# **IOT Government Management Information Systems (GMIS) - 2023**

Who we are: A 48-member team providing statewide technical and application support serving more than 180 state operating agencies (encompassing 130 distinct financial business units) GMIS team provides the functional and technical support for Enterprise applications including Hyperion – Budgeting; PeopleSoft Financials and PeopleSoft Human Resources; PeopleSoft Payroll and Absence management; and PeopleSoft Portal.

**Our Mission:** Common Processes--Common Solutions

The GMIS methodology was conceived to identify common processes across state government and then, once recognized, to investigate, research, procure, and implement a common solution, increasing efficiency and decreasing costs. Through adoption of the PeopleSoft\* Enterprise suite of Financials, and Human Capital Management (HCM), GMIS has continued enabling state agencies to perform core administrative functions utilizing common processes within these state-of-the-art enterprise applications. With the Auditor of State's implementation of PeopleSoft Financials for the State book of record in 2009, State of Indiana took ownership of the enterprise applications. GMIS, within the Office of Information Technology, remains the steward of the State's PeopleSoft Enterprise suite.

\*PeopleSoft and Hyperion belong to a suite of Oracle software modules IOT GMIS has implemented/supporting and continues implementing across the state, streamlining accounting and human resources functions across State of Indiana branches of government.

Department: 493010

Managers: Department Manager: Scarlette Harden

Systems Joel Gibbons

Functional Paul Jasheway, Mark McCabe, Brandy Hooton

#### When We Were Formed:

The GMIS precursor team was initially formed under IDOA in the late 1990s for efficiencies and Y2K solutions. The IOT GMIS organization was established in 2005 as part of the statewide IT Consolidation efforts. 2009 was the year PeopleSoft Financials became the official statewide accounting structure.

#### What We Do:

Application and Lifecycle Provide support for 22 PeopleSoft Financials modules, 7 Human Resources modules, and Hyperion

Support Budgeting.

Issue Support Receive approximately 650 issues / month. Resolve 90% of daily issues within 2 business days (SLA).

Project Support Managing active projects for our sponsors and customers.

New Module Impl. Travel & Expense, Payroll and Absence management

Customer Training CBT'S and Instructor lead training

Consulting Services Assist customers with internal financial-related projects on an as needed basis.

**Our Products:** 

1120 & 1121 PeopleSoft HCM & PeopleSoft Financials

**Our Tools:** 

vFire Ticket Management, SLA Measurement and Knowledgebase
App Designer SQL\PS tool for configuring pages and other PS/PeopleTools
BATCHPROC Managing all recurring PeopleSoft Financials batch processes

nVision A PeopleSoft output format with excel-type of power

Phire Application Change Management
PTF PeopleSoft testing framework
SQL Server Management Studio

Text Writer Create/modify/change non-app specific software languages and configuration and output files

TOAD Oracle Developer

**Our Metrics:** 

Resolve customer issues within 24 IOT business hours 90%+ G; 80%+ Y; <70% R

Mon-Fri 6am-6pm excluding state holidays

Our Budget: \$22 million

26% = Salaries & Benefits

1% = Telecom

43% = Contractual Services

2% = Equipment & Capital

28% = Administrative & Operating Expenses

## **Our Sponsors:**

**ERP Governance Committee** 

Enterprise Steering Committee (detailed function list available): Auditor of State, State Budget Agency, Treasurer of State, State Personnel, State Board of Accounts, Department of Administration, and Office of Technology

### Our customers:

**Human Resources** – approximately 34,000, all state employees **Financials** – approximately 9,000 "financial" employees in 80+ State Agencies

### 2021 Accomplishments:

- Financial PUM 35
- PeopleSoft Tools 8.57.17
- Oracle Data Base upgrade 19C
- Appsian Financial masking

### 2022 Projects:

- HCM 9.2 Upgrade
- Implement Absence management
- Implement PS Payroll replacing GEAC
- Appsian security protocol MFA
- Financial training project to CBT
- Kronos FSSA, BMV and DOC
- Supplier management review

- DocuSign for SCM
- IDOA Diversity intake
- 1099 rewrite
- Testing framework assessment
- Project Costing new business model
- Travel and Expense rewrite and implementation
- Implement Program Testing framework for Financials and HCM
- Implementing CA7 Scheduling system for Financials and HCM
- HCM PUM42 implementation
