

Tips for displaying these awesome posters:

- These graphics are sized to print on 11x17 paper, but feel free to adjust them down to whatever works for your paper or wall space availability!
- Display these in your break room, mail room, or even in the employee bathroom! Wherever INPRS members are, we want these posters.
- The posters include a QR code, which is designed for the reader to scan with their phone's camera. The QR code leads to our link-in-bio page (<https://bit.ly/m/INPRS>) where they'll find all the info they need to plan for the retirement they deserve.
- Feel free to send these out to your favorite human resources people for their retirement plan communications tactics.
- We'd love for you to display these in your workspace and for your colleagues to as well. We're betting that a vision of retirement is pretty inspiring, and that the more frequently they keep up with their INPRS account, the more amazing their retirement futures could be.

MEET YOUR WINNING HAND

Retirement planning shouldn't be a game of chance. Instead of leaving it to luck, focus on four key areas where a little care and attention today can make the difference between a weak pair and a winning hand.
