Press Release

Tippecanoe County Prosecutor's Office

Prosecutor Pat Harrington was invited and has accepted to being a member of the Governor's Council on Impaired Driving, an advisory committee to the Indiana Criminal Justice Institute (ICJI). This committee guides policy and program development for statewide action to reduce death and injury on Indiana roadways.

Council members provide valuable input and advice on the use of traffic safety funds for grants, training, coordination, and ongoing support to state and local traffic safety advocates.

"It is an honor to be invited to the Governor's Council on Impaired Driving. I am eager to provide any input that will make our roads safer, and look forward to the challenges that this Council is tasked with addressing, and resolving."
