

2011

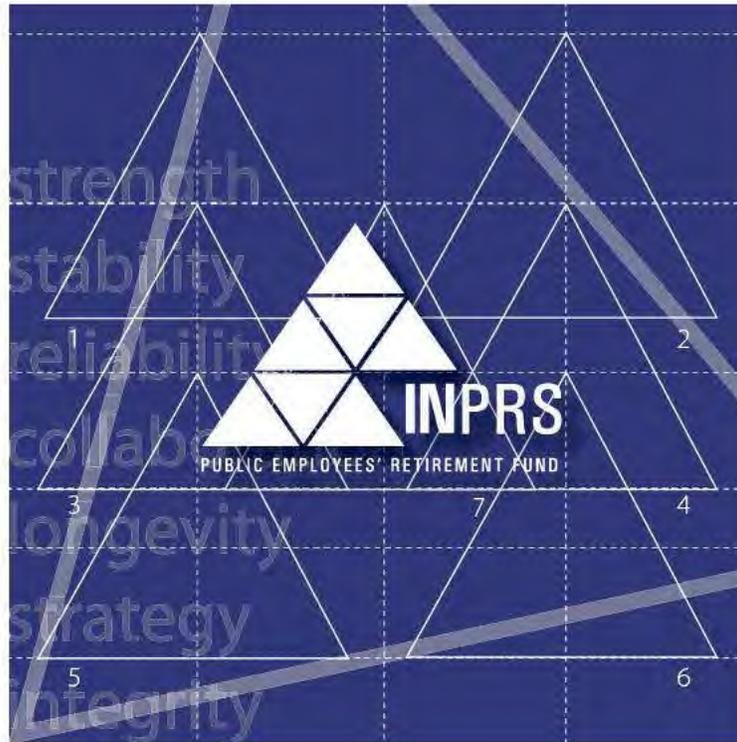

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Fiscal Year Ended June 30, 2011

The Public Employees' Retirement Fund is a discretely presented component unit of the state of Indiana.

PERF is a trust and an independent body, corporate and politic. The fund is not a department or agency of the state of Indiana, but is an independent instrumentality exercising essential governmental functions. (Indiana Code Sections 5-10.3-2-1(b) and 5-10.2-2-1).

December 20, 2011

Dear Board Members:

It is with pleasure that we present the Comprehensive Annual Financial Report (CAFR) of the Indiana Public Employees' Retirement Fund (PERF) for the fiscal year ended June 30, 2011.

About the Indiana Public Employees' Retirement Fund (PERF)

As of June 30, 2011, PERF was responsible for the investment of approximately \$16.6 billion in net assets. In total, PERF paid \$734 million in monthly retirement, disability and survivor benefits to approximately 71,000 benefit recipients, served approximately 164,000 members actively employed in public service and worked in partnership with approximately 1,300 participating employers statewide. PERF also maintains accounts for approximately 104,000 inactive members for a total membership of approximately 339,000. PERF received \$705 million in employer and employee contributions. Details about the demographics of PERF members and employers can be found in the Statistical Section of this report.

This report provides detailed information on the performance of all retirement plans administered by PERF, including:

- Public Employees' Retirement Fund
- 1977 Police Officers' and Firefighters' Pension and Disability Fund
- Judges' Retirement System
- State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Plan
- Prosecuting Attorneys' Retirement Fund
- Legislators' Retirement System

INTRODUCTORY

Letter of Transmittal, continued

SECTION

PERF also administers two special death benefit funds for public safety officers and state employees who die in the line of duty. In addition, PERF manages the Pension Relief Fund, which was created by the Indiana General Assembly to address the unfunded pension obligations of the police officers' and firefighters' pension systems of Indiana's cities and towns. PERF is not responsible for the administration of those local pension funds, which have been closed to new membership since the creation of the 1977 Police Officers' and Firefighters' Pension and Disability Fund. However, PERF makes disbursements from funds provided by the General Assembly to the local police and firefighter units throughout the state that are still obliged to pay benefits under those former plans.

Since its establishment, the laws governing the administration of PERF-administered funds have changed and expanded in response to the needs of our members, employers, and citizens. A public referendum held in 1996 approved an amendment to the Indiana Constitution to allow the funds to invest in equities. Since that time, PERF has been able to diversify its asset classes and grow its asset base.

In 2000, legislation established that PERF would no longer be a state agency but an "independent body corporate and politic", meaning it is not a department or agency of the State, but is an independent instrument exercising essential government functions. By Executive Order of the Governor, PERF is under the jurisdiction of the State Ethics Commission.

Indiana Code established a six-member Board of Trustees to oversee PERF. Five trustees were appointed by the governor. The sixth member of the Board was required to be a director of the budget agency or the director's designee.

In 2010, the General Assembly passed legislation requiring the boards of PERF and the Indiana State Teachers' Retirement Fund (TRF) to jointly appoint a common executive director and to cooperate to the extent practical and feasible in the investing of fund assets. In May 2010, the PERF and TRF Boards jointly appointed a common executive director to carry out the policies set by the Boards and to administer the Funds on a daily basis. During fiscal year 2011, a single common organization was implemented to most efficiently serve the needs of both PERF and TRF. In 2011, additional legislation was passed that created the Indiana Public Retirement System (INPRS), effective July 1, 2011. This legislation established a single common nine-member board to oversee the pre-existing funds previously administered by separate boards of PERF and TRF. While each of the existing PERF-administered funds remain separate and distinct, this year marks the end of a separate CAFR for PERF. Next year will be the inaugural year of a consolidated CAFR for all funds now administered by INPRS.

Benefit Plan and Other Legislative Changes during Fiscal Year 2011

Several changes took effect during fiscal year 2011:

- PERF One-time Check – Effective upon passage, in lieu of a Cost of Living Adjustment (COLA), the General Assembly provided a one-time check to members who retired before January 1, 2010. The amount of the one-time check ranged from \$125 to \$400 depending upon a member's years of service and was to be paid to members no later than October 1, 2010.
- PERF Beneficiaries – Effective July 1, 2010, permits a PERF member to allocate his or her benefit shares by percentages to more than one beneficiary.
- PERF Appeal Rights – Effective July 1, 2010, provides that a PERF member may appeal his or her retirement or disability retirement benefit up to six years after his or her retirement effective date.

INTRODUCTORY

Letter of Transmittal, continued

- Five Star Mortgages – Effective July 1, 2010, provides that PERF may offer Five Star Mortgages as an investment option to members.
- 1977 Police Officers’ and Firefighters’ Pension and Disability Fund (1977 Fund) Partial Lump Sum Distribution - Effective July 1, 2010, provides that, before July 1, 2010, an active member of the 1977 Fund who is eligible to receive an unreduced retirement benefit may elect at retirement to receive a partial lump sum distribution equal to the member’s monthly benefit times the member’s years of creditable service in exchange for an actuarially reduced monthly benefit.
- 1977 Fund COLA - Effective July 1, 2010, provides that an annual COLA for monthly retirement benefits received by a member or survivor of the 1977 Fund may not be used to decrease the member’s monthly benefit.
- 1977 Fund Out-of-State Service Purchase - Effective July 1, 2010, allows a member of the 1977 Fund to purchase, at full actuarial cost, service earned out-of-state in a position for which the 1977 Fund would give credit if the service were earned in Indiana.
- 1977 Fund Prior Service Purchase - Effective July 1, 2010, allows a member of the 1977 Fund to purchase, at full actuarial cost, service in PERF, TRF, State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers’ Retirement Plan, the State Police Pension Trust, and the Sheriff’s Pension Trust.

Management’s Responsibility for Financial Reporting

PERF’s management has the fiduciary responsibility to safeguard the fund and is responsible for the contents of this report. PERF’s management is also responsible for establishing and maintaining a system of adequate internal accounting controls designed to provide reasonable assurance that transactions are executed in accordance with management’s general or specific authorization. The internal control framework has been designed to provide reasonable assurance rather than absolute assurance that the financial statements will be free from material misstatement. To ensure the viability of these controls, a system of both external and internal checks and balances exists. PERF’s management is also charged with recording these transactions as necessary to maintain accountability for assets and to permit preparation of financial statements in accordance with generally accepted accounting principles. This system includes the written policies and procedures of the Board of Trustees.

For financial reporting purposes, PERF follows Governmental Accounting Standards Board (GASB) Statement No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans. Assets of PERF are presented at fair value. The actuarial value of assets and the actuarial accrued liability are presented in the Required Supplemental Schedules following the Notes to the Financial Statements.

GASB issued Statement No. 34, Basic Financial Statements and Management’s Discussion and Analysis for State and Local Governments. This Statement establishes financial reporting standards for state and local governments. The Management’s Discussion and Analysis is contained within the Financial Section of this report and serves to supplement the Introductory Section of this CAFR, as well as financial statements, notes, and supplementary information within the Financial Section.

Economic Condition

PERF’s economic condition is based primarily upon investment results and contributions from members and employers. Strategic Investment Solutions, Inc. (SIS), PERF’s primary investment management consultant, evaluated the impact of economic conditions on PERF’s investments. SIS’s report is located in the Investment Section of this report.

INTRODUCTORY

Letter of Transmittal, continued

Investments

Fiscal year 2011 was an excellent year from an investment return perspective despite an ongoing uncertainty in overall global economic conditions. The PERF Consolidated Retirement Investment Fund (CRIF) assets returned a positive 19.9 percent net of fees. A common measure of investment performance is to compare a portfolio's actual return to its benchmark return. The CRIF's investment performance was better than the target benchmark of 17.9 percent for fiscal year 2011. While the CRIF's 5-year return rate of 3.2 percent is below the fund's long-term actuarial assumed rate of 7.0 percent, the 8-year net of fees return is 6.4 percent and the annualized return since inception (1986) is 7.1 percent.

Prudent diversification through strategic asset allocation is fundamental to PERF's overall investment policy. The policy is designed to provide an optimal mix of asset classes to meet PERF's long-term return objectives, while still minimizing risks. PERF continues to make progress in diversifying the mix of asset classes and adjusting its risk and return profile to deliver the earnings needed to meet benefit obligations. PERF has also begun the process of establishing a more robust risk management program. Detailed investment policies and performance results can be found in the Investment Section of this report.

Funding

An actuarial analysis of all PERF-administered retirement funds is performed on an annual basis. An assumption experience study is performed every three to five years. The actuarial firm, PricewaterhouseCoopers (PwC), completed the most recent annual actuarial analysis as of June 30, 2010. One of the purposes of the actuarial analysis is to measure the funding status, typically referred to as the funded percentage. The percentage is computed by dividing the actuarial value of net assets by the actuarial accrued liability. This ratio provides an indication of the funding status of the plan, and generally, the greater this percentage, the stronger the plan.

As discussed earlier in this letter, PERF administers six separate retirement funds. The aggregate funded percentage for all the funds is 86.1 percent. Actuarial standards consider a funded percentage of 80 percent or better as being healthy. We are pleased with our overall funded status and continue to work to achieve and maintain 100 percent funding.

Details of the actuarial analysis can be found in the Actuarial Section of the report. Supporting statistics can be found in the Statistical Section. In the Statement of Changes in Fiduciary Net Assets, contained in the Financial Section of this report, the accumulated balance of funds derived from the excess of additions over deductions is referred to as the net assets held in trust for pension benefits. The actuarial accrued liability is not disclosed in the Financial Statements, but is disclosed in the Schedule of Funding Progress in the Required Supplemental Schedules following the Notes to the Financial Statements.

Accomplishments in 2011

PERF continued its pursuit of excellence throughout fiscal year 2011. PERF's commitment to outstanding customer service was demonstrated by the continued implementation of operational programs that have resulted in over 99 percent of new retirees receiving their first pension payment on time. Over 90 percent of members who received services from PERF rated their experience as good or excellent. A single administrative organization was implemented by bringing together the best practices of PERF and TRF without any interruption or impact to our members. The merging of TRF and PERF administrative functions delivered \$1.5 million per year in ongoing administrative cost savings in addition to \$10.6 million per year in investment costs. In total, the net present value of the savings represents over \$170 million in savings to Indiana taxpayers.

INTRODUCTORY

Letter of Transmittal, continued

SECTION

Significant progress continues in the implementation of new information technologies. PERF successfully completed its fourth year of a multi-year program to modernize its business processes and systems. Most notably, the ASA platform was overhauled and modernized. Effective August 2010, PERF member ASA accounts are valued on a daily basis versus quarterly, members can securely access their accounts online 24/7, and can transfer fund balances between a greater variety of fund choices on a daily basis.

Following this letter, you will find a Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA) and an Achievement Award from the Public Pension Coordinating Council (PPCC). The GFOA certification for PERF's 2010 CAFR marks the fifth consecutive year that a PERF annual report has achieved this recognition. The PPCC award recognizes PERF's excellence in meeting professional standards for plan design and administration. This recognition rates PERF's system management and administration among an exclusive handful of public retirement systems in the nation and also marks the fifth consecutive year PERF has achieved this distinction.

Acknowledgements

The compilation of this report reflects the combined efforts of PERF staff and advisors. It is intended to demonstrate the spirit of full disclosure and to provide information for use as the basis for making management decisions, as a means of determining compliance with legal provisions, and as a means of determining responsible stewardship of the assets contributed by our members and employers.

We express our gratitude to the staff, advisors, and all who have contributed to the preparation of this report. The PERF staff also wishes to express our gratitude to Indiana Governor Mitch Daniels, the Indiana General Assembly, members of the Indiana Pension Management Oversight Commission, and the PERF Board of Trustees who provided PERF staff the privilege of serving the needs of our members and employers.

Sincerely,

Steve Russo

INTRODUCTORY

Fund Highlights

SECTION

Public Employees' Retirement Fund

Membership and Eligibility

The Public Employees' Retirement Fund (PERF Plan) includes eligible state and local government employees.

MEMBERS RECEIVING RETIREMENT BENEFITS

Age	Years of Service	Allowance Reduction
50 up to 59	15 or more	11% at age 59, additional 5% for each year under age 59
55	Age at retirement plus total years of service equals 85 or more	None
60	15 or more	None
65	10 or more	None
65	8 or more ¹	None

¹A member who has at least eight years of PERF Plan service as a county clerk, county auditor, county recorder, county treasurer, county sheriff or county coroner is eligible for normal retirement after reaching age 65. This change in the law applies only to members retiring after June 30, 2002. Public Law 73-2002 also provides that a member serving as state auditor, state treasurer or secretary of state, and whose term commences after the November 5, 2002 election, be vested with at least eight years of creditable service.

BENEFIT FORMULA

Annual Benefit = (Years of Creditable Service x Average Annual Compensation x .011) + Annuity Savings Account²

²Members can elect at retirement to receive their Annuity Savings Account as a monthly supplement to their defined pension benefit or in a total distribution.

Cost of Living Allowance

Cost of living allowances are granted by the Indiana General Assembly on an ad hoc basis.

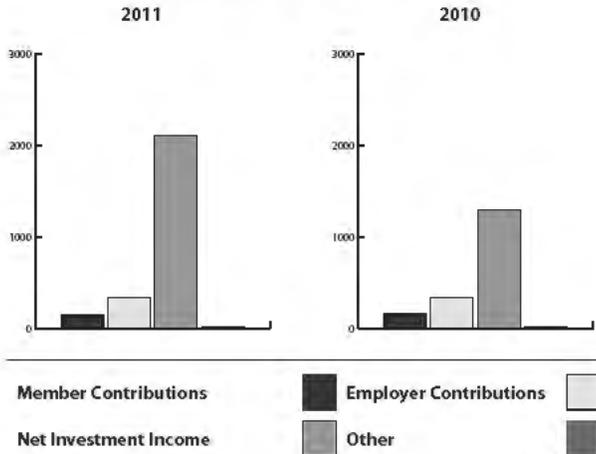

Contribution Rates

- The amount (rate) of employer contributions is adopted by the PERF Board of Trustees based on recommendations by PERF's actuary.
- Members are required to contribute 3 percent of gross wages to their Annuity Savings Account, and employers have the option of making all or part of this contribution on behalf of the member. Members may also voluntarily contribute up to an additional 10 percent of their wages into their Annuity Savings Account, under certain limitations.

INTRODUCTORY

Fund Highlights

SECTION

1977 Police Officers' and Firefighters' Pension and Disability Fund

Membership and Eligibility

1977 Police Officers' and Firefighters' Pension and Disability Fund provides coverage to full-time sworn officers of a police force of an Indiana city or town and full-time firefighters employed by an Indiana city, town or township.

MEMBERS RECEIVING RETIREMENT BENEFITS

Age	Years of Service	Allowance Reduction
50	20 or more	Actuarial reduction of 14 percent at age 50 which decreases uniformly from age 50 to age 52 on a monthly basis
52	20 or more	None

BENEFIT FORMULA

Annual Benefit = 50 percent¹ of first-class salary for 20 years of service.

¹This percentage is increased by 1 percent for each six months of active service accumulated after 20 years of service (to a maximum of 32 years, or 74 percent).

Cost of Living Allowance

Cost of living allowance is a percentage determined by statute equal to the change in the Consumer Price Index, but not in excess of a 3 percent increase.

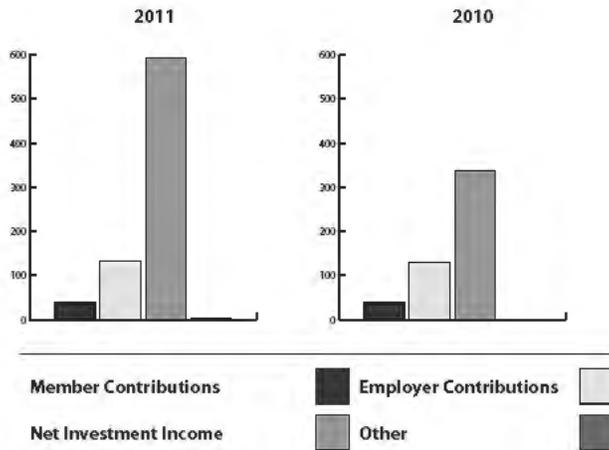

Contribution Rates

- Members contribute 6 percent of first-class salary for the term of their employment up to 32 years. Employers have the option of making all or part of this contribution on behalf of the member.
- Employer contribution rates are adopted by the PERF Board of Trustees based on recommendations by PERF's actuary.

INTRODUCTORY Fund Highlights SECTION

Judges' Retirement System

Membership and Eligibility

The Judges' Retirement System includes any person who has served, is serving or shall serve as a regular judge or justice of the Supreme Court of the state of Indiana, Court of Appeals, Indiana Tax Court, Circuit Court of a Judicial Court, or County Courts including: Superior, Criminal, Probate, Juvenile, Municipal and County Courts. Beginning January 1, 2011, full-time magistrates who are serving on July 1, 2010, may elect to be members of the 1985 System. The 1985 System is mandatory for all new judges and beginning January 1, 2011, all new full-time magistrates.

MEMBERS RECEIVING RETIREMENT BENEFITS

Age	Years of Service	Allowance Reduction
55	Age at retirement plus total years of service equals 85 or more	None
62	8 or more	0.1% for each month that retirement precedes age 65
65	8 or more	None

BENEFIT FORMULA

Annual Benefit = Salary at Retirement¹ x Percentage Below

Years of Service	Percentage	Years of Service	Percentage
8	24%	16	54%
9	27	17	55
10	30	18	56
11	33	19	57
12	50	20	58
13	51	21	59
14	52	22 or more	60
15	53	-	-

¹Benefit calculations for the 1977 System (those who began service as a judge before September 1, 1985) are based on the current salary of the judge's position from which they retired. The 1985 System (those who began service as a judge after August 31, 1985) uses the salary paid to the participant when they retired or the salary paid for the office the participant held at the time of the participant's separation, depending on the participant's separation date and date of retirement application.

Cost of Living Allowance

For participants of the 1977 System and the 1985 System (who apply for a benefit after 12/31/09), the cost of living allowance is a percentage increase equal to the increase in the salary of the participant's position from which the participant retired.

Contribution Rates

- Members contribute 6 percent of the judge's statutory salary until 22 years of service have been completed.
- Employer contributions are determined by the Indiana General Assembly as biennial appropriations from the state's General Fund.

INTRODUCTORY

Fund Highlights

SECTION

State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Plan

Membership and Eligibility

State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Plan includes members engaged exclusively in the performance of law enforcement duties of the (1) Indiana Department of Natural Resources, (2) Indiana Alcohol and Tobacco Commission and (3) any Indiana state excise police officer, Indiana state conservation enforcement officer or gaming agent.

MEMBERS RECEIVING RETIREMENT BENEFITS

Age	Years of Service	Allowance Reduction
45	15 or more	0.25% for each full month that retirement precedes age 60
50	25 or more	None
55	Age at retirement plus total years of service equals 85 or more	None
65	Mandatory retirement at age 65	None

BENEFIT FORMULA

$$\text{Annual Benefit} = 25 \text{ percent}^1 \times \text{Average Annual Salary}^2$$

¹This percentage is increased by 1.67 percent of average annual salary for each completed year of creditable service after 10 years. However, the total percentage may not exceed 75 percent.

²Average Annual Salary is defined as the average annual salary of an officer during the five years of highest annual salary in the 10 years immediately preceding an officer's retirement date.

Cost of Living Allowance

Cost of living allowance is applied at the same rate as was granted by the Indiana General Assembly for the Public Employees' Retirement Fund.

Contribution Rates

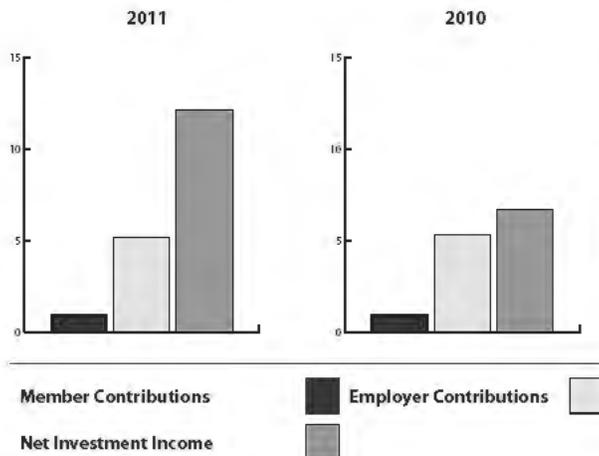

- Members contribute 4 percent of their annual salary.
- Employer contributions are adopted by the PERF Board of Trustees based on recommendations by PERF's actuary.

Prosecuting Attorneys' Retirement Fund

Membership and Eligibility

The Prosecuting Attorneys' Retirement Fund (PARF) includes prosecuting attorneys, chief deputy prosecuting attorneys and other deputy prosecuting attorneys paid by the state. PARF members are also members of the PERF Plan. According to statute, benefits payable from PARF are reduced by any benefits payable from the PERF Plan.

MEMBERS RECEIVING RETIREMENT BENEFITS

Age	Years of Service	Allowance Reduction
62	8 or more	0.25% for each full month that retirement precedes age 65
65	8 or more	None

BENEFIT FORMULA

Annual Benefit = Highest Annual Salary (state-paid portion only) at Retirement x Percentage Below

Years of Service	Percentage	Years of Service	Percentage
Less than 8	0%	15	53%
8	24	16	54
9	27	17	55
10	30	18	56
11	33	19	57
12	50	20	58
13	51	21	59
14	52	22 or more	60

Cost of Living Allowance

No cost of living allowance is provided.

Contribution Rates

- Members contribute 6 percent of the state-paid portion of their annual salary.
- Employer contributions are determined by the Indiana General Assembly as biennial appropriations from the state's General Fund.

Legislators' Retirement System – Defined Benefit Plan

Membership and Eligibility

The Legislators' Retirement System Defined Benefit Plan includes only legislators of the state of Indiana who were serving on April 30, 1989, and elected participation. Legislators elected or appointed after April 30, 1989, participate in the Legislators' Defined Contribution Plan.¹

MEMBERS RECEIVING RETIREMENT BENEFITS

Age	Years of Service	Allowance Reduction
55	10 or more ²	Benefit reduced using early retirement formula ³
55	Age at retirement plus total years of service as a member of the General Assembly equals 85 or more	None
60	15 or more	None
65	10 or more ⁴	None

¹The Legislators' Retirement System also includes a defined contribution plan available to all legislators of the state of Indiana who serve in the Indiana General Assembly on or after April 30, 1989. Members contribute 5 percent of their annual salary. The state of Indiana contribution rate is a percentage that is the sum of: 1) the state's employer contribution rate for state employees, and 2) the rate the state pays on behalf of state employees to their annuity savings accounts. This rate, by statute, cannot exceed the total contribution rate paid that year by the state to PERF for state employees.

²Has terminated service as a member of the Indiana General Assembly and is not receiving nor is entitled to receive a salary from the state.

³Early Retirement Benefit Formula:

Step 1: $780 \text{ months (65 years)} - \text{age at retirement in full months} = [x]$.

Step 2: If $[x]$ is equal to or less than 60, then multiply $[x]$ by 0.1 percent to obtain a product $[y]$. If $[x]$ is greater than 60, then multiply 0.4167 percent by the difference between 60 and the remainder $[x]$. Then take this product and add 6 percent to obtain a sum $[y]$.

Step 3: Then subtract $[y]$ from 100 percent to determine the percentage of age 65 retirement benefit received.

⁴Has terminated service as a member of the Indiana General Assembly, is not receiving nor is entitled to receive a salary from the state, and is not receiving and has not previously received a reduced monthly benefit under this plan.

BENEFIT FORMULA

Lesser of:

- $\$40 \times \text{Years of service before November 8, 1989}$ or
- Highest consecutive three-year average annual salary at termination $\div 12$

Legislators elected or appointed after April 30, 1989 participate in the Legislators' Defined Contribution Plan.

Cost of Living Allowance

Cost of living allowance is applied at the same rate as was passed by the Indiana General Assembly for the PERF Plan.

Contribution Rates

Employer contributions are determined by the Indiana General Assembly as biennial appropriations from the state's General Fund.

INDEPENDENT AUDITOR'S REPORT

TO: THE OFFICIALS OF THE PUBLIC EMPLOYEES' RETIREMENT FUND BOARD OF TRUSTEES

We have audited the accompanying financial statements of the Public Employees' Retirement Fund Board of Trustees, as of, and for the year ended June 30, 2011. These financial statements are the responsibility of the Public Employees' Retirement Fund Board of Trustees' management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Public Employees' Retirement Fund Board of Trustees' internal control over reporting. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Public Employees' Retirement Fund Board of Trustees as of June 30, 2011, and the respective changes in the financial position thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis, Schedule of Funding Progress, and Schedule of Employer Contributions are not a required part of the basic financial statements but are supplementary information required by Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming opinions on the financial statements taken as a whole. The Introductory Section, Administrative Expenses, Investment Expenses, Contractual and Professional Service Expenses, Investment Section, Actuarial Section, and Statistical Section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Administrative Expenses, Investment Expenses, and Contractual and Professional Service Expenses have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The Introductory Section, Investment Section, Actuarial Section, and Statistical Section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

FINANCIAL SECTION

Management's Discussion and Analysis

This section presents Management's Discussion and Analysis (MD&A) of the Public Employees' Retirement Fund of Indiana (PERF) financial statements for the fiscal year ended June 30, 2011. The MD&A is presented as a narrative overview and analysis in conjunction with the Letter of Transmittal included in the Introductory Section of the PERF Comprehensive Annual Financial Report. This section should also be read in conjunction with the Financial Statements, the Notes to the Financial Statements, and the Required Supplemental Schedules.

The following retirement plans are included in the PERF financial statements: Public Employees' Retirement Fund (PERF Plan); 1977 Police Officers' and Firefighters' Pension and Disability Fund (1977 Fund); Judges' Retirement System (JRS); State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Plan (E,G&C Plan); Prosecuting Attorneys' Retirement Fund (PARF); Legislators' Defined Benefit Plan (LDB Plan) and Legislators' Defined Contribution Plan (LDC Plan). Also included in the financial statements are non-retirement funds managed by PERF: the Public Safety Officers' Special Death Benefit Fund (PSO Special Death Benefit Fund); the State Employees' Death Benefit Fund (SE Death Benefit Fund) and the Pension Relief Fund (PR Fund). In this regard, refer to the Notes to the Financial Statements for descriptions of these retirement plans and non-retirement funds.

Financial Highlights

- Total net assets of PERF were \$16.6 billion as of June 30, 2011. Net assets of the retirement plans, which are held in trust to meet future benefit payments, were \$16.5 billion as of June 30, 2011.
- Total net assets of PERF increased by \$2.6 billion, or 18.5 percent, from the prior fiscal year. The increase was primarily due to positive investment returns, resulting in higher investment values.
- Net assets of the PR Fund, which are held in trust for pool participants, were \$52.9 million as of June 30, 2011, compared to \$98.7 million as of June 30, 2010. PR Fund distributions are mandated by state law.
- Substantially all of the investments for the retirement plans and funds administered by PERF are pooled in the Consolidated Retirement Investment Fund (CRIF). The CRIF rate of return on investments for the fiscal year was 19.9 percent (net of fees) on a market value basis, compared to last fiscal year's positive return of 13.6 percent. The improvement was due to positive returns across all major segments of the portfolio.
- As of June 30, 2010, the date of the most recent actuarial valuation, the Public Employees' Retirement Fund, the largest pension plan administered by PERF, is funded actuarially at 85.2 percent. This represents a decrease from the 93.1 percent funded level as of June 30, 2009. Since the Public Employees' Retirement Fund smoothes market gains and losses over four years, the decrease is primarily due to a loss on the Actuarial Value of Assets from smoothing investment losses that occurred in 2008 and 2009.
 - Employer contribution rates are adjusted annually based on actuarial computations.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to PERF's Financial Statements, which are comprised of three components: (1) Financial Statements, (2) Notes to the Financial Statements, and (3) Required Supplemental Schedules. The information available in each of these sections is briefly summarized as follows:

1) Financial Statements

The Statement of Fiduciary Net Assets presents information on PERF's assets and liabilities and the resulting net assets held in trust for pension benefits, death benefits and pool participants. This statement reflects PERF's investments, at fair value, along with cash and short-term investments, receivables, and other assets and liabilities. This statement indicates the net assets available to pay future pension and death benefits and gives a snapshot at a particular point in time.

The Statement of Changes in Fiduciary Net Assets presents information showing how PERF's net assets held in trust for pension benefits, death benefits and pool participants changed during the fiscal years ended June 30, 2011 and June 30, 2010. It reflects contributions by members and employers along with deductions for retirement and annuity benefits, distributions, PR Fund distributions and withdrawals, administrative expenses, and other deductions. Investment income and losses, resulting from investing and securities lending activities during the period, are also presented.

2) Notes to the Financial Statements

The Notes to the Financial Statements provide additional information that is essential for a full understanding of the data provided in PERF's Financial Statements.

3) Required Supplemental Schedules

The Required Supplemental Schedules consist of a Schedule of Funding Progress and a Schedule of Employer Contributions.

Financial Analysis

Total assets of PERF were \$17.8 billion as of June 30, 2011, compared to \$17.7 billion as of June 30, 2010. The increase in total assets was due primarily to positive investment returns, offset by the elimination of securities lending collateral as the program was temporarily discontinued due to the change of custodians on July 1, 2011.

Total liabilities were \$1.1 billion as of June 30, 2011, compared to \$3.7 billion as of June 30, 2010. The decrease was primarily due to the elimination of the securities lending program referenced above.

As the table on the next page shows, total net assets were \$16.6 billion as of June 30, 2011, which represents an increase of \$2.6 billion, or 18.5 percent, compared to the prior fiscal year, driven primarily by the increase in market value of investments during the year.

*Other Employee Benefit Trust Funds.

**Pension Relief Fund only.

Additions

Additions needed to fund benefits for the pension trust funds are accumulated through member and employer contributions, and net returns on invested funds. Member contributions for the year ended June 30, 2011 totaled \$203.5 million, approximately the same as the prior fiscal year. Employer contributions were \$501.1 million, an increase of \$15.2 million, or 3.1 percent. Employer contribution rates are adjusted annually based on actuarial computations.

PERF recognized a net investment income (i.e., including realized and unrealized gains and losses) of \$2.8 billion for the year ended June 30, 2011, compared to a net investment income of \$1.7 billion the prior fiscal year. The total rate of return on the CRIF was 19.9 percent (net of fees) compared to a 13.6 percent gain the prior fiscal year.

Indiana law effective for the fiscal year ended June 30, 2002, permitted cities and towns to defer receiving their earmarked relief payments from the PR Fund. The deferred amounts remain invested in the fund and are available to those cities and towns at their request. There were no deferrals during the year ended June 30, 2011. The state of Indiana makes contributions to the PR Fund to cover current year obligations by way of appropriations, certain tax receipts and lottery funds. These contributions totaled \$175.7 million for the fiscal year ended June 30, 2011, compared to \$195.0 million for the fiscal year ended June 30, 2010.

Deductions

The deductions from PERF's net assets held in trust for pension benefits include retirement, disability and survivor benefits, distributions of contributions and interest/earnings to former members, and administrative expenses. For the year ended June 30, 2011, benefits paid amounted to \$733.6 million, an increase of \$70.0 million, or 10.5 percent, from the prior fiscal year. The increase in benefits was due primarily to an increase in the number of retirees. Distributions paid out to former members were \$70.9 million, which represents an increase of \$28.0 million, or 65.4 percent, from the prior fiscal year. The increase in distributions was primarily due to inactive members withdrawing their funds since the accounts were no longer receiving interest or earnings.

Distributions from the PR Fund totaled \$219.4 million, compared to \$213.0 million in the prior fiscal year, an increase of \$6.4 million, or 3.0 percent.

The cost of administering PERF's retirement plans and non-retirement funds, excluding investment manager expenses, amounted to \$25.1 million, a decrease of \$2.1 million, or 7.7 percent, compared to the prior fiscal year. The decrease was primarily due to select fiscal year 2011 investment expenses (e.g., recordkeeper charges related to the daily valuation of members' Annuity Savings Accounts) being recorded as administrative expenses in fiscal year 2010.

FINANCIAL SECTION

Management's Discussion and Analysis, continued

Historical Trends

A pension fund is fully funded when it has enough money in reserve to meet all expected future obligations to participants. The funded ratios of the defined benefit pension plans administered by PERF as of the latest actuarial valuations were as follows:

Historical Trends

	June 30, 2010	June 30, 2009
PERF Plan	85.2%	93.1%
1977 Fund	92.7	98.0
JRS	66.5	72.9
E,G&C Plan	71.9	76.3
PARF	53.2	59.3
LDB Plan	83.0	93.0

An analysis of the funding progress, employer contributions and a discussion of actuarial assumptions and methods is set forth in Note 5 and in the Required Supplemental Schedules of the Financial Section.

NOTE 1. DESCRIPTION OF RETIREMENT PLANS

(A) Public Employees' Retirement Fund

The Public Employees' Retirement Fund of Indiana Plan (PERF Plan) is a defined benefit multiple-employer public employee retirement system that acts as a common investment and administrative agent for units of state and local governments in Indiana. Established by the Indiana Legislature in 1945 and governed through the Public Employees' Retirement Fund of Indiana (PERF) Board of Trustees by Indiana Code (IC) 5-10.2 and IC 5-10.3, this trust fund provides a retirement program for most officers and employees of the state of Indiana who are not eligible for another program.

The PERF Plan also covers many officers and employees of municipalities of the state, including counties, cities, towns, townships and school corporations. The political subdivisions become participants by ordinance or resolution of the governing body, which specifies the classifications of employees who will become members of the plan. The ordinance or resolution is filed with and approved by the PERF Board of Trustees. In order to be a member, employees hired after June 30, 1982, except employees of a participating school corporation, must occupy positions normally requiring performance of service of more than 1,000 hours during a year. Effective July 1, 2008, members who have at least one year of service in both PERF and the Teachers' Retirement Fund (TRF) have the option of choosing from which of these funds they would like to retire.

As of June 30, 2011, the number of participating political subdivisions was 1,131. As of June 30, 2010, the PERF Plan membership consisted of:

Retired members, beneficiaries and disabled members receiving benefits	67,166
Terminated vested plan members entitled to but not yet receiving benefits	14,759
Terminated non-vested plan members entitled to a refund of ASA balance	88,234
Active members: vested and non-vested	149,877
Total	320,036
Total covered payroll (<i>dollars in thousands</i>)	\$ 4,896,013

The PERF Plan retirement benefit consists of the sum of a defined pension benefit provided by employer contributions plus the amount credited to the member's annuity savings account. The employer contribution rate is based on an actuarial valuation and is adopted by the PERF Board of Trustees in accordance with IC 5-10.2-2-11. The annuity savings account consists of the member's contributions, set by statute at 3 percent of compensation as defined by IC 5-10.2-3-2, plus the interest/earnings or losses credited to the member's account. The employer may elect to make the contributions on behalf of the member. In addition, members may elect to make additional voluntary contributions of up to 10 percent of their compensation into their annuity savings accounts.

Investments in the members' annuity savings accounts are individually directed and controlled by plan participants who direct the investment of their account balances among several investment options of varying degrees of risk and return potential. Effective August 2, 2010, the number of investment options increased from six to eight investment programs:

FINANCIAL SECTION

Notes to the Financial Statements, continued – June 30, 2011

Guaranteed Fund, Large Cap Equity Index Fund, Small/Mid Cap Equity Fund, International Equity Fund, Fixed Income Fund, Inflation-Linked Fixed Income Fund, Money Market Fund, and Target Date Funds. Members may make changes to their investment directions daily. Investments of the plan are reported at fair value.

The pension benefit vests after 10 years of creditable service. The vesting period is eight years for certain elected officials. At retirement, a member may choose to receive a lump sum payment of the amount credited to the member's annuity savings account instead of receiving the amount as an annuity. Vested PERF members leaving a covered position must wait 30 days before being eligible to withdraw their annuity savings account. However, if a member is eligible for a full or reduced retirement at the time of the withdrawal request, he/she will have to begin drawing his/her pension benefit in order to withdraw the annuity savings account. A non-vested member who terminates employment prior to retirement may withdraw his/her annuity savings account at any time.

A member who has reached age 65 and has at least 10 years of creditable service is eligible for normal retirement and, as such, is entitled to 100 percent of the pension benefit component. This annual pension benefit is equal to 1.1 percent times the average annual compensation times the number of years of PERF plan covered employment. The average annual compensation in this calculation is an average of the member's highest 20 calendar quarters' salaries during PERF plan covered employment. Member contributions paid by the employer on behalf of the member and severance pay up to \$2,000 are included as part of the member's salary.

A member who has reached age 60 and has at least 15 years of creditable service is eligible for normal retirement and, as such, is entitled to 100 percent of the pension benefit. A member who is at least 55 years old and whose age plus number of years of PERF Plan covered employment is at least 85 is entitled to 100 percent of the benefits as described above.

A member who has reached at least age 50 and has at least 15 years of creditable service is eligible for early retirement with a reduced pension, ranging from 44 to 94 percent of the pension benefit described above.

The PERF Plan also provides disability and survivor benefits. A member who has at least five years of creditable service and becomes disabled while in active service may retire for the duration of the disability, if the member has qualified for social security disability benefits and has furnished proof of the qualification. The disability benefit is calculated the same as that for a normal retirement without reduction for early retirement. Upon the death in service of a member with 15 or more years of creditable service as of January 1, 2007, a survivor benefit may be paid to the surviving spouse or surviving dependent children. This payment is equal to the benefit which would have been payable to a beneficiary if the member had retired at age 50 or at death, whichever is later, under an effective election of the joint and survivor option available for retirement benefits. A surviving spouse or surviving dependent children are also entitled to a survivor benefit upon the death in service after January 1, 2007, of a member who was at least 65 years of age and had at least 10 but not more than 14 years of creditable service.

There was no cost of living adjustment (COLA) for the year ended June 30, 2011; however, eligible members did receive a 13th check in September 2010.

(B) 1977 Police Officers’ and Firefighters’ Pension and Disability Fund

The 1977 Police Officers’ and Firefighters’ Pension and Disability Fund (1977 Fund) is a defined benefit, multiple-employer, cost-sharing public employee retirement system. It was established in 1977 and is governed by IC 36-8-8 to provide coverage to full-time sworn officers of a police force of an Indiana city or town and full-time firefighters employed by an Indiana city, town, township or county.

As of June 30, 2011, the number of participating employer units totaled 166 (which includes 260 police and fire departments).

As of June 30, 2010, the 1977 Fund membership consisted of:

Retired members, beneficiaries and disabled members receiving benefits	2,782
Terminated vested plan members entitled to but not yet receiving benefits	111
Terminated non-vested plan members entitled to a refund of ASA balance	771
Active members: vested and non-vested	13,362
Total	17,026
Total covered payroll (<i>dollars in thousands</i>)	\$ 675,797

A member is required by statute to contribute 6 percent of a first class officer’s or firefighter’s salary for the term of his/her employment up to 32 years. The accumulated value of the member’s contribution, including interest, may be withdrawn if the member terminates employment prior to completing 20 years of service. The actuary determines employer contributions, subject to approval by the PERF Board of Trustees.

A member vests after 20 years of service. If the member retires at or after the age of 52 with 20 years of service, the benefit is equal to 50 percent of the salary of a first class officer, as reported by the employer in the year the 1977 Fund member ended service plus 1 percent of that salary for each six months of active service over 20 years to a maximum of 12 years. A member may elect to receive an actuarially reduced benefit at age 50.

The 1977 Fund also provides disability and survivor benefits. An active member may file an application for disability benefits. A determination is then made as to whether the member has a covered impairment and whether the impairment was incurred in the line of duty or not. The calculation for disability benefits is based on when the member was first hired, the type of impairment and other factors. In addition, the heirs or estate of a fund member may be entitled to receive \$12,000 upon the member’s death.

If a member dies while receiving retirement or disability benefits, there are provisions for the surviving spouse and child(ren) to receive a portion of the benefits. The member’s surviving spouse is entitled to a monthly benefit equal to 60 percent of the member’s monthly benefit during the spouse’s lifetime. Each of the member’s surviving child(ren) is entitled to a monthly benefit equal to 20 percent of the member’s monthly benefit until the age of 18 or age 23 if a full-time student. If there is no eligible surviving spouse or child(ren), a dependent parent(s) may receive 50 percent of the member’s monthly benefit during their lifetime.

(C) Judges' Retirement System

The Judges' Retirement System is a single employer public employee retirement system and a defined benefit plan established in 1953, and is governed through the PERF Board of Trustees by IC 33-38-6, IC 33-38-7 and IC 33-38-8. Coverage is for any person who has served, is serving or shall serve as a regular judge or justice of the (1) Supreme Court of the state of Indiana, (2) Court of Appeals, (3) Indiana Tax Court, (4) Circuit Court of a Judicial Circuit, or (5) county courts including: Superior, Criminal, Probate, Juvenile, Municipal and County Courts. Indiana Code 33-38-8 applies to judges beginning service after August 31, 1985.

The Judges' Retirement System consists of two plans (the 1977 System and the 1985 System) that provide retirement, disability, and survivor benefits. The 1977 System includes all individuals who began service as a judge before September 1, 1985, unless the individual, within twenty days after becoming a judge, filed an irrevocable election not to participate in the 1977 System. The 1985 System covers all individuals who: (1) began service as a judge after August 31, 1985; and (2) are not participants in the 1977 System. Beginning January 1, 2011, full-time magistrates who are serving on July 1, 2010, may elect to be members of the 1985 System. The 1985 System is mandatory for all new judges and beginning January 1, 2011, all new full-time magistrates.

As of June 30, 2010, the Judges' Retirement System membership consisted of:

Retired members, beneficiaries and disabled members receiving benefits	298
Terminated vested plan members entitled to but not yet receiving benefits	73
Terminated non-vested plan members entitled to a refund of ASA balance	31
Active members: vested and non-vested	291
Total	693
Total covered payroll (<i>dollars in thousands</i>)	\$ 36,722

Member contributions are established by statute at 6 percent of total statutory compensation paid by the state of Indiana, deducted from the member's salary and remitted by the Auditor of State. However, no contribution is required and no such amounts shall be paid by the member for more than 22 years of service.

Employer contributions are determined by the Indiana General Assembly as biennial appropriations from the state's General Fund. Indiana Code 33-38-6-17 provides that this appropriation include only funds sufficient to cover the aggregate liability of the fund for benefits to the end of the biennium on an actuarially funded basis. The statute also provides for remittance of docket fees and court fees which are considered employer contributions.

The Judges' Retirement System provides retirement, permanent disability and death benefits. Retirement benefits vest after eight years of creditable service. Judges who retire at or after age 65 with eight years of creditable service (or are at least 55 years of age and the participant's age in years plus the participant's years of service total 85 or more) are entitled to an annual retirement benefit, payable monthly for life, in an amount calculated in accordance with statute.

The annual retirement benefit for a participant equals the product of the salary that was paid to the participant at the time of separation from service, multiplied by a percentage for years of service as defined in the statute. Applicable salary for participants in the 1985 Judges' System is defined in IC 33-38-8-14(e). The pension benefit for participants of the 1977 Judges' System is based on the salary being paid for the office that the participant held at the time of separation from service [IC 33-38-7-11(g)]. The statute provides for the percentage to be prorated for partial years of service. If the annual retirement benefit of a participant who began service as a judge before July 1, 1977, as computed per IC 33-38-7-11, is less than the benefit the participant would have received under IC 33-38-6 as in effect on June 30, 1977, the participant is entitled to receive the greater amount as the participant's annual retirement benefit. The benefits of the retired judges that were former participants in the 1977 System are increased by the same percentage increase as the active judges' salary.

A reduced amount is paid for early retirements that may be selected upon attainment of age 62. There is no vesting requirement for permanent disability benefits.

Surviving spouses or dependent child(ren) are entitled to benefits if the participant had qualified to receive a retirement or disability benefit, or had completed at least eight years of service and was in service as a judge.

There was no COLA for the year ended June 30, 2011.

(D) State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Plan

The State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Plan (E,G&C Plan) was established in 1972 and is governed by IC 5-10-5.5, as amended. The E,G&C Plan is a single employer defined benefit plan for certain employees of the (1) Indiana Department of Natural Resources, (2) Indiana Alcohol and Tobacco Commission and (3) any Indiana state excise police officer, Indiana state conservation enforcement officer, gaming agent or any gaming control officer who is engaged exclusively in the performance of law enforcement duties.

As of June 30, 2010, the E,G&C Plan membership consisted of:

Retired members, beneficiaries and disabled members receiving benefits	157
Terminated vested plan members entitled to but not yet receiving benefits	4
Terminated non-vested plan members entitled to a refund of ASA balance	52
Active members: vested and non-vested	471
Total	684
Total covered payroll (<i>dollars in thousands</i>)	\$ 26,709

Members are required by statute to contribute 4 percent of the member's annual salary to the E,G&C Plan. If a member leaves covered employment or dies before 15 years of creditable service, accumulated member contributions, plus interest as credited by the PERF Board of Trustees, are distributed to the member, or to the designated beneficiary or the member's estate.

The E,G&C Plan provides retirement, disability and survivor benefits. Generally, retirement benefits vest after 15 years of creditable service. Officers becoming participants after age 50 are vested after completion of 10 years of service. A participant is entitled to an annual pension benefit, paid in equal monthly installments beginning on the participant's normal retirement date, equal to 25% of the participant's average annual salary. A participant who completes more than 10 years of creditable service is entitled to receive an additional amount equal to 1.67 percent of the participant's average annual salary for each completed year of creditable service over 10 years. However, a participant's annual pension benefit may not exceed 75 percent of the participant's average annual salary.

Each participant is required to retire on or before the first day of the month following the participant's 65th birthday. However, a participant who is hired after age 50 must retire upon the earlier of: (1) the first day of the month following the participant's 65th birthday; or (2) the first day of the month following the date the participant completes 15 years of creditable service. A participant, who is at least 55 years of age and the sum of the participant's years of creditable service and age in years equals at least 85, may retire and become eligible for full retirement benefits. In addition, a participant may elect full retirement benefits at age 50 with 25 years of service. A reduced benefit is provided for early retirements that are elected upon attainment of age 45 with at least 15 years of creditable service. The monthly benefit is reduced by 0.25 percent for each full month by which the participant's early retirement date precedes the participant's 60th birthday.

Participants with one year of creditable service may purchase service credit for prior service in a position covered by any Indiana public retirement fund as defined under IC 5-10-5.5-7.5.

A participant is entitled to receive creditable service for the time the participant receives disability benefits under a state disability plan established under IC 5-10-8-7.

If nominated by the member, the surviving spouse or the parent(s) is entitled to an annual survivors' allowance for life equal to 50 percent of the amount the participant would have been entitled to if he/she had retired. If nominated and eligible, surviving unmarried minor child(ren) are entitled to an annual survivors' allowance equal to 50 percent of the amount the participant would have been entitled to if he/she had retired, divided equally between or among all nominated and eligible children. This benefit will continue until the child reaches 18 years of age or marries, whichever occurs first.

There is no vesting requirement for entitlement to the E,G&C Plan's permanent and temporary disability benefits. The disability benefit calculation is based on whether the disability arose in the line of duty, the degree of impairment as determined by PERF's medical authority, and the participant's monthly salary.

COLA increases for E,G&C Plan are equal to the increase for the PERF Plan subject to the general assembly providing sufficient funding for the increased cost of benefits. There was no COLA for the year ended June 30, 2011.

(E) Prosecuting Attorneys' Retirement Fund

The Prosecuting Attorneys' Retirement Fund (PARF) was established in 1989 and is governed by IC 33-39-7. PARF is a single employer defined benefit plan and is for individuals who: (1) serve as a prosecuting attorney or a chief deputy prosecuting attorney; or (2) serve as the executive director or assistant executive director of the Indiana Prosecuting Attorneys Council or as a state-paid deputy prosecuting attorney. These individuals' salaries are paid from the General Fund of the state of Indiana.

FINANCIAL SECTION

Notes to the Financial Statements, continued – June 30, 2011

As of June 30, 2010, the PARF membership consisted of:

Retired members, beneficiaries and disabled members receiving benefits	58
Terminated vested plan members entitled to but not yet receiving benefits	74
Terminated non-vested plan members entitled to a refund of ASA balance	177
Active members: vested and non-vested	217
Total	526
Total covered payroll (<i>dollars in thousands</i>)	\$ 21,016

Members contribute 6 percent of their salary. They receive annual interest earnings of 5.5 percent in accordance with statute.

PARF provides retirement, disability and survivor benefits. A participant is entitled to a retirement benefit if the participant: (1) is at least age 62; (2) has at least eight years of service credit; and (3) is not receiving salary for services currently performed. A member whose service ended prior to July 1, 2006 must have at least ten years of service.

The retirement benefit of a participant who is at least age 65 is calculated by multiplying: (1) the highest annual salary paid to the participant before the participant's separation from service; by (2) a percentage based on the participant's years of service. The percentages range from 24 percent for eight years of service to 60 percent for 22 or more years of service. If a participant is at least 62 years of age with at least eight years of creditable service, a participant is entitled to receive a reduced annual retirement benefit that equals the benefit, as calculated above, reduced by 0.25 percent per month for each month the participant retires prior to age 65.

In addition, for a participant who is also a member of PERF, a participant's retirement benefits are reduced by the amount of the employer-financed pension benefit that would be payable to the participant had the participant retired from PERF on the date of the participant's retirement from the fund. However, the benefits payable to a participant from the fund are not reduced by any payments made to the participant from the participant's PERF annuity savings account. The state of Indiana has elected to pay the 3 percent employee contribution for the member's annuity savings account in the PERF plan.

PARF also provides disability and survivor benefits. A participant who has at least five years of creditable service and becomes disabled while in active service may retire for the duration of the disability if the participant has qualified for social security disability benefits and has furnished proof of the qualification. The amount of the annual benefit payable to a participant for disability benefits is equal to the product of the annual salary that was paid to the participant at the time of separation from service multiplied by a percentage based on the participant's years of service. The percentages range from 40 percent for five to 10 years of service to 50 percent for 20 or more years of service. These benefits are reduced by any benefits payable to the participant from PERF.

The surviving spouse of a participant is entitled to a benefit if, on the date of the participant's death, the participant: (1) was receiving benefits; (2) has completed at least eight years of service and was in service as a prosecuting attorney or chief

deputy prosecuting attorney, executive director or assistant executive director of the Indiana Prosecuting Attorneys Council, or as a state-paid deputy prosecuting attorney; or (3) had met the requirements for a disability benefit.

Regardless of the participant's age at death, the surviving spouse's benefit is equal to the greater of: (1) \$7,000 annually; or (2) 50 percent of the amount of retirement benefit the participant was drawing at the time of death, or to which the participant would have been entitled had the participant retired and begun receiving retirement benefits on the date of death; reduced, if necessary, because the participant was not yet 65 and by the amounts, if any, payable to the surviving spouse from PERF as a result of the participant's death. If there is not a surviving spouse, there are provisions for dependents to receive benefits.

(F) Legislators' Retirement System

The Legislators' Retirement System was established in 1989 by IC 2-3.5. The retirement system is for certain members of the General Assembly of the state of Indiana as specified by the provisions of the statute.

The Legislators' Retirement System is comprised of two separate and distinct plans. The Legislators' Defined Benefit Plan (LDB Plan) (IC 2-3.5-4), a single employer defined benefit plan, applies to members of the General Assembly who were serving on April 30, 1989, and who filed an election under IC 2-3.5-3-1(b). The Legislators' Defined Contribution Plan (LDC Plan) (IC 2-3.5-5) applies to: (1) members of the General Assembly who were serving on April 30, 1989, and who filed an election under IC 2-3.5-3-1(b); (2) members of the General Assembly who are first elected or appointed after April 30, 1989; and (3) members of the General Assembly who: (a) served before April 30, 1989; (b) were not serving on April 20, 1989; and (c) are subsequently reelected or reappointed to the General Assembly.

As of June 30, 2010, the Legislators' Retirement System membership consisted of:

	Defined Benefit Plan	Defined Contribution Plan
Retired members, beneficiaries and disabled members receiving benefits	61	-
Terminated plan members entitled to but not yet receiving benefits	34	-
Active members: vested and non-vested	20	217
Total	115	217

Legislators' Defined Benefit Plan

The amount required to actuarially fund participants' retirement benefits, as determined by the PERF Board of Trustees on the recommendation of the actuary, is to be appropriated from the state of Indiana General Fund annually in equal installments in the month of July of each year of the biennium.

The LDB Plan provides retirement, disability and survivor benefits. Members of the General Assembly who began service after April 30, 1989, are not members of this plan.

A participant is entitled to an unreduced monthly retirement benefit if the participant is: (1) at least age 65 and has at least 10 years of service as a member of the General Assembly; (2) at least age 55 and whose years of service as a member of the General Assembly plus years of age equal at least 85; or (3) at least age 60 and has at least 15 years of service as a member of the General Assembly. To qualify for a monthly retirement benefit, the member: (1) must have terminated service as a member of the General Assembly; (2) has at least 10 years of service as a member of the General Assembly; and (3) is not receiving and is not entitled to receive a salary from the state.

The monthly retirement benefit is equal to the lesser of: (1) \$40 multiplied by the number of years of service in the General Assembly completed before November 8, 1989, or (2) the highest consecutive three-year average annual salary of the participant under IC 2-3-1-1 at the date the participant's service as a member of the General Assembly is terminated, divided by 12.

A participant who has reached at least age 55, has terminated service as a member of the General Assembly, has at least 10 years of service as a member of the General Assembly, and is not receiving, nor is entitled to receive, a salary from the state of Indiana is eligible for early retirement with a reduced benefit. The reduction in the benefit is equal to: (1) 0.1 percent a month between ages 60 and 65; and (2) 5/12 percent a month between ages 55 and 60.

The LDB Plan also provides disability and survivor benefits. A member who has at least five years of creditable service and becomes disabled while in active service may retire for the duration of the disability if the member has qualified for social security disability and has furnished proof of the qualification. The disability benefit is calculated the same as that for a normal retirement without reduction for early retirement. If a participant dies while receiving retirement benefits, or had completed at least 10 years of service as a member of the General Assembly, or was permanently disabled and receiving disability benefits from the system, the surviving spouse is entitled to receive survivor benefits. The benefits are for life and are equal to 50 percent of the amount of retirement benefits that the participant was receiving at the time of death or that the participant would have been entitled to receive at 55 years of age, or at the date of death, whichever is later. If there is not a surviving spouse, there are provisions for dependents to receive benefits.

COLA increases for the LDB plan are equal to the increase for the PERF Plan as determined by statute passed by the Indiana General Assembly on an ad hoc basis and are generally based on date of retirement, and other eligibility factors. There was no COLA for the year ended June 30, 2011.

Legislators' Defined Contribution Plan

Each participant in the LDC Plan shall make employee contributions of 5 percent of salary received for services rendered after June 30, 1989. The employer contribution prior to January 1, 2009 was equal to 20 percent of the annual salary received by each participant for services rendered after June 30, 1989 and was appropriated from the state of Indiana general fund. Effective January 1, 2009 the employer contribution rate is established each year by PERF and is confirmed by the State Budget Agency. This rate, by statute, cannot exceed the total contribution rate paid that year by the state to PERF for state employees. That state contribution rate is the sum of: (1) the state's employer contribution rate for state employees, and (2) the rate the state pays on behalf of state employees to their annuity savings accounts (3.0 percent).

Investments in the members' accounts are individually directed and controlled by plan participants who direct the investment of their account balances among several investment options of varying degrees of risk and return potential. The number of investment options increased from seven to the following nine investment options: Consolidated Retirement Investment Fund (CRIF), Stable Value Fund, Fixed Income Fund, Inflation-Linked Fixed Income Fund, Money Market Fund, Small/Mid Cap Equity Fund, Large Cap Equity Index Fund, International Equity Fund and Target Date Funds. Members may make changes to their investment directions daily. Investments of the plan are reported at fair value.

A participant of the LDC Plan who terminates service as a member of the General Assembly is entitled to withdraw both the employee and employer contributions to the LDC Plan. The amount available for withdrawal is the fair market value of the participant's account on the payment date. Account balances are fully vested to the participants. The withdrawn amount can be paid in a lump sum, a partial lump sum, a monthly annuity as purchased by the PERF Board, or a series of monthly installment payments over 60, 120, or 180 months as elected by the participant.

If a participant dies while a member of the General Assembly or after terminating service as a member, but prior to withdrawing from the LDC Plan, the participant's account is to be paid to the beneficiary(ies) or to the survivor(s) if there is no properly designated beneficiary, or if no beneficiary survives the participant. The amount to be paid is the fair market value of the participant's account (employer and employee contributions) on the payment date.

A member of the LDB Plan, under certain circumstances, may also be a member of the LDC Plan.

NOTE 2. DESCRIPTION OF NON-RETIREMENT FUNDS

(A) State Employees' Death Benefit Fund

Indiana Code 5-10-11 established the State Employees' Death Benefit program. Under the program, a death benefit of \$50,000 is to be paid in a lump sum to the surviving spouse, or if there is no surviving spouse, to the surviving child(ren) (to be shared equally) of a state of Indiana employee who dies in the line of duty as defined in the statute.

The law provides that "the state may provide these benefits by purchasing group life insurance or by establishing a program of self-insurance." It was determined that a program of self-insurance would be established, and effective with the state's pay period ended October 23, 1993, the state assessed state agencies 0.1 percent of gross pay to fund this program. Because of the size of the fund and the infrequency of payments, collection of the assessment ceased in November 1999.

(B) Public Safety Officers' Special Death Benefit Fund

Indiana Code 5-10-10 established the Special Death Benefit Fund. The fund was established for the purpose of paying a lump sum death benefit of \$150,000 to the surviving spouse or child(ren) of a public safety officer (as defined by IC 5-10-10-4) or other eligible officers (as defined by IC 5-10-10-4.5) who die in the line of duty. If there is no surviving spouse or child(ren), the benefit is paid to the parent(s) in equal shares. The fund consists of bail bond fees remitted under IC 35-33-8-3.2, payments under IC 5-10-10-4.5, and investment earnings of the fund.

(C) Pension Relief Fund

The Pension Relief Fund (PR Fund) was created by the Indiana General Assembly in 1977 (IC 5-10.3-11). The purpose of the PR Fund is to give financial relief to pension funds maintained by units of local government for their police officers' and firefighters' retirement plan benefits.

The PR Fund's additions are derived from contributions from the state of Indiana from a portion of cigarette and alcohol taxes, a portion of the state's lottery proceeds, interest earned by the Public Deposit Insurance Fund, investment income earned, and appropriations from the General Assembly.

Distributions are made from the PR Fund to units of local government in two equal installments before July 1 and before October 2 of each year. Effective January 1, 2009, the distribution is determined by an estimate of the total amount of pension, disability and survivors benefits from the 1925 Police Pension Fund (IC 35-8-6), the 1937 Firefighters' Pension Fund (IC 36-8-7), and the 1953 Police Pension Fund (IC 36-8-7.5). The estimate is prepared by the actuary on a city-by-city basis, and on a departmental basis.

In 1988, an additional distribution from the PR Fund was authorized to assist municipalities in paying monthly benefits to the surviving spouses of members of the 1925, 1937 and 1953 local pension funds. The distribution was the amount by which the surviving spouse's benefit exceeded 30 percent of the salary of a first class patrol officer or a first class firefighter for surviving spouses of members of the old plans who died after December 31, 1988.

As defined by IC 36-8-8-20, the PR Fund also pays a lump sum line of duty death benefit of \$150,000. As defined by IC 36-8-8-14.1, the benefit is paid to the following relative of a fund member who dies in the line of duty: (1) to the surviving spouse; (2) if there is no surviving spouse, to the surviving child(ren) (to be shared equally); (3) if there is no surviving spouse or child(ren), to the parent(s) in equal shares.

Units of local government are permitted to defer receiving their earmarked relief payments from the PR Fund. The deferred amounts remain invested in the fund and are available to the units of local government at their request. As of June 30, 2011, units of local government had investments with a market value of approximately \$4.8 million on deposit in the PR Fund.

NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Listed below are significant accounting policies adhered to by the PERF Board of Trustees.

(A) Reporting Entity

The financial statements presented in this report represent only those funds for which the PERF Board of Trustees has responsibility and are not intended to present the financial position or results of operations of the state of Indiana or all of the retirement and benefit plans administered by the state. Effective July 1, 2000, PERF became an independent body corporate and politic (Public Law 119-2000). PERF is not a department or agency of the state; it is an independent body corporate and politic which exercises essential government functions. For these reasons, PERF is considered a component unit of the state of Indiana for financial statement reporting purposes.

The following funds are included in the financial statements:

- Public Employees' Retirement Fund (PERF Plan);
- 1977 Police Officers' and Firefighters' Pension and Disability Fund (1977 Fund);
- Judges' Retirement System (JRS);
- State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Plan (E,G&C Plan);
- Prosecuting Attorneys' Retirement Fund (PARF);
- Legislators' Defined Benefit Plan (LDB Plan);
- Legislators' Defined Contribution Plan (LDC Plan);
- State Employees' Death Benefit Fund;
- Public Safety Officers' Special Death Benefit Fund; and
- Pension Relief Fund (PR Fund).

See Notes 1 and 2 for descriptions of these funds.

(B) Basis of Accounting

The financial statements of PERF have been prepared using the economic resources measurement focus and the accrual basis of accounting in conformity with generally accepted accounting principles as applied to government units. Under the accrual basis, revenues are recognized when earned, and expenses are recognized when liabilities are incurred, regardless of the timing of related cash flows. The Governmental Accounting Standards Board (GASB) is the accepted standards-setting body for established governmental accounting and financial reporting principles. PERF applies all applicable GASB pronouncements in accounting and reporting for its operations.

The PERF Board of Trustees administers seven pension trust funds, two death benefit funds accounted for as other employee benefit trust funds, and an investment trust fund. These fiduciary funds account for assets held by the government in a trustee capacity or as an agent on behalf of others.

The PERF Board of Trustees also has general fund accounts on the Auditor of State's accounting system. These are used to transfer general fund appropriations to certain funds. The accounts themselves are not included in these financial statements, but the appropriations are included as contributions in the funds for which the appropriations were made.

(C) Contributions

Contributions are recognized as revenues when due, pursuant to formal commitments, as well as statutory or contractual requirements. Employers are not required to submit the contributions until the month following the end of the quarter. The estimates for contributions receivable at year-end for each of the retirement funds were determined on the basis that best represents that fund's receivable. The different bases include actual third quarter contributions received during the quarter ended June 30, 2011, actual contributions received in July for workdays in June, or a combination of the two.

(D) Benefits and Distributions

Pension benefits are recognized when due and payable. Initial benefits payments are made after processing the retirement applications. Annuity savings account distributions (refunds) are recognized when the distribution applications are due and payable.

(E) Administrative Expenses

An annual budget for the administrative expenses of PERF is reviewed and approved by the PERF Board of Trustees. Administrative expenses are paid from plan assets and investment earnings.

The PERF Plan pays the administrative expenses of all the funds. At June 30, a receivable is established in the PERF Plan and a payable in the other funds for the amount due to the PERF Plan for the other funds' administrative expenses.

(F) Deposits and Investments

At June 30, 2011, cash and securities of the funds were held by banks or trust companies under custodial agreements with PERF. The PERF Board of Trustees contracts with investment counsel, trust companies or banks to assist PERF in its investment program. The PERF Board of Trustees is required to diversify investments in accordance with the prudent investor standards. The Investment Policy Statement adopted by the PERF Board of Trustees and the asset allocation approved by the PERF Board of Trustees contain limits and goals for each type of investment portfolio and specifies prohibited transactions. See Note 6 for more information.

(G) Method Used to Value Investments

GASB Statement Nos. 25 and 50 require that investments of defined benefit plans be reported at fair value. The diversity of the investment types in which the Fund invests requires a wide range of techniques to determine fair value. The overall valuation processes and information sources by major asset classification are as follows:

Short Term Securities

Short-term securities consist of U.S. Treasury, Money Market Funds, Commercial Paper, and other allowable instruments that meet short-term maturity or average life, diversification and credit quality restrictions. Assets are reported at fair value or cost or amortized cost that approximates fair value. Fair value is determined based upon quoted market prices.

Debt Securities

Debt securities consist primarily of obligations of the U.S. Government and U.S. Government sponsored agencies, corporations, and securitized offerings backed by residential and commercial mortgages, credit cards, auto and student loans. Certain debt securities have an active market for identical securities. These securities can typically be valued using the close or last traded price on a specific date. Most debt securities are not as actively traded and are thus valued using pricing vendors, which use modeling techniques that include market observable inputs required to develop a fair value. Typical inputs include recent trades, yields, price quotes, cash flows, maturity, credit ratings and other assumptions based on the specifics of the asset type.

Equity Securities

The majority of domestic and international equity securities held by the Fund are actively traded on major stock exchanges or over-the-counter. These securities are valued at the last reported sales price at current exchange rates.

Mutual Funds and Collective Trust Funds

Fair values of collective trust funds are determined by the fair value per share of the pool's underlying portfolio as provided by the trustee.

Other Investments

Real Estate

Real estate is held either directly, or as a limited partner. Real estate investments are long term and illiquid in nature. As a result, investors are subject to redemption restrictions which generally limit distributions and restrict the ability of a limited partner to exit a partnership investment prior to its dissolution. Limited partnerships are reported at values provided by the general partner. These holdings are valued by the general partners on a regular basis. The valuation assumptions are based upon both market and property specific inputs such as discounted cash flows, comparative sales, and capitalization rates applied to net operating income which are not observable and involve a certain degree of expert judgment.

Alternative Investments

The Fund has investments in private equity limited partnerships and hedge funds which employ specific strategies. Private equity investments involve the purchase of unlisted, illiquid common and preferred stock and to a lesser degree, subordinated and senior debt of companies that are in most instances privately held. The strategies of all such funds are long term and illiquid in nature. As a result, investors are subject to redemption restrictions which generally limit distributions and restrict the ability of a limited partner to exit a partnership investment prior to its dissolution. Hedge funds may be subject to redemption restrictions which can limit distributions and restrict the ability of a limited partner to exit a partnership. Alternative investments are valued using their respective net asset value (NAV) which is supplied by the investment manager or general partner. The most significant input into the NAV of such an entity is the fair value of its investment holdings. These holdings are valued using assumptions based upon the nature of the investment and the underlying business. The valuation techniques vary based upon investment type and involve a certain degree of expert judgment. For alternative investments, the realized value received upon the sale of these investments in the open market might be different than the fair value reported in the accompanying financial statements.

(H) Investment Unit Trust Accounting

In order to provide a consolidated rate of return for the pension funds and effectively invest in a diversified manner, the PERF Board of Trustees has directed that investment unit trust accounting be implemented and that the investments be commingled as allowed by state statutes. Unit trust accounting involves assigning units to each fund based on the share of the fund's investment fair value to the total fair value of the consolidated investments. The custodian bank prepares consolidated bank statements and fund statements that show the unit trust accounting activity. Investment earnings and appreciation increase the per unit value of all participating funds. Deposits and withdrawals for each fund change the number of units held by each fund. These changes are recorded at the unit value on the transaction date. Investment earnings or losses and fees for the total consolidated fund are allocated to each of the pension funds on a monthly basis using the pro rata fair value share at month end.

The Consolidated Retirement Investment Fund (CRIF) is an internal investment pool as defined by the GASB. It is comprised of investment bank accounts that are maintained individually for each of the contracted investment managers. With the exception of the PERF Plan members' annuity savings account, the CRIF includes all investments and transactions of the pension funds, including the guaranteed fund and a short-term investment account. The LDC Plan also has investment options other than the CRIF. The non-retirement funds administered by PERF are not included in the CRIF.

In accordance with GASB criteria for internal investment pools, the assets and liabilities of the CRIF are allocated pro rata to each of the retirement funds within the pool. This includes cash equivalents, securities lending collateral, accounts receivable and payable to brokers, accrued interest and the investment holdings. The financial statements recognize the investment purchases and sales on the trade date as required by the GASB.

(I) Investment and Contract Sales Receivables and Investments Payable

Investment and contract sales receivables and investments payable consist primarily of receivables or payables for securities purchased or sold but not settled as of June 30, 2011.

(J) Building & Equipment

PERF owns and resides in the building at 143 W. Market Street. The building is depreciated over 20 years. At June 30, 2011 the accumulated depreciation on the building was approximately \$999,000.

Equipment with a cost of \$20,000 or more is capitalized at the original cost. Accumulated depreciation as of June 30, 2011, was approximately \$87,000. Equipment is now fully depreciated. No new equipment was capitalized during the year.

Depreciation is recognized in administrative expenses and computed using the straight-line method over the estimated useful life of the assets.

(K) Software & Other Intangible Assets

PERF is in the process of implementing new computer systems. Amortization is computed over 5 years. Charges for development of internally generated computer software in the amount of \$302,000 were capitalized during the year ended June 30, 2011 for software not placed in production at this time. PERF began using the financial system portion of the implementation in November 2009. Accumulated amortization for the financial system as of June 30, 2011 was approximately \$1.4 million.

PERF capitalized leasehold improvements made to office space leased at One North Capitol Avenue in the amount of \$156,000 during the year ended June 30, 2011. Amortization is calculated over 10 years and accumulated amortization as of June 30, 2011 was approximately \$ 8,000.

Amortization is recognized in administrative expenses and computed using the straight-line method over the estimated useful life of the assets.

(L) Inventories

Inventories of consumable supplies are not recognized on the Statement of Fiduciary Net Assets since they are considered immaterial. Purchases of consumable supplies are recognized as expenses at the time of purchase.

(M) Reserves and Designations

The following are the legally required reserves and other designations of fund equity.

1. Member Reserve – The member reserve represents member contributions made by or on behalf of the members plus any interest or earnings, less amounts refunded or transferred to the Benefits in Force reserve for retirement, disability, or other benefits. For the PERF Plan, this reserve includes the members’ annuity savings accounts. Member reserves are fully funded.

2. Employer Reserve – This reserve consists of the accumulated employer contributions, plus earnings, less transfers made to the Benefits in Force reserve of the actuarial pension cost. The funding status of the employer reserve is outlined in Note 5 and accompanying Required Supplemental Schedules.

3. Benefits in Force – This reserve represents the actuarially determined present value of future benefits for all members who are currently retired or disabled and survivors of members who died in service. The accumulated contributions of the members who elect to annuitize their annuity savings accounts and the actuarial pension cost are transferred to the reserve upon retirement or disability. This reserve is fully funded based on the latest actuarial valuation.

4. Undistributed Investment Income Reserve – This reserve is credited with all investment earnings. Interest transfers are made periodically during the year to the other reserves as allowed or required by the individual funds’ statutes. The transfers are at rates established by the PERF Board of Trustees, statutes or the actual earning rates of the investment options, depending on the statutes of the individual funds. The budget for the next fiscal year was previously transferred to the administrative expense designation. This transfer was discontinued in fiscal year 2011. Any remaining balance (positive or negative) is transferred to the employer reserve and allocated to the employers of the funds.

The following are the balances of the reserves and designations of fund equity as of June 30, 2011:

(dollars in thousands)

Retirement Funds	Member Reserve	Employer Reserve	Benefits in Force	Undistributed Income
PERF Plan	\$ 2,847,915	\$ 4,675,325	\$ 4,938,116	\$ -
1977 Fund	689,975	2,214,800	816,591	-
Judges’ Retirement System	26,218	61,748	169,020	-
E,G&C Plan	6,547	34,250	34,509	-
PARF	21,958	(7,840)	12,360	-
Legislators’ Retirement System –				
LDC Plan	24,754	N/A	N/A	-
LDB Plan	N/A	968	2,677	-

(N) Compensated Absences

PERF's full-time employees are permitted to accumulate earned but unused vacation and sick pay benefits. Vacation leave accumulates at the rate of one day per month and sick leave at the rate of one day every two months plus an extra day every four months. Bonus vacation days are awarded upon completion of five, 10 and 20 years of employment with PERF and/or the state of Indiana. Personal leave days are earned at the rate of one day every four months; any personal leave accumulated in excess of three days automatically becomes part of the sick leave balance. Upon separation from service, employees in good standing will be paid for a maximum of 30 unused vacation leave days.

No liability is reported for unpaid accumulated sick leave. Vacation, personal leave and the salary-related payments that are expected to be liquidated are reported as Compensated Absences Liability.

(O) PERF Annual Pension Cost and Net Pension Obligation

PERF is a discretely presented component unit of the state of Indiana, and PERF employees are combined with the state of Indiana for actuarial purposes.

The Annual Pension Cost and Net Pension Obligations, and the historical trend information for the state of Indiana PERF Plan are as follows:

Annual Pension Cost and Net Pension Obligation (Asset) -- dollars in thousands:	
Annual Required Contribution	\$ 176,290
Interest on Net Pension Obligation	(3,911)
Adjustment to Annual Required Contribution	4,503
Annual Pension Cost	176,882
Contributions Made	(115,232)
Increase (Decrease) in Net Pension Obligation	61,650
Net Pension Obligation, Beginning of Year	(55,877)
Net Pension Obligation, End of Year	\$ 5,773
State Contribution Rate – FY2011	7.0%
State Contribution Rate – FY2012	8.6%

Three-Year Trend Information

(dollars in thousands)

Fiscal Year Ended	Annual Pension Cost (APC)	% of APC Contributed	Net Pension Obligation
June 30, 2011	\$ 176,882	65.1%	\$ 5,773
June 30, 2010	118,839	93.9	(55,877)
June 30, 2009	108,594	102.4	(63,161)

(-) = Assets

(P) Transfers to and from Teachers' Retirement Fund

If a member who has service in both TRF and PERF chooses to retire from a PERF Plan, PERF will use the member's TRF service and annuity savings account balance at the time of retirement to calculate the member's retirement benefit. Likewise, if such a member chooses to retire from a TRF-covered position, TRF will use the member's PERF service and annuity savings account balance. The respective fund sets up a receivable for both the annuity savings account and the calculated reserve for the pension for those members retiring from their fund with service in the other fund. The receivable is included as a line item in the receivable section of the Statement of Fiduciary Net Assets. Likewise, a payable is set up for the amount due to the other funds, in the liabilities section of the Statement of Fiduciary Net Assets.

(Q) Adoption of New Accounting Standard

There were no new accounting standards implemented during fiscal year 2011.

(R) Use of Estimates

In preparing the financial statements in conformity with accounting principles generally accepted in the United States of America, the Board makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

NOTE 4. CONTRIBUTIONS REQUIRED AND CONTRIBUTIONS MADE

(A) Public Employees' Retirement Fund

The state of Indiana and any political subdivision that elects to participate in the PERF Plan is obligated by statute to make contributions to the plan. The required contributions are determined by the PERF Board of Trustees based on actuarial investigation and valuation. The funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to fund the pension portion of the retirement benefit (normal cost) and the amortization of unfunded liabilities.

The actuarial cost method used in the valuation is the entry age normal cost method in accordance with IC 5-10.2-2-9. Under this method as applied to the PERF Plan, a normal cost is determined for each active participant which is the level percentage of compensation needed as an annual contribution from entry age to retirement age to fund projected benefits.

The unfunded actuarial accrued liability on any valuation date is the accumulated value of such normal costs for each non-retired participant from entry date to the valuation date less the value of assets for non-retired members at that date. This unfunded actuarial liability is compared to the expected unfunded actuarial accrued liability, which is determined as the prior valuation unfunded liability reduced by scheduled amortization payments and increased by interest at the actuarially assumed rate. Any changes between the actual actuarial accrued liability and expected actuarial accrued liability due to changes in benefit levels (excluding COLAs), changes in actuarial assumptions, and actuarial experience gains or losses are amortized over a 30-year period.

The actuary calculates actuarial assets using an asset smoothing method for the determination of the employer actuarially required contribution. Under the smoothing method, the Actuarial Value of Assets (AVA) is equal to a four-year smoothing of gains and losses on the Market Value of Assets (MVA), with a 20 percent corridor, where the AVA cannot be more than 120 percent or less than 80 percent of the MVA after the four-year smoothing of gains and losses is applied.

The required contribution levels are determined under the assumption that a 1.0 percent COLA will be granted in each future year, applying not only to then current retirees, but also to active members who have yet to retire. The full effect of a 1.0 percent annual COLA is handled on a pre-funded basis.

(B) 1977 Police Officers' and Firefighters' Pension and Disability Fund

The funding policy for the 1977 Fund is mandated by statute that requires quarterly remittances of member and employer contributions based on percentages of locally established estimated salary rates rather than actual payroll. The member contribution rate is not actuarially determined but was established by statute at 6 percent of the salary of a first class officer or firefighter.

The employer contribution rate is actuarially determined using the entry age normal cost method. The total required to actuarially fund normal cost is reduced by the total estimated member contributions. As the 1977 Fund is a cost-sharing system, all risks and costs, including benefit costs, are shared proportionally by the participating employers. During fiscal year 2011, all participating employers were required to contribute 19.5 percent of the salary of a first class officer or firefighter.

(C) Judges' Retirement System

Employer contribution requirements for the Judges' Retirement System are not actuarially determined, but are established by statute (IC 33-38-6-17) and appropriations. There is an appropriation from the state of Indiana General Fund for each biennium to the Judges' Retirement System based on the recommendation of the actuary.

(D) State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Plan

The funding policy for the E,G&C Plan provides for appropriations made from the state General Fund and the state Fish and Wildlife Fund which, when combined with anticipated member contributions, are sufficient to actuarially fund benefits (normal cost), amortize the unfunded accrued liability over 30 years and prevent the state's unfunded accrued liability from increasing. State of Indiana statute defines the funding policy. Effective July 1, 2007, member contributions, defined by statute as 4 percent of annual salary, are remitted to the fund upon each payroll.

(E) Prosecuting Attorneys' Retirement Fund

The amount required to actuarially fund the PARF participants' retirement benefits, as determined by the PERF Board of Trustees on the recommendation of the actuary, is to be appropriated from the state of Indiana General Fund. Members contribute 6 percent of the state paid portion of their annual salary.

(F) Legislators' Retirement System

For the LDB Plan, the amount required to actuarially fund participants' retirement benefits, as determined by the PERF Board

FINANCIAL SECTION

Notes to the Financial Statements, continued – June 30, 2011

of Trustees on the recommendation of the actuary, is to be appropriated from the state of Indiana General Fund. For the LDC Plan, each participant is required to contribute 5 percent of annual salary. In addition, the state of Indiana is required to contribute a percentage of the member's annual salary on behalf of the participant as determined by PERF and confirmed by the State Budget Agency each year. Effective January 1, 2011 the rate was established at 10.0 percent.

(G) Other Contribution Information

Beginning with the July 1, 2007 actuarial valuations for the PERF Plan, E,G&C Plan, and PARF, smoothing rules were applied to the employer contribution rate to help reduce wide variations in the employer contribution rates from year to year.

Beginning with the January 1, 2007 actuarial valuation for the 1977 Fund, the same smoothing rules were applied.

NOTE 5. FUNDED STATUS AND FUNDING PROGRESS – PENSION PLANS

The funded status of each plan as of June 30, 2010, the most recent actuarial valuation date, is as follows:

(dollars in thousands)

Retirement Plans	Actuarial Value of Plan Assets (a)	Actuarial Accrued Liability (AAL) –Entry Age– (b)	Unfunded AAL (UAAL) (b) - (a)	Funded Ratio (a) / (b)	Annual Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b) - (a)) / (c)
PERF Plan	\$ 12,357,199	\$ 14,506,052	\$ 2,148,853	85.2%	\$ 4,896,013	43.9%
1977 Fund	3,374,438	3,639,669	265,231	92.7	675,797	39.2
Judges' Retirement System	242,143	364,123	121,980	66.5	36,722	332.2
E,G,&C Plan	70,327	97,862	27,535	71.9	26,709	103.1
PARF	26,166	49,174	23,008	53.2	21,016	109.5
LDB Plan	4,075	4,909	834	83.0	N/A	N/A

Actuarial valuations involve estimates of the value of reported amounts, such as salaries and credited service, and assumptions about the probability of events far into the future, such as employment terminations, deaths, disabilities, and retirements. Because of these estimates and assumptions, actuarially determined amounts are subject to periodic review and potential revision depending on results as compared to actual experience and reasonably anticipated future experience. If a defined benefit pension plan is being funded based on reasonable actuarial funding methods and reasonable actuarial assumptions, then the actuarial value of plan assets and the actuarial accrued liability for benefits should, over time, approach equality. The required Schedule of Funding Progress immediately following the Notes to the Financial Statements presents multi-year trend information which should illustrate this trend. However it should be noted that, from year-to-year, plan enhancements and actual plan experience different from that assumed will make year-to-year comparisons variable.

The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future. The calculations upon which an actuarial valuation are determined are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation and on the pattern of cost sharing between the employer and the plan members.

FINANCIAL SECTION

Notes to the Financial Statements, continued – June 30, 2011

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination. Additional information as of the latest actuarial valuation follows:

NOTE 6. DEPOSITS AND INVESTMENTS

Investment Guidelines and Limitations

The Indiana General Assembly enacted the prudent investor standard to apply to the PERF Board of Trustees and govern all its investments. Under the statute (IC 5-10.3-5-3(a)), the PERF Board of Trustees must “invest its assets with the care, skill, prudence and diligence that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character with like aims.” The PERF Board of Trustees also is required to diversify such investments in accordance with the prudent investor standard.

Within these governing statutes, the PERF Board of Trustees has broad authority to invest the assets of the plans. The PERF Board of Trustees utilizes external investment managers, each with specific mandates to implement the investment program. Depending on the mandate and the contractual agreement with the investment manager, investments may be managed in separate accounts, commingled accounts, mutual funds or other structures acceptable to the PERF Board of Trustees. An asset allocation review is conducted at least annually to determine the allocation in achieving the objectives of the Fund.

The strategic asset allocation for the CRIF effective on June 30, 2011 is as follows:

Asset Classes	Target Allocation	Allowable Ranges
Equities	40%	25% - 55%
Fixed Income	30	20% - 40%
Alternatives	30	15% - 45%

Investments in the PERF annuity savings accounts and the LDC Plan are directed by the members in each plan and as such the asset allocation will differ from that of the CRIF. The Pension Relief Fund is invested 100 percent in a money market fund. The Special Death Benefit Funds are 100 percent fixed income.

Custodial Credit Risk

Custodial credit risk is the risk that PERF will not be able to recover the value of its deposits, investments or collateral securities that are in the possession of an outside party if the counterparty fails. Investment securities are exposed to risk if the securities are uninsured, are not registered in the name of PERF and are held by either the counterparty or the counterparty trust department’s agent, but not in PERF’s name.

There was no custodial credit risk for investments including investments related to securities lending collateral as of June 30, 2011. Per IC 5-10.3-5-4(a) and IC 5-10.3-5-5, securities held for the fund are held by banks under custodial agreements in the fund’s name. While PERF’s Investment Policy Statement does not specify custodial risk, statutes provide certain custodial requirements.

Deposit Risks

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized or collateralized with securities held by the pledging financial institution. Deposits held in the two demand deposit accounts are carried at cost and are insured up to \$250 thousand each. Deposits in the demand accounts held in excess of \$250 thousand are not collateralized. Deposits with the Indiana Treasurer of State are entirely insured. Deposits held with the investment custodian are insured up to \$250 thousand. Deposits held with brokers and counterparties are carried at cost and are not insured or collateralized.

Cash Deposits (dollars in thousands)		Total
Demand Deposit Account – Bank Balances	\$	11,112
Held with Treasurer of State		2,300
Held with Counterparties		45,931
Held with Brokers		130,566
Held with Custodian		1,359,560
Total	\$	1,549,469

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the investments. Duration is a measure of interest rate risk. The longer the maturity, the more the value of the fixed-income investment will fluctuate with interest rate changes.

PERF's Investment Policy Statement sets duration guidelines for the fixed income investment portfolio. The fixed income portfolios must substantially match the duration characteristics of the benchmark index. The Core fixed income portfolio limits the duration of the portfolio to not vary more than 20 percent above or below the duration of the applicable benchmark index. The duration of the Core-Opportunistic portfolio may not vary more than 5 years above or below the duration of the benchmark index.

The Fund invests in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by residential and commercial real estate loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

FINANCIAL SECTION

Notes to the Financial Statements, continued – June 30, 2011

As of June 30, 2011 the Fund had the following duration information:

(dollars in thousands)

Credit Risk

The credit risk of investments is the risk that the issuer will default and not meet their obligations. PERF's Investment Policy Statement sets credit quality rating guidelines and benchmark indices for each of its sub-asset classes and is outlined in each portfolio manager contract. The guidelines and benchmarks are as follows: the Core fixed income portfolio (excluding TIPS) must maintain an average credit quality rating of at least A1 (Moody's) or the equivalent; securities must be rated at least Baa3 (Moody's) or the equivalent at the time of purchase unless specifically approved by the PERF Board of Trustees. In the case of a split rating, the higher rating will be used. The Core-Opportunistic fixed income portfolio must maintain an average credit quality rating of at least investment grade by Moody's or the equivalent. The benchmark for the fixed income portfolio is the Barclays Capital Aggregate Bond Index and Barclays Capital Universal Bond Index. The Treasury Inflation Protection Securities (TIPS) and global linkers portfolio must substantially match the quality of its benchmarks, the Barclays Capital

FINANCIAL SECTION

Notes to the Financial Statements, continued – June 30, 2011

US TIPS Index and the Global Customized Benchmark, respectively. The quality rating of investments in debt securities as described by Moody's at June 30, 2011 is as follows:

(dollars in thousands)

Moody's Rating	Cash and Cash Equivalents	Debt Securities	Total	Percentage of Debt & Cash Equivalents
Aaa	\$ 309,256	\$ 2,105,307	\$ 2,414,563	53.9%
US Government Guaranteed	-	465,866	465,866	10.4
Aa	1,199	196,779	197,978	4.4
A	4,100	260,338	264,438	5.9

Ba	-	149,034	149,034	3.3
B	-	54,949	54,949	1.2
Below B	-	16,527	16,527	0.4
Unrated	-	562,698	562,698	12.5
	314,555	4,168,582	4,483,137	100.0%
Cash - Not Applicable	1,575,308	-	1,575,308	
Total	\$ 1,889,863	\$ 4,168,582	\$ 6,058,445	

The \$563 million not rated by Moody's is primarily in the following security types: asset backed securities, commercial mortgages and CMO/Remics.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss that may arise in the event of default by a single issuer. PERF's Investment Policy Statement limits the purchase of securities of any one issuer (with the exception of the U.S. Government and its agencies) to an initial cost of 5 percent or two times the benchmark weight of the market value of an investment manager's portfolio, whichever is greater. Through capital appreciation, no such holding should exceed 10 percent of the market value of the total holdings of such investment manager's portfolio, unless the Board approves an exception.

For investment managers contracted to manage concentrated portfolios, exposure to the securities issued by a single issuer (with the exception of the U.S. Government and its agencies) is limited to 7.5 percent or two times the benchmark weight of the market value of the investment manager's portfolio, whichever is greater. Through capital appreciation, no such holdings should exceed 15 percent of the market value of the total holdings of the investment manager's portfolio, unless the Board approves an exception.

At June 30, 2011, there was no concentration of credit risk for the CRIF.

FINANCIAL SECTION

Notes to the Financial Statements, continued – June 30, 2011

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. PERF's foreign currency exposure is focused primarily in international equity holdings.

PERF's Investment Policy Statement refers to foreign currency guidelines that are linked directly, or indirectly, to the benchmark indices for each sub-asset class or as outlined in each portfolio manager contract. The equity portfolio sub-asset classes have specific guidelines for international equities and global equity investments. Certain sub-asset classes do not allow emerging markets investments while some allow up to 30 percent of market value to be held in emerging markets.

PERF has exposure to foreign currency fluctuation as follows:

Foreign Currency Held at June 30, 2011 (dollars in thousands)						
Currency:	Cash & Cash Equivalents	Debt Securities	Equity Securities	Other Investments	Grand Total	% of Total

Securities Lending

Indiana Code 5-10.2-2-13(d) provides that the PERF Board of Trustees may authorize a custodian bank to enter into a securities lending program agreement under which securities held by the custodian on behalf of PERF may be loaned. The purpose of such a program is to provide additional revenue for PERF.

Statute requires that collateral initially in excess of the total market value of the loaned securities must be pledged by the borrower and must be maintained at no less than the total market value of the loaned securities. The PERF Board of Trustees requires that collateral securities and cash be initially pledged at 102 percent of the market value of the securities lent. No more than 40 percent of CRIF's total assets may be lent at one time. The custodian bank and/or its securities lending sub-agents provide 100 percent indemnification to the PERF Board of Trustees and the CRIF against borrower default, overnight market risk and failure to return loaned securities. Securities received as collateral cannot be pledged or sold by the PERF Board of Trustees unless the borrower defaults. PERF retains the market value risk with respect to the investment of the cash collateral.

Cash collateral investments are subject to the investment guidelines specified by PERF's Investment Policy Statement. It states that the maximum weighted average days to maturity may not exceed 60. The securities lending agent matches the maturities of the cash collateral investments with stated securities loans' termination dates. Cash collateral received for open-ended loans that can be terminated on demand are invested with varying maturities.

At year end, the Fund has no securities lending transactions. The custodian agreement with JP Morgan Chase was terminated as of June 30, 2011 and as of July 1, 2011 the Fund's new custodian was Bank of NY Mellon.

Repurchase Agreements

A repurchase agreement, also known as a repo, is the sale of securities together with an agreement for the seller to buy back the securities at an agreed-upon price at a later date. A reverse repurchase agreement is the same as a repurchase agreement, but from the perspective of the buyer rather than the seller. Repurchase agreements are basically a secured loan with the collateral held at a custodian bank. PERF's Investment Policy Statement permits the following collateral for repos – bonds or notes issued by the United States Treasury, or other securities guarantees as to principal and interest by the Government of the United States and its agencies, and corporate obligations of domestic and foreign issuers with a minimum credit rating. Repos are typically for an overnight term; however, they can be done for a longer term.

(dollars in thousands)

Reverse Repurchase Agreements by Collateral Type	Cash Collateral Posted	Market Value
US Treasuries	\$ 34,800	\$ 33,109
US Agencies	7,500	7,380
Total Repurchase Agreements	\$ 42,300	\$ 40,489

Repurchase Agreements by Collateral Type	Market Value	Cash Collateral Received
US Inflation Linked Bonds	\$ 145,122	\$ 142,697
Total Reverse Repurchase	\$ 145,122	\$ 142,697

Outstanding Short Sales

Short sales occur when investments have been sold which are not yet owned by the Fund. Prior to settlement of the sale, the investments will be procured. For the investments directly held by the Fund within the custody accounts, the outstanding short sales are included as accounts receivable from sales of investments and as negative investments. A schedule of the negative investments as of June 30, 2011, is listed below. These investments reduced the debt securities investments shown on the balance sheet. These transactions involve market risk, as the asset to be delivered may become more costly to procure and then losses would be realized.

Government Mortgage-Backed	\$ 42,563
Total	\$ 42,563

NOTE 7. DERIVATIVE FINANCIAL INSTRUMENTS

Derivative instruments are financial contracts whose values depend on the values of one or more underlying assets, reference rates, or financial indices. PERF's Investment Policy Statement allows the use of derivatives such as options, swaps (including credit default swaps) and futures to manage any investment risk, including market, interest rate, credit, liquidity, and currency risk consistent with managers' guidelines. The Investment Policy Statement prohibits derivative use for speculative purposes or to create leverage. The Fund's derivatives are all related to fiduciary activities. The fair value of all derivative financial instruments is reported in the Statement of Fiduciary Net Assets as either assets or liabilities, and the change in the fair value is recorded in the Statement of Changes in Fiduciary Net Assets as investment income. A derivative instrument could be a contract negotiated on behalf of the Master Trust and a specific counterparty. This would typically be referred to as an "OTC contract" (Over the Counter) such as swaps, forward contracts and TBAs (Mortgage To Be Announced). Alternatively, a derivative instrument, such as futures, could be listed and traded on an exchange and referred to as "exchange traded". Due to the level of risk associated with certain derivative investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term, and such changes could affect the amounts reported in the financial statements. Investments in limited partnerships may include derivatives that are not shown in the derivative total.

During the year, the Fund's derivative investments included:

Futures

A futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date. PERF's investment managers use financial futures to replicate an underlying security or index they intend to hold or sell in the portfolio. In certain instances, it may be beneficial to own a futures contract rather than the underlying security. Additionally, PERF's investment managers use futures contracts to adjust the portfolio risk exposure. Futures contracts may be used for the purpose of investing cash flows or modifying duration, but in no event may leverage be created by any individual security or combination of securities. No short sales of equity securities or equity index derivatives are permitted.

As the market value of the futures contract varies from the original contract price, a gain or loss is recognized and paid to, or received from, the clearinghouse. The cash or securities to fulfill these obligations are held in the investment portfolio.

Options

Options are agreements that give the owner of the option the right, but not obligation, to buy (in the case of a call) or to sell (in the case of a put) a specific amount of an asset for a specific price on or before a specified expiration date.

The purchaser of put options pays a premium at the outset of the agreement and stands to gain from an unfavorable change (i.e., a decrease) in the price of the instrument underlying the option. The writer of call option receives a premium at the outset of the agreement and bears the risk of an unfavorable change (i.e., an increase) in the price of the instrument underlying the option. An interest rate swaption is the options to enter into an interest rate swap based off a set of predetermined conditions.

Options are generally used to manage interest rate risk, adjust portfolio duration, or rebalance the total portfolio to the target asset allocation. The fair value of exchange traded options is determined based upon quoted market prices.

The fair value of over the counter options is determined by external pricing services using various proprietary methods, based upon the type of option.

Rights/Warrants

Rights provide the holder with the right, but not the obligation, to buy a company's common stock at a predetermined price, the subscription price. The right is good until its expiration date. A right permits the investor to buy at a price that may be below the actual market price for that stock. A warrant is an option to buy an underlying equity security at a predetermined price for a finite period of time.

Forwards

Foreign Currency

A forward exchange contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. A contract is classified as a forward contract when the settlement date is more than two days after the trade date. Risks associated with such contracts include movement in the value of a foreign currency relative to the U.S. dollar. The contracts are valued at forward exchange rates and include net appreciation / depreciation in the Statement of Fiduciary Net Assets. Realized gains or losses on forward currency contracts is the difference between the original contract and the closing value of such contract and is included in the Statement of Changes in Fiduciary Net Assets.

The Fund enters into forward currency forwards to manage exposure to fluctuations in foreign currency exchange rates on portfolio holdings and to settle future obligations.

TBA

A TBA (Mortgage To Be Announced) is a contract for the purchase or sale of agency mortgage-backed securities to be delivered at a future agreed upon date. Associated gains are derived from the change in market value of the contract due to a change in price of the underlying security. Future settlement risk is the risk of not receiving the asset or associated gains specified in the contract.

TBAs are used to achieve the desired market exposure of a security or asset class or adjust portfolio duration. The fair value is determined by external pricing services using various proprietary methods.

Swaps

Interest Rate Swaps

Interest rate swaps are derivative instruments in which one party exchanges a stream of fixed interest rate cash flows for floating interest rate cash flows. A notional amount of principal is required to compute the actual cash amounts and is determined at the inception of the contract.

Interest rate swaps are generally used to manage interest rate risk, adjust portfolio duration, or rebalance the total portfolio to the target asset allocation.

The fair value is determined by external pricing services using various proprietary methods.

Inflation Swap

An inflation swap is a derivative used to transfer inflation risk from one party to another through an exchange of cash flows. In an inflation swap, one party pays a fixed rate on a notional principal amount, while the other party pays a floating rate linked to an inflation index, such as the Consumer Price Index (CPI) or an inflation bond.

Credit Default Swaps

Credit default swap agreements involve one party (referred to as the buyer of protection) making a stream of payments to another party (the seller of protection) in exchange for the right to receive a specified return in the event of a default or other predetermined credit event for the referenced entity, obligation or index.

Credit default swaps are used to achieve the desired credit exposure of a security or basket of securities. One of the main advantages of a credit default swap is it allows for exposure to credit risk while limiting exposure to other risks, such as interest rate and currency risk.

The fair value is determined by external pricing services using various proprietary methods.

Credit Risk

Inherent in the use of Over the Counter (OTC) derivatives, the Fund is exposed to counterparty credit risk on all open OTC positions. Counterparty credit risk is the risk that a derivative counterparty may fail to meet its payment obligation under the derivative contract. The Fund uses International Swaps and Derivatives Association Master Agreements and collateral to mitigate counterparty credit risk. Securities eligible as collateral are typically United States government bills and U.S. dollar cash. Generally, any positive movement in market value requires the counterparty to transfer a minimum of \$250 thousand in collateral. This margin is adjusted at a minimum weekly and can be called as frequently as daily.

The maximum amount of loss due to credit risk that the Fund would incur if the counterparty to the derivative instrument failed to perform according to the terms of the contract, without respect to any collateral or other security, or netting arrangements is the total unrealized gain of derivatives at the end of the reporting period. The aggregate fair value of investment derivative instruments in asset positions at June 30, 2011, was \$7,279 thousand of which \$371 thousand was uncollateralized.

Some of the Fund's master agreements are subject to credit-related contingent features. In the event the Fund's assets decline by various, pre-specified rates over predetermined time periods, the Fund is either required to post more collateral or may be required to pay off the open liability contracts given the counterparties right to terminate the contract. Contingent features that could result in an immediate payment from the counterparty include a downgrade of the counterparty below a lower specified rating, commonly A-/A3. It is important to note that these contingent features are not compulsory, rather they are voluntary.

Foreign Currency Risk

The Fund is exposed to foreign currency risk on its foreign currency forward contracts and futures contracts. The required risk disclosures are included in the Foreign Currency Risk schedule in Note 6.

At June 30, 2011, PERF's investments included the following currency forwards balances:

(dollars in millions)

Foreign Currency Contract Receivable	733.1
Foreign Currency Contract Payable	733.4

NOTE 8. LONG TERM COMMITMENTS FOR ALTERNATIVE INVESTMENTS

PERF had entered into long term commitments for funding alternative investments in private equity and private real estate of \$4.0 billion of which \$1.8 billion was outstanding as of June 30, 2011. These amounts include five Euro-denominated and

one Norwegian Kroner-denominated commitment to limited liability partnerships converted to United States dollars at the closing exchange rate as of June 30, 2011. The expected investment term of these commitments extend through 2028. These investments had a net asset value of \$2.2 billion as of June 30, 2011.

NOTE 9. RISK MANAGEMENT

PERF is exposed to various risks of loss. These losses include damage to property owned, personal injury or property damage liabilities incurred by an officer, agent or employee, malfeasance and theft by employees, certain employee health and death benefits, and unemployment and worker's compensation costs for employees.

PERF's policy is generally not to purchase commercial insurance for the risk of losses to which it is exposed. Instead it records as an expense any loss as the liability is incurred or replacement items are purchased. PERF does carry general liability, property, and business interruption insurance, as well as a blanket bond and excess coverage on specific employees. The PERF Board of Trustees administers the state of Indiana's risk financing activity for the state employees' death benefits.

NOTE 10. REQUIRED SUPPLEMENTAL SCHEDULES AND OTHER SUPPLEMENTARY INFORMATION

The historical trend information designed to provide information about PERF's progress in accumulating sufficient assets to pay benefits when due is included as Required Supplemental Schedules. The Schedule of Funding Progress and Schedule of Employer Contributions are included immediately following the Notes to the Financial Statements. Other Supplementary Information (i.e., Administrative Expenses; Investment Expenses; Contractual and Professional Services Expenses) is presented for the purpose of additional analysis and is not a required part of the Financial Statements.

NOTE 11. SUBSEQUENT EVENTS

Legislative Changes

Below is a summary of significant legislative changes that are effective July 1, 2011.

Indiana Public Retirement System

Legislation was passed that merged the Indiana Public Employees' Retirement Fund and the Indiana State Teachers' Retirement Fund, and established the Indiana Public Retirement System to administer and manage:

1. The Public Employees' Retirement Fund;
2. The Teachers' Retirement Fund;
3. The Judges' Retirement System;
4. The Prosecuting Attorneys' Retirement Fund;
5. The State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Fund;

6. The 1977 Police Officers' and Firefighters' Pension and Disability Fund;
7. The Legislators' Retirement System;
8. The Pension Relief Fund;
9. The Special Death Benefit Fund; and
10. The State Employees' Death Benefit Fund.

The bill creates a nine-member Board of Trustees (Board) for the system appointed by the Governor as follows:

1. One trustee with experience in economics, finance, or investments;
2. One trustee with experience in executive management or benefits administration;
3. The Director of the Budget Agency (or designee);
4. Two trustees who are TRF members;
5. One trustee who is a PERF member;
6. One trustee who is a 1977 Fund member;
7. The Auditor of State, or a designee, with experience in professional financial accounting or actuarial science; and
8. The Treasurer of State, or a designee, with experience in economics, finance, or investments.

Future Comprehensive Annual Financial Reports

Beginning with fiscal year 2012, the Indiana Public Retirement System will be issuing one CAFR, based on the merger of the Indiana Public Employees' Retirement Fund and the Indiana State Teachers' Retirement Fund effective July 1, 2011.

Public Employees' Retirement Fund

- PERF members, beneficiaries, and survivors will receive a thirteenth check based on years of service, to be paid not later than October 1, 2011.

1977 Police Officers' and Firefighters' Pension and Disability Fund

- A 2.1 percent COLA will be calculated and paid effective July 1, 2011, in accordance with IC 36-8-8-15.

Judges' Retirement System

- A 1.3 percent COLA will be calculated and paid effective July 1, 2011.

State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Plan

- E,G,&C Plan members, beneficiaries, and survivors will receive two thirteenth checks (one for fiscal year 2010 and one for fiscal year 2011) based on years of service, to be paid not later than October 1, 2011.

Custodian Change

Effective July 1, 2011, BNY Mellon was named as the custodian for the Indiana Public Retirement System. Previously, JP Morgan Chase was the custodian for the Indiana Public Employees' Retirement Fund and Northern Trust was the custodian for the Indiana State Teachers' Retirement Fund.

Board of Trustees

Indiana Public Retirement System

One North Capital Avenue

Indianapolis, IN 46204

Dear Trustees:

Strategic Investment Solutions is pleased to present the State of Indiana Consolidated Retirement Investment Fund ("CRIF") results for the fiscal year ended June 30, 2011.

As of June 30, 2011, the CRIF had combined assets of \$15.8 billion, an increase of \$2.5 billion since June 30, 2010. The increase in assets over the latest fiscal year was primarily due to strongly positive returns in several asset classes, particularly global equities.

Economic and Market Review

Risky assets enjoyed a strong upswing for the second fiscal year in a row, with hopes for a sustained economic recovery and a drop in unemployment. While unemployment in the US did in fact drop from its peak of 10.1% to 8.8% as of April, 2011, it has since risen and now stands at 9.1%. Concurrently, US GDP growth rose to a healthy 3.5% annual rate in the third quarter of 2010. While this was below the level seen in prior recoveries, it gave the markets optimism. Since then, US GDP growth has slowed dramatically. Fears of a "double-dip" recession in late 2011/early 2012 rose, as the housing market and consumer confidence continued to be weak while monetary stimulus related to QE2 expired at the end of June. As a result, during the second quarter of 2011, the equity market rally stalled, commodity spot prices moved sharply downward, and interest rates fell.

Equity markets were strong across the board during the year, with value and growth, large and small cap, domestic and international, and developed and emerging markets all doing well. Within the US, small cap stocks, represented by the Russell 2000 Index, led domestic markets with a 37.4% gain, outpacing the Russell 1000 Index of large cap stocks, which had a return of 31.9%. This was not surprising as small cap stocks typically lead the market during recoveries. Growth stocks outperformed value stocks, 35.7% to 29.1%.

Geographically, perhaps the only weak spot among major markets was Japan, which experienced a devastating earthquake in March, 2011, posting just a 13.0% gain during the year vs. 30.4% for the MSCI EAFE (Europe, Australasia, and Far East) Index. While emerging markets began their downturn earlier than developed markets, they still managed to post a gain of 27.8% in part due to strong economic growth and surging commodity prices. A weakening dollar against all major currencies helped boost non-US equity returns.

INVESTMENT

Report on Investment Activity, continued

Within sectors, Energy (53.4%) and Materials (47.1%) led the way due to strong oil and commodity prices. Conversely, Financials (15.2%) lagged the broader market as major banks continued to restructure their businesses and raise capital to comply with more stringent Basel III requirements.

Interest rates remained low and were little changed during the year. As a result, broad bond market indices posted modest gains, with the Barclays Capital Aggregate Index up 3.9% and the BC Government/Credit Index up 3.7%. Conversely, high yield bonds surged along with other risky assets: the BC High Yield Index was up 15.6% during the year. Boosted by a weaker dollar, non-US bonds performed well, with the Citigroup Non-US WGBI up 13.9%.

Real estate finally began to show signs of life from the market trough, with the NCREIF Property Index up 16.0% during the year. While public REITs have been even stronger than private real estate investments (the NAREIT Equity REIT Index was up 33.6% for the year), the CMBS market, representing commercial mortgage-backed securities, has been slow to keep pace with the recovery.

CRIF Performance¹

CRIF assets returned 19.9% during the year, outperforming the 17.9% gain of both the Target Reference Index and the Dynamic Index benchmarks. US small cap equity had the largest absolute positive impact on total fund fiscal year performance, while the Absolute Return program had the largest relative impact (outperforming its benchmark by the widest margin). Note that performance data is provided on a net-of-fees basis.

Specifically:

The CRIF domestic equity managers outperformed their passive target over the trailing year, returning 32.7% versus the Russell 3000 Index return of 32.4%. This strong performance showing was particularly pronounced in small cap (combined 43.0% vs. 37.4% for the Russell 2000 Index), while the Fund's large/mid cap manager composite (31.7%) kept pace with its benchmark, the Russell 1000 Index. All CRIF managers matched or exceeded their respective benchmark returns.

The CRIF's international equity segment (30.9%) outperformed the MSCI ACWI ex-US Index by 0.6% over the fiscal year. All active managers except Mondrian (29.5%), Altrinsic (28.7%), and Wellington (21.5%) exceeded expectations.

The CRIF Fixed Income Composite excluding TIPS (7.3%) handily beat the blended fixed income benchmark (4.3%) over the year. Core Opportunistic returns were particularly strong, posting a 9.0% gain. TIPS portfolios also did well, particularly the new portfolio managed by Bridgewater. More conservative strategies did not fare as well, with Core Fixed Income gaining 4.6%, as investors preferred riskier segments of the market. Nearly all CRIF bond managers outperformed their respective benchmarks during the year.

¹ Rates of return are presented using a time-weighted rate of return methodology based upon market value, which is not materially different from the CFA Institute's Global Investment Performance Standards (GIPS).

INVESTMENT SECTION

Report on Investment Activity, continued

The CRIF's alternative investments produced varying results over the trailing year:

- Private equity posted a 17.9% gain during the year, a strong showing but below the Russell 3000 Index return (32.4%).
- Commodities posted strong absolute and relative returns, up 28.6% for the year vs. 26.1% for the Dow Jones-UBS Commodity Index.
- Private Real Estate rebounded from the 2008-2010 period, with a gain of 18.3% for the year, with Global REITs even better, at 33.2%. Overall, the CRIF Real Estate program remained neutral 20.6% with its 20.6% custom index.
- Hedge Funds performed well during the year (up 9.1% vs. 3.3% for the 3-month LIBOR + 300 bps benchmark). The CRIF's fund-of-funds managers outperformed the direct program (9.8% vs. 8.8%).

CRIF Changes during Fiscal Year 2011

Relatively few changes were made to the CRIF during the year, with the primary focus being continued development of the Alternative Investment program:

- Two new real estate strategies were funded;
- Two new credit-oriented hedge fund strategies were funded;
- One opportunistic strategy focusing on dislocation in the levered loan market was wound down as prices have moved to fair value over the course of the year.

In summary, Strategic Investment Solutions is pleased with the CRIF's recent performance, with the Total Fund exceeding its benchmark returns over the one and three year periods.

Best regards,

Pete Keliuotis, CFA
Managing Director

INVESTMENT

Outline of Investment Policies

SECTION

The PERF Board of Trustees serves as the ultimate fiduciary of PERF. The PERF Board of Trustees is comprised of six members. Five members are appointed by the governor of Indiana and the sixth is the director of the state's budget agency or his/her designee. One must be a member of the PERF plan with at least 10 years of creditable service. Additionally, one trustee must be a member of: (a) the PERF plan, (b) a state collective bargaining unit, or (c) a labor union that represents the state. No more than three of the trustees may be of the same political affiliation. The PERF Board of Trustees appoints the executive director of PERF subject to the approval of the governor.

The PERF Board of Trustees operates under the prudent investor standard in overseeing investment activities, acting "with the care, skill, prudence and diligence that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character with like aims."

Prior to May 1997, PERF was prohibited from investing in equities. At that time, the PERF Board of Trustees authorized re-balancing the portfolio by investing in diversified equity asset classes. As stated in the Notes to the Financial Statements, the Consolidated Retirement Investment Fund (CRIF) includes all investments and transactions of the pension trust funds. The other employee benefit trust and investment trust funds administered by PERF are excluded from the CRIF. A breakdown of each pension trust fund's share of the CRIF and the asset allocation of the total portfolio is provided in this section.

The investment policy statement (PERF's IPS) and corresponding addenda cover all assets under the PERF Board of Trustees' control. The purpose of the Investment Policy is to:

- Set forth appropriate and prudent investment policies in consideration of the needs of PERF legal requirements applicable to PERF and to direct investment of the Fund's assets.
- Establish criteria against which the investment managers are to be measured.
- Communicate the investment policies, objectives, guidelines and performance criteria of the PERF Board of Trustees to the staff, investment managers, consultants and all other interested parties.
- Serve as a review document to guide the ongoing oversight of the investments of PERF.
- Demonstrate that the PERF Board of Trustees is fulfilling its fiduciary responsibilities in the management of the investments of PERF solely in the interests of members and their beneficiaries.

Maintenance of adequate funding to provide for the payments of the plans' actuarially determined liabilities over time at a reasonable cost to the members, the employers, and the taxpayers of the state is the primary consideration. In order to determine the appropriate asset allocation and diversification of PERF to meet the objectives described above, the PERF Board of Trustees conducts asset and liability modeling studies as necessary. In addition, the asset allocation is reviewed by the Board of Trustees periodically, but no less frequently than every three years.

The investment portfolio includes long-term commitments to the following asset classes: domestic equity, international equity, fixed income, Treasury Inflation Protected Securities (TIPS) and alternative investments.

The PERF Board of Trustees employs professional investment managers selected through a due diligence search process. This process incorporates the state of Indiana's statutory requirements supported by staff and consultant coordination and analysis. It is the PERF Board of Trustees' intent that the selection process be open to all qualified organizations wishing

INVESTMENT SECTION

Outline of Investment Policies, continued

to participate. Investment managers are required to comply with stated investment guidelines detailed in PERF's IPS. Investment manager performance is measured against applicable benchmarks, as well as a comparable peer group of investment managers.

The Guaranteed Fund provides a guarantee of the value of an individual's contributions plus any interest credited. As set by the PERF Board of Trustees, the actual investments of the Guaranteed Fund are the same as the general PERF portfolio. The PERF Board of Trustees annually establishes the interest crediting rate for the Guaranteed Fund based on a uniform methodology. The interest crediting rate for the Guaranteed Fund during the last 10 years is included in the Investment Highlights of this section.

Actuary's Certification Letter

April 20, 2011

Board of Trustees
The State of Indiana Public Employees' Retirement Fund
1 North Capitol, Suite 001
Indianapolis, IN 46204

Re: Certification of the Actuarial Valuations of the State of Indiana Public Employees' Retirement Fund as of June 30, 2010

Dear Board of Trustees:

Actuarial valuations are performed annually for the State of Indiana Public Employees' Retirement Fund ("Indiana PERF") defined benefit pension plans ("Plans"). The results of the latest actuarial valuations, which were prepared as of June 30, 2010, are presented in individual valuation reports for each fund and were prepared pursuant to the engagement letter between Indiana PERF and PricewaterhouseCoopers LLP ("PwC"), dated June 7, 2010. The reports are intended to provide the Board of Trustees ("Board") with information on the funded status of the Plans, development of the contribution rates, and certain financial statement disclosure information.

Under Indiana statutes, employer contribution rates are adopted annually for each Plan by the Board. These rates are actuarially determined based on the Board's funding policy and adopted actuarial assumptions. Contribution rates determined by the actuarial valuation become effective either twelve or eighteen months after the valuation date, depending on the applicable employer. For example, the rates determined by the June 30, 2010 actuarial valuation and adopted by the Board will become effective on either July 1, 2011 or January 1, 2012. If new legislation is enacted between the valuation date and the date the contribution rates become effective, the Board may adjust the recommended rates before adopting them, in order to reflect this new legislation. Such adjustments are based on information supplied by the actuary.

Financing Objectives and Funding Policy

In setting the contribution rates, the Board's principal objectives have been:

- To set contribution rates such that the unfunded actuarial accrued liability ("UAAL") will be amortized over a 30-year period.
- To set contribution rates such that they remain relatively level over time.

To accomplish this, the Board's funding policy requires that the employer contribution rate be equal to the sum of the employer normal cost rate (which pays the current year cost) and an amortization rate which results in the amortization of the UAAL in equal installments.

In addition, the Board has adopted contribution rate smoothing rules for the Public Employees' Retirement Fund, the State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Plan, the 1977 Police Officers' and Firefighters' Pension and Disability Fund, and the Prosecuting Attorneys' Retirement Fund. The contribution rate smoothing rules vary based on the size of the employer and are periodically revised via Board Resolutions. The contribution rate smoothing rules reduce annual volatility in the contribution rates, by phasing in the effects of gains and losses over time.

For 2008, an additional smoothing rule was adopted which stated that any employer contribution amount or rate developed based on the 2008 valuation could not be less than the employer contribution amount or rate based on the prior year valuation. This smoothing rule was adopted in anticipation of the recent economic downturn. This additional smoothing rule was continued for the 2009 and 2010 valuations, but will be reconsidered in future years.

No membership growth is anticipated in setting the contribution rate. This is consistent with GASB #25, which prohibits anticipating membership growth in determining the minimum Annual Required Contribution ("ARC").

Actuary's Certification Letter, continued

Progress Toward Realization of Financing Objectives

The funded ratio (the ratio of the actuarial value of assets to the actuarial accrued liability) is a standard measure of a Plan's funded status. In the absence of benefit improvements, it should increase over time, until it reaches 100%. The combined funded ratio for all Plans decreased by 7.4% from the preceding year due to experience losses when compared to that anticipated by the actuarial assumptions.

Benefit Provisions

The benefit provisions reflected in the valuation reports are those which were in effect at June 30, 2010, as set forth in the related Indiana statutes. None of the Plans had any material changes in benefit provisions since the 2009 valuation.

Assets and Member Data

The valuations were based on asset values of the trust funds and member census data as of June 30, 2010. All asset and member data was provided by Indiana PERF. While certain checks for reasonableness were performed, the data was used unaudited. The accuracy of the results presented in the reports is dependent upon the accuracy and completeness of the underlying asset and census information.

Actuarial Assumptions and Methods

The actuarial assumptions and methods used in the valuations have been selected and approved by the Board. In our opinion, the assumptions and methods are reasonable for the purposes of the valuation reports and comply with the parameters set forth in Statements No. 25 and No. 27 of the Governmental Accounting Standards Board ("GASB"). Different assumptions and methods may be reasonable for other purposes. As such, the results presented in the valuation reports should only be relied upon for the intended purpose.

Certification

We certify that the information presented herein is accurate and fairly portrays the actuarial position of each Plan administered by PERF as of June 30, 2010.

This report contains the required accounting information to be included in the Comprehensive Annual Financial Report. This information has been prepared in accordance with our understanding of Governmental Accounting Standards No. 25 and No. 27 (as amended by No. 50).

To the best of our knowledge this actuarial statement is complete and accurate and has been prepared in accordance with generally accepted actuarial principles and practice and with the Actuarial Standards of Practice issued by the Actuarial Standards Board. In our opinion, our calculations also comply with the requirements of Indiana state law. The undersigned actuaries are members of the Society of Actuaries and other professional organizations, including the American Academy of Actuaries, and meet the Qualification Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States relating to pension plans. There is no relationship between PwC and Indiana PERF that may impair our objectivity.

This document was not intended or written to be used, and it cannot be used, for the purpose of avoiding U.S. federal, state, or local tax penalties. This includes penalties that may apply if the transaction that is the subject of this document is found to lack economic substance or fails to satisfy any other similar rule of law. This document has been prepared pursuant to an engagement letter between Indiana PERF and PwC, and is intended solely for the use and benefits of Indiana PERF and not for reliance by any other person.

ACTUARIAL

Summary of Actuarial Assumptions and Methods

as of June 30, 2010

Changes in Actuarial Assumptions:

For the June 30, 2010 valuation, the Board approved the following assumption changes:

- **Investment Return Assumption**
 - All Systems: The interest rate (net of administrative and investment expenses) was lowered from 7.25% to 7.0%.
- **Cost of Living Allowance (COLA) Assumption**
 - Public Employees' Retirement Fund (PERF); State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Enforcement Officers' Retirement Plan (E,G&C Plan); Legislators' Defined Benefit Plan (LDB Plan): The COLA increase assumption changed from 1.5 percent compounded annually to 1.0 percent compounded annually.
 - 1977 Police Officers' and Firefighters' Pension and Disability Fund (1977 Fund): The COLA increase assumption changed from 2.75 percent compounded annually to 2.25 percent compounded annually.
- **Mortality Assumption (Healthy and Disabled)**
 - PERF; Prosecuting Attorneys' Retirement Fund (PARF); LDB Plan: The mortality assumption was changed from rates based on PERF experience from 1995-2000 to the IRS 2008 Static Mortality Table projected forward five (5) years with Scale AA.
 - 1977 Fund: The mortality assumption was changed from the UP 94 Mortality Table for healthy lives and 115 percent of UP 1994 Mortality Table for disabled lives to the IRS 2008 Static Mortality Table projected forward five (5) years with Scale AA for both healthy and disabled lives.
 - Judges' Retirement System (JRS); E,G&C Plan: The mortality assumption was changed from the 1994 Group Annuity Mortality Basic Table for healthy lives and 115 percent of 1994 Group Annuity Mortality Basic Table for disabled lives to the IRS 2008 Static Mortality Table projected forward five (5) years with Scale AA for both healthy and disabled lives.

Changes in Actuarial Methods:

For the June 30, 2010 valuation, the Board approved the following method changes:

- **Smoothing of Gains and Losses**
 - PERF: The Actuarial Value of Assets (AVA) was changed from 75 percent of expected Actuarial Value, plus 25 percent of the actual Market Value of Assets (MVA) to a four-year smoothing of gains and losses on the MVA, with a 20 percent corridor, where the AVA cannot be more than 120 percent or less than 80 percent of the MVA after the four-year smoothing of gains and losses is applied. This change was made to be consistent with the other PERF plans and to ensure convergence of the AVA and MVA.
 - 1977 Fund; JRS; E,G&C Plan; PARF; LDB Plan: The AVA was updated to include a 20 percent corridor, where the AVA cannot be more than 120 percent or less than 80 percent of the MVA after the four-year smoothing of gains and losses is applied.
- **Amortization of Gains and Losses**
 - 1977 Fund: The method of amortizing gains and losses was changed from a level dollar, rolling 30-year amortization to a level dollar, closed ended 30-year method under which a new base is established each year beginning July 1, 2010.
 - JRS: The method of amortizing gains and losses was changed from a level dollar, fresh start method with a decreasing amortization period starting at 30 years on June 30, 2006 to a level dollar, closed ended 30-year method under which a new base is established each year beginning July 1, 2010.
 - E,G&C Plan; PARF: The method of amortizing gains and losses was changed from a level dollar, fresh start method with a decreasing amortization period starting at 30 years on June 30, 2007 to a level dollar, closed ended 30-year method under which a new base is established each year beginning July 1, 2010.
 - LDB Plan: The method of amortizing gains and losses was changed from a level dollar, fresh start method with a decreasing amortization period starting at 30 years on June 30, 1992, to a 30-year level dollar, closed ended method under which a new base is established each year beginning June 30, 2010.

ACTUARIAL

Summary of Actuarial Assumptions and Methods, continued

as of June 30, 2010

Actuarial Cost Method:

For all systems except the LDB Plan, the actuarial cost method is Entry Age Normal – Level Percent of Payroll. For the LDB Plan, the actuarial cost method is Traditional Unit Credit.

For all systems except the LDB Plan, the normal cost is calculated separately for each active member and is equal to the level percentage of payroll needed as an annual contribution from entry age to retirement age to fund projected benefits. The actuarial accrued liability on any valuation date is the accumulated value of such normal costs from entry age to the valuation date. For the LDB Plan, the normal cost is calculated separately for each active member and is equal to actuarial present value of additional benefits expected to be accrued during the year following the valuation date. The actuarial accrued liability on any valuation date is the actuarial present value of the benefits earned for service prior to the valuation date.

Gains and losses occurring from census experience different than assumed, assumption changes, and benefit changes are amortized over a 30-year period with level payments each year. A new gain or loss base is established each year based on the additional gain or loss during that year and that base is amortized over a new 30-year period. The purpose of the method is to give a smooth progression of the costs from year-to-year and, at the same time, provide for an orderly funding of the unfunded liabilities.

Asset Valuation Method:

Actuarial Value of Assets is equal to a four-year smoothing of gains and losses on the Market Value of Assets subject to a 20 percent corridor.

Inflation:

For all systems, the assumed salary increase includes a 3.0 percent assumption attributable to the effects of inflation on salaries.

Decrement Timing:

Decrements are assumed to occur at the beginning of the year.

¹End of year annual allowances are not equal to the prior end of year annual allowances plus additions and less removals because of data changes and cost-of-living increases.

²For PERF only, annual allowances include member annuities.

³As of January 1 instead of June 30.

PUBLIC EMPLOYEES' RETIREMENT FUND

2011 COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Fiscal Year Ended June 30, 2011

STATISTICAL SECTION

120	Summary of Statistical Section
121	Schedule of Changes in Net Assets
122	Schedule of Additions by Source
124	Schedule of Deductions by Type
126	Schedule of Benefit Deductions by Type
128	Schedule of Benefit Recipients by Type of Benefit Option
129	Schedule of Average Benefit Payments
133	Schedule of Average Death Benefit Payments
134	Schedule of Participating Employers

STATISTICAL SECTION

Summary of Statistical Section

This part of the Comprehensive Annual Financial Report contains more detailed information regarding PERF's financial viability and pension benefit offerings for understanding the Financial Statements, Notes to the Financial Statements, and Required Supplemental Schedules.

Financial Trends

The following schedules contain trends to assist in understanding changes over time in financial performance of each fund:

- Schedule of Changes in Net Assets
- Schedule of Additions by Source
- Schedule of Deductions by Type
- Schedule of Benefit Deductions by Type

Demographic and Economic Information

The following schedules contain benefit and member data to provide a better understanding of the benefit offerings of each fund:

- Schedule of Benefit Recipients by Type of Benefit Option
- Schedule of Average Benefit Payments
- Schedule of Average Death Benefit Payments
- Schedule of Participating Employers

Sources: Unless otherwise noted, the information in these schedules is obtained from the Comprehensive Annual Financial Reports for the relevant years.

1 - Monthly benefit for life. If retiree receives benefits for at least five years prior to their death, there is no benefit payable to a designated beneficiary. If retiree dies prior to receiving benefits for five years, the beneficiary will receive the remainder of those five years of monthly benefits or the present value of those remaining payments in a lump sum.

2 - Monthly benefit for retiree's life. Upon retiree's death, no benefit payable to beneficiary.

3 - Monthly benefit for retiree's life. Upon retiree's death, beneficiary receives the same monthly benefit for life.

4 - Monthly benefit for retiree's life. Upon retiree's death, beneficiary receives two-thirds of the monthly benefit for life.

5 - Monthly benefit for retiree's life. Upon retiree's death, beneficiary receives one-half of the monthly benefit for life.

6 - Monthly benefit for retiree between the ages 50 and 62 who elects to integrate social security with the PERF benefit. At age 62, PERF benefit is reduced or terminated depending on the estimated monthly benefit from social security at age 62.

7 - Monthly benefit for retiree's life. If retiree dies prior to receiving benefit for five years, beneficiary receives either a monthly benefit of the pension amount only for the remainder of the five years, or the present value of those pension payments in a lump sum. Beneficiary also receives a single payment of any residual balance remaining in retiree's Annuity Savings Account, if not already depleted.

8 - Denotes members who are receiving a survivor benefit from this particular fund.

9 - Monthly benefit for retiree's life. Upon retiree's death, surviving spouse receives 60 percent of monthly benefit for life and each surviving child receives 20 percent of monthly benefit until age 18 or 23 if enrolled in a secondary school or accredited college or university.

²Members may choose to take the distribution of their Annuity Savings Account (ASA) in two ways. This represents those retirees who elected to receive their ASA balance as a total distribution at the time of retirement.

³Members in the Public Employees' Retirement Fund with less than 10 years of service, and members in the Judges' Retirement System with less than eight years of service, are receiving a disability benefit.

⁴Members with less than 20 years of service are receiving a disability benefit from the fund. After January 1, 1990 there are two disability programs under this fund. The original program is available only to members initially hired before January 1, 1990 and who elected not to be covered by the new program. The new program is applicable to members hired after December 31, 1989. Members deemed qualified under the original program are entitled to a benefit equal to at least that of a member with 20 years of service at age 52 and may be subject to annual medical review. The new program has three "classes" of impairment with varied entitlements based on the covered impairment.
