Comments: The ONLY project I see on this list that will be completed is the one in Dubois County. All of the others will be rejected. Our current governor, who is very compliant with the federal administration, will choose and push this project through. Either you're asking why or made the connection. This is the governor's County of residence so it will be completed. I also hate to say it, but over the last year a pattern has emerged, if funds are allocated, don't hold your breath to receive them. There are folks in disaster relief areas that are still waiting for their funds. I hope all, especially safety projects, get approved and completed but I don't have any confidence in it.
