Summary of Discussion:

- **Meeting purpose:** Share INDOT's proposed safety and mobility improvements for the SR 19 & Division Road intersection and gather public feedback.
- The intersection has had 24 crashes since 2019, many of them severe right-angle collisions.
- After evaluating options, INDOT's preferred long-term solution is a single-lane roundabout designed to improve safety and accommodate farm and truck traffic.
- Construction is expected in 2027–2028, following a public hearing in 2026, with coordination planned to avoid overlap with nearby projects.
- The project will require a full closure during construction, with signed detours for SR 19 and Division Road.
