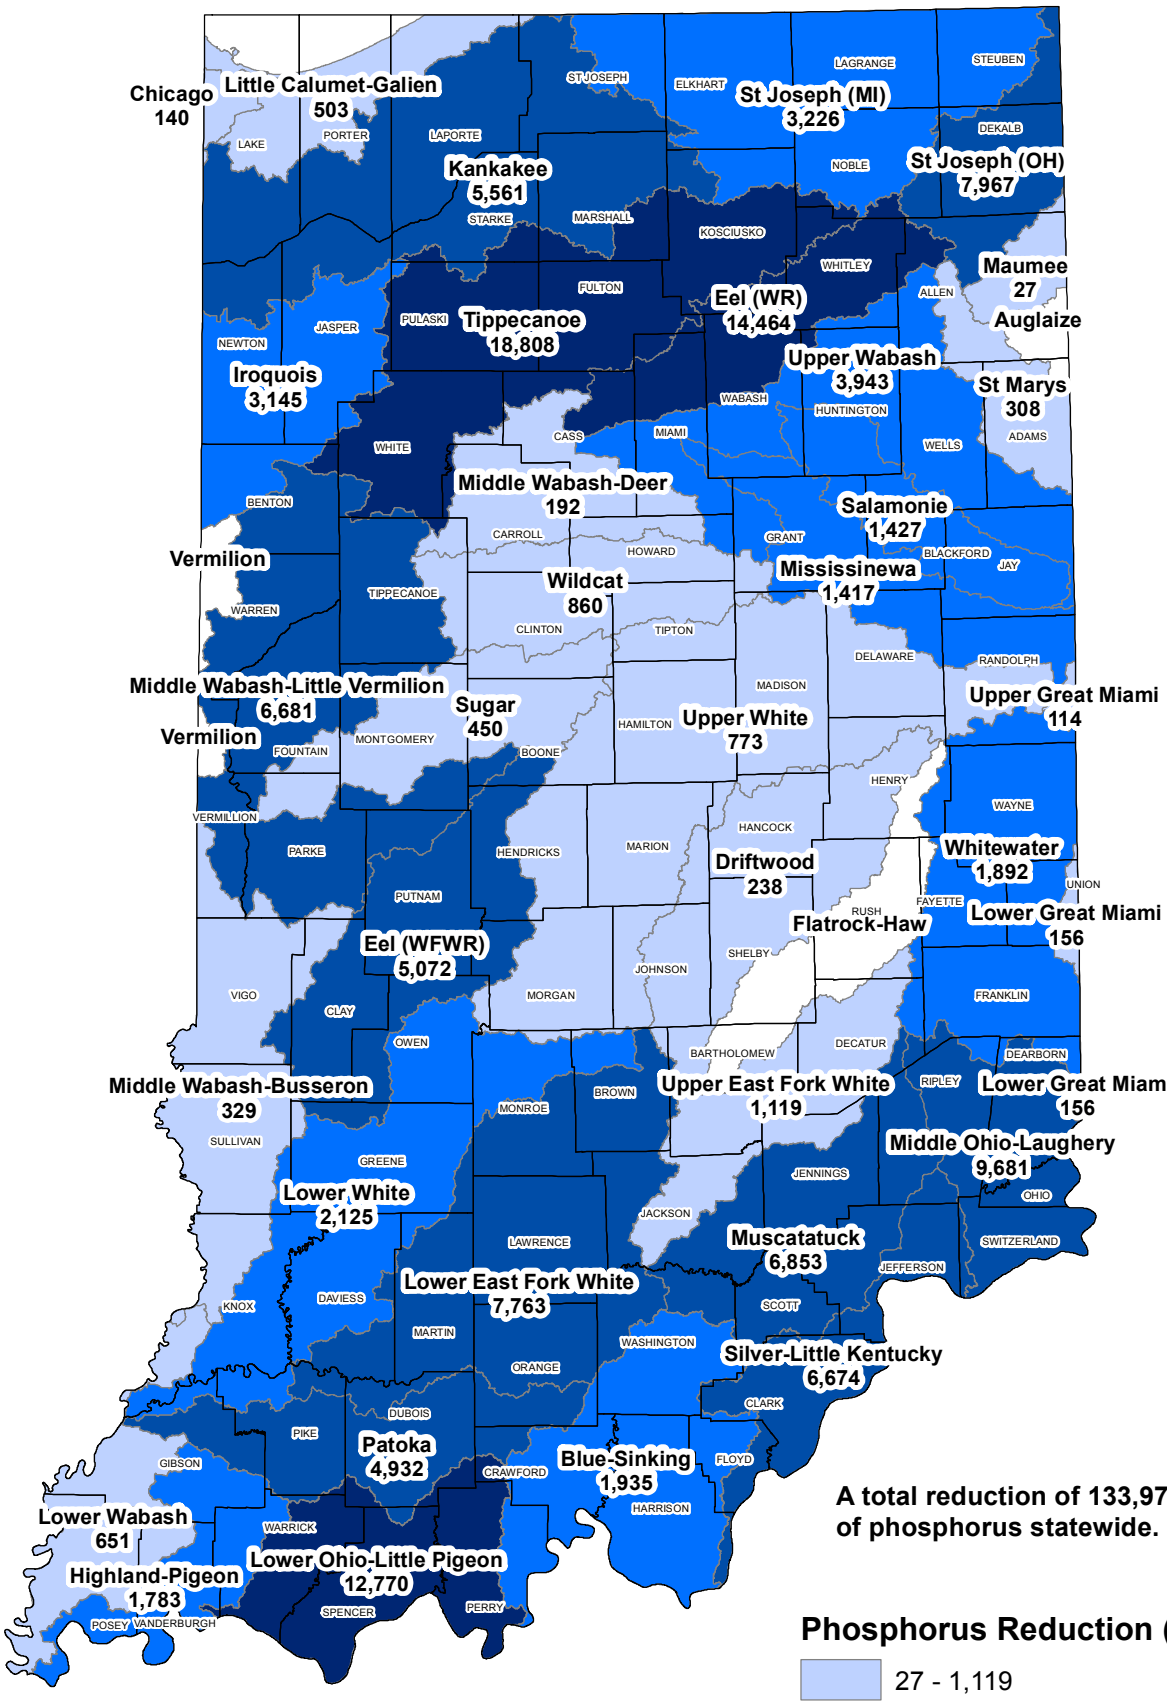
2013 Nutrient Load Reductions
Phosphorus



A total reduction of 133,976 pounds of phosphorus statewide.

Phosphorus Reduction (lbs./year)

- 27 - 1,119
- 1,417 - 3,943
- 4,932 - 9,681
- 12,770 - 18,808
- No Reported Reductions

Based on Region 5 Model analyses conducted on 1,435 conservation practices installed by ISDA Division of Soil Conservation field staff and Soil and Water Conservation District technicians from January 2013 thru December 2013. Watersheds with low or no nutrient load reductions correlate with the lack of Division and SWCD field staff in those areas.
