

2015 Clean Water Indiana Grant Program

Indiana State Department of Agriculture
One North Capitol Ave, Suite 600
Indianapolis, IN 46204
www.in.gov/isda

Clean Water Indiana grants provide funding in three areas: Cost Share, Professional Assistance, and Adult Education. The recipients of 2015 CWI funds are using the grants to accomplish the following:

Cost Share:

- Installing best management practices (BMPs) such as cover crops and filter strips
- Improving pastureland
- Converting equipment
- Promoting urban gardening/farming

Professional Assistance:

- Conducting soil samples
- Collecting data
- Writing conservation plans
- Evaluating issues

Adult Education

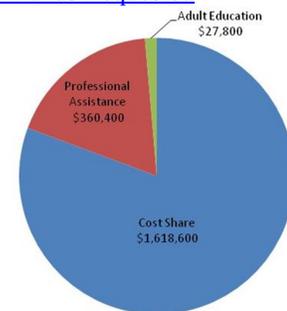

- Conducting field days
- Planting demonstration plots

In addition to CWI funds, each grantee is required to produce a 50% match of funds or in kind. Many districts will target producers not currently served by other conservation programs.

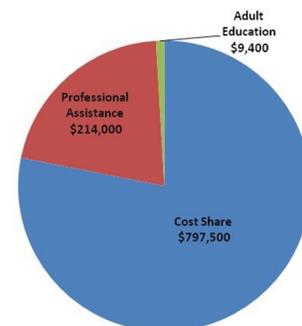

PARTNERS FOR THE 2015 CWI GRANTS INCLUDE:

PURDUE EXTENSION, NRCS, THE NATURE CONSERVANCY, AGRICULTURE RESEARCH SERVICE, FSA, CATTLEMEN'S ASSOCIATIONS, SEED COMPANIES, LOCAL CO-OPS, FARM BUREAU, AND CCSI.

 DISTRICTS APPLYING: 57
 TOTAL PROPOSALS FUNDED: 14
 TOTAL AMOUNT FUNDED: \$1,020,900
 DISTRICTS FUNDED: 35
 GRANT DATES: 5/1/2015-4/30/2017

The Clean Water Indiana (CWI) Program was established to provide financial assistance to landowners and conservation groups. The financial assistance supports the implementation of conservation practices which will reduce nonpoint sources of water pollution through education, technical assistance, training, and cost sharing programs.

The CWI fund is administered by the Division of Soil Conservation under the direction of the State Soil Conservation Board. The CWI Program is responsible for providing local matching funds as well as grants for sediment and nutrient reduction projects through Indiana's Soil and Water Conservation Districts. CWI also contributes critical state matching funds for Indiana's Conservation Reserve Enhancement Program, an initiative which utilizes federal funds to encourage landowners to conserve environmentally sensitive land.

Furthermore, the CWI Program has supported the Conservation Cropping Systems Initiative which focuses on management systems approach to crop production which results in improved soil and water quality as well as profitability on Indiana cropland.

During state fiscal year 2015, the State Soil Conservation Board awarded 14 Clean Water Indiana grants totaling \$1,020,900. Grant funds can be used for Cost Share Incentives, Technical Assistance, and Adult Education (maximum of \$1,000 per year).
