

Percent Change in No-till Acreage from Fall 2016 to Spring 2017

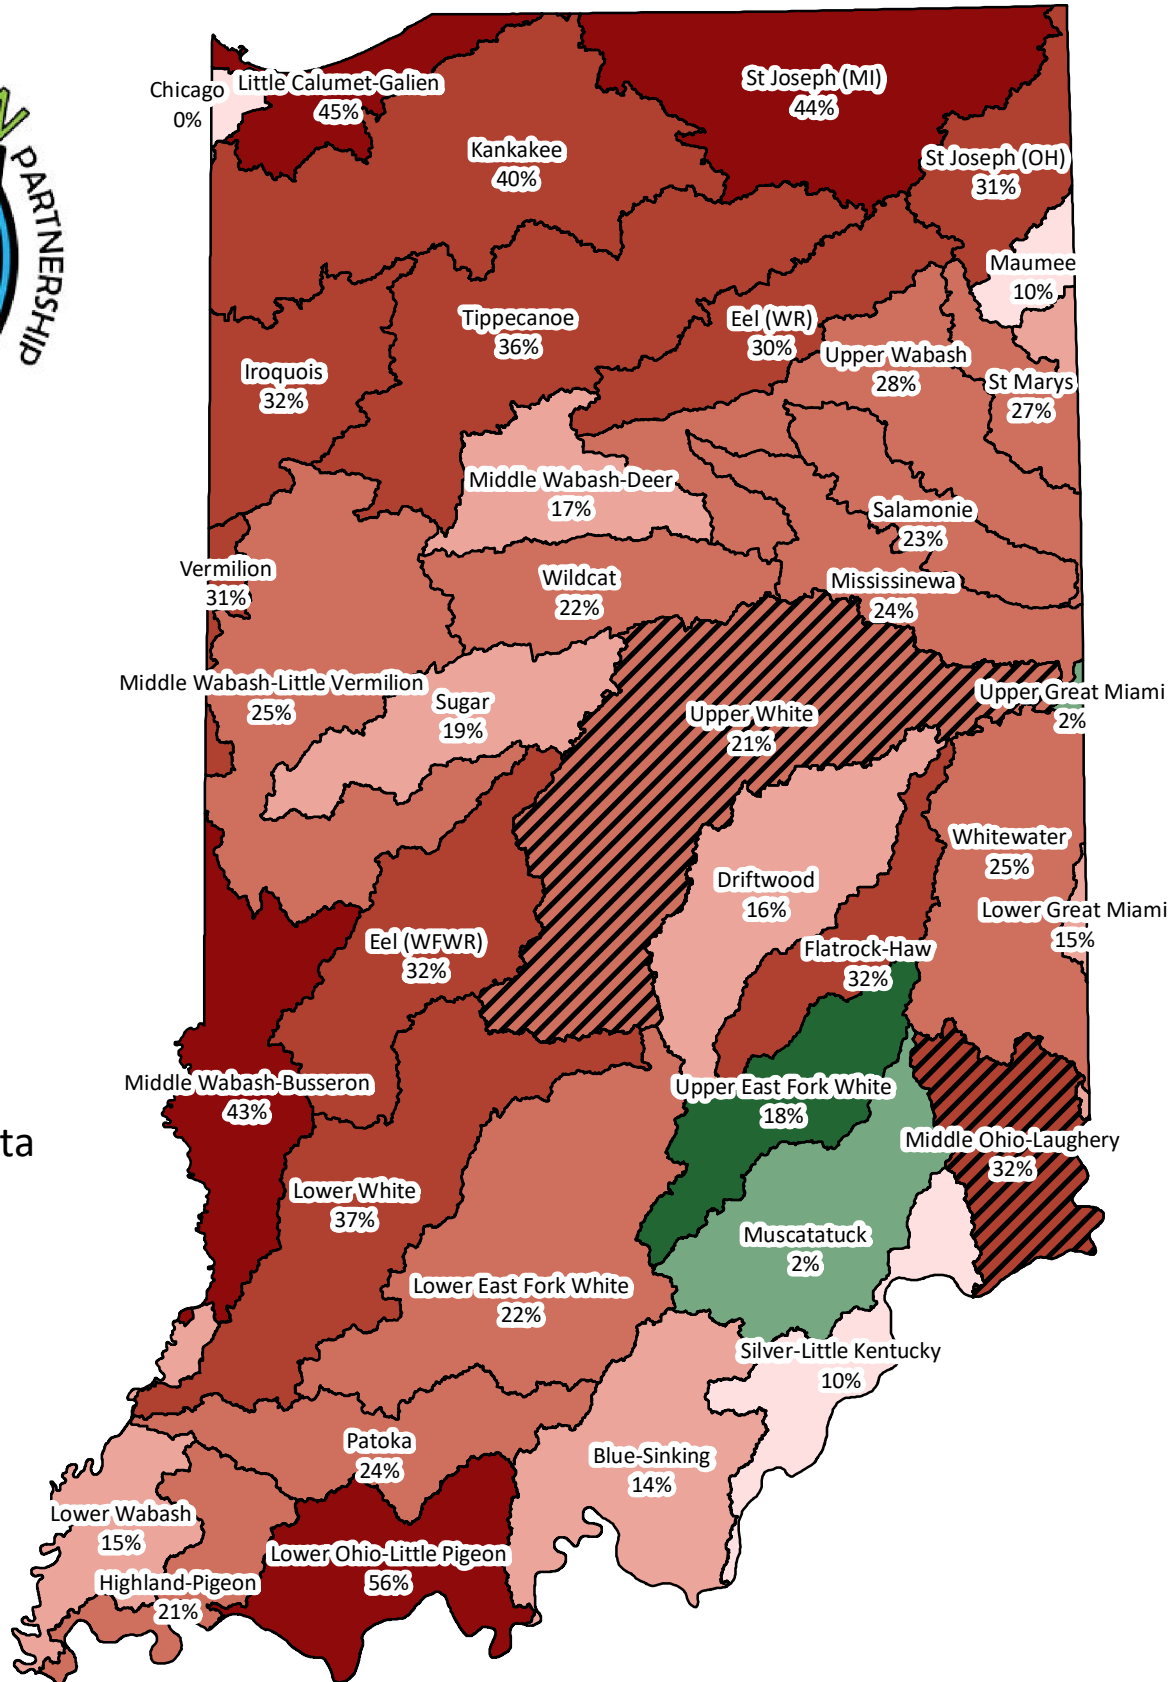

Percent Change

Green represents an increase, and red a decrease.

Acerages are based on the 2016 & 2017 NASS Cropland Data Layers.

*Windshield surveys were conducted between November 2016 and April 2017 (Fall 2016) and March 2017 and June 2017 (Spring 2017), and therefore may not reflect cover crops or cereal grains that emerged beyond said timeframe.

Hamilton and Ohio county data are not included at this time, but will be updated in time.

Marion County does not conduct Tillage and Cover Crop Transects due to heavy urbanization.
