourly rate of \$63.43 is effective for INDOT contracts signed on or after July 1, 2015 through June 30, 2016 and is not retroactive for contracts signed before July 1, 2015. The new policy affects contract and amendment hourly rate escalation terms as provided in the relevant contract types.
