

New LCV Permit Program – Effective July 01, 2026

Effective July 01, 2026, the Long Carrier Vehicle (LCV) permitting process will be changing. The new program will utilize the MSC DOR system. Manual tractor permits will no longer be accepted after 7/1/2026. Manual driver permits will no longer be accepted after 8/1/2026.

LCV Tractor Permits – Effective 7/1/2026.

The LCV Tractor permit will now be a 100% electronic process. Permit applicants will enter tractor information online into the MSC DOR system, and applications will be signed electronically. No more paper forms!

The new tractor application is shorter and only the tractor information will be required. Information regarding the trailer will no longer be collected. Please note that companies will still be responsible for following the LCV tractor/tractor and driver permitting requirements detailed under IAC Title 135, Article 2, Rule 7 & 8.

Please see: http://iac.iga.in.gov/iac/iac_title?iact=135.

A significant improvement to the process is if your information is entered correctly, you can immediately have your permit faxed or emailed to you within 30 minutes. In addition, for any new permit entered in the system, you will be able to reprint it yourself – should the original be lost or damaged. One final feature is the ability to assign each permit its own unique internal-use number, separate from the permit number.

LCV Driver Permits – Effective 8/1/2026.

The LCV Driver permit will primarily have the same features as the tractor permit. The difference is that supporting PDF documents will be uploaded into the program. Applications will be electronically signed by the company representative submitting the application. It is recommended that companies keep a driver's signature on file for each LCV driver permit application.

If all information is entered correctly, the system will send your application for document review. As the application will need to be manually reviewed, permits may take up to ten business days (excluding holidays) for review. Once the permit completes the approval process, you will receive an email notification and can issue the permit from the system.

Like the tractor permit, any new driver permit entered in the system, company representatives will be able to reprint non-expired permits – should the original be lost or damaged. Driver permits can also be assigned their own unique internal number, separate from the permit number.

Under the new program, drivers may keep a digital copy of their LCV driver permit on their person in lieu of a paper copy.

Should you have any questions or concerns, please email: lcvpermits@indot.in.gov

Below, please find the instructions for applying for an LCV driver permit.

MCS DOR – LCV Driver Permit Application Tutorial

1. Log into the DOR – Motor Carrier Services web page.
<https://motorcarrier.dor.in.gov/loginHome.html>

If your company does not have an account, you will need to create one. Visit the LCV web page for the tutorial:

<https://www.in.gov/indot/home/INDOT-LCV>

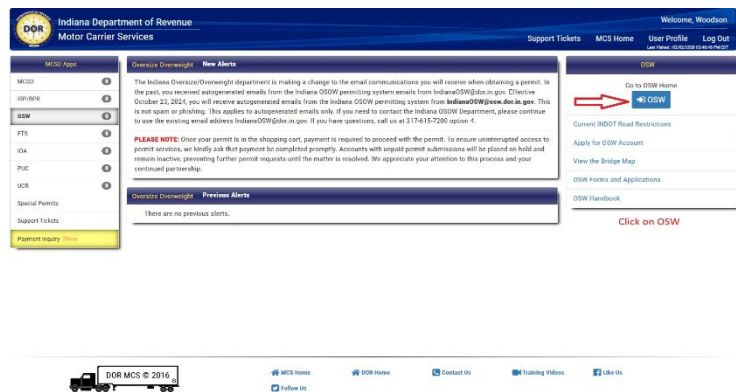

- ## 2. Enter your Login information

- ### 3. Enter the OSW system

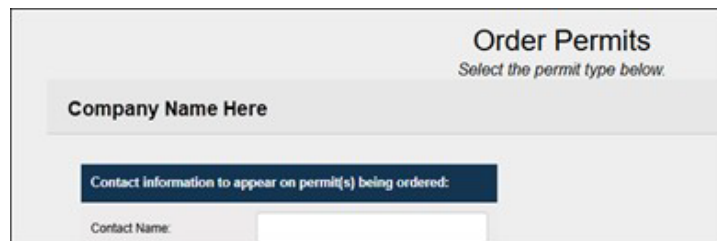

4. Continue the OSW login process

5. Click on "New Permit"

6. The company information will pre-populate into the system.

7. Make any required changes to the prepopulated fields. If you would like the issued permit to be emailed or faxed, select the appropriate **Primary Delivery Method**.

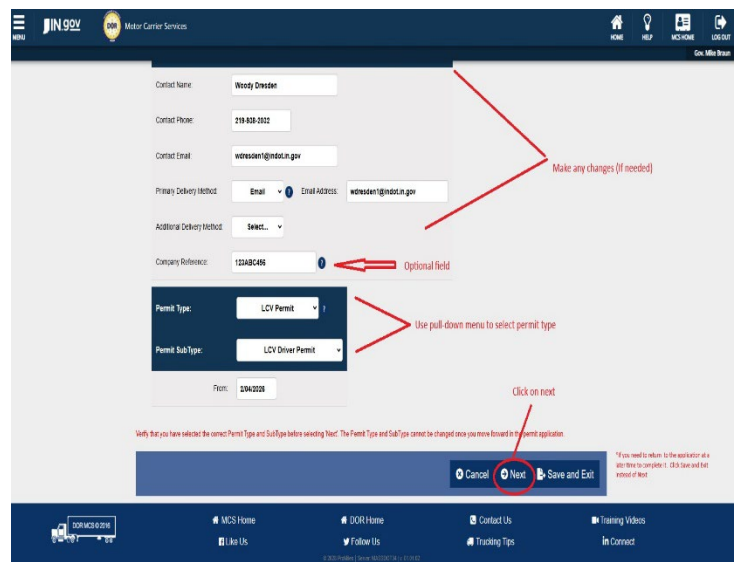

***Make sure this is your information.**

Select:

Permit Type: **LCV Permit**

Permit Sub Type: **LCV Driver Permit**

When finished, click **Next** at the bottom of screen.

8. Step One:

Select **New** or **Renewal Permit** Type

New Applicant is a new employee and has never had an LCV Permit with your company.

Renewal Applicant is a current employee and has an LCV Permit with your company that is expiring. You must enter his/her LCV previous permit number.
