

SR9 Pedestrian Facilities from Mounds Rd to University Blvd

INDOT DES. 2301200

About the Project

This project is designed to improve pedestrian connectivity and safety along State Road 9 / Scatterfield Road from Mounds Road to University Boulevard. This project is part of a larger, multi-phase INDOT initiative designed to provide safe pedestrian facilities along State Road 9 in Anderson, from 59th Street to Cross Street.

Our focus for this specific phase is a 1.5-mile section of the corridor. This project begins just south of Mounds Road and extends north to just south of University Boulevard.

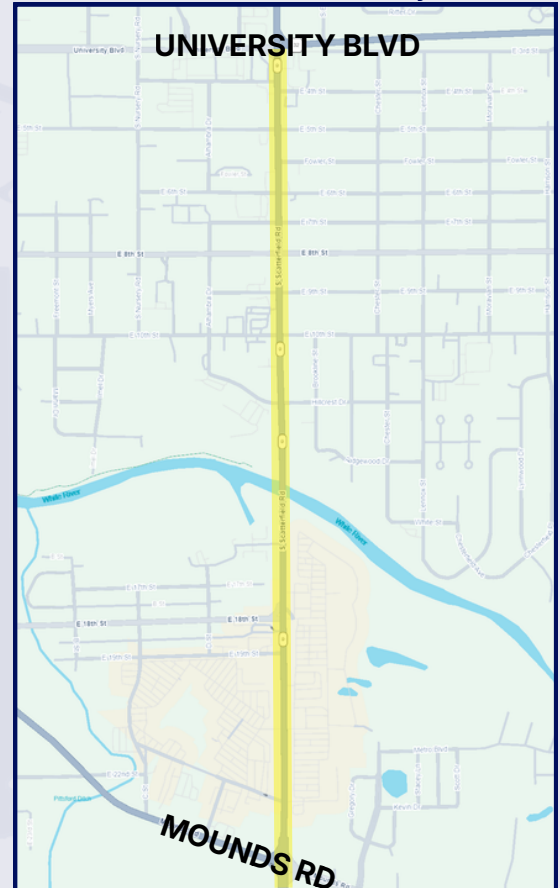

Project Schedule

Project Milestones

- **Public Information Meeting** - June 17, 2026
