

Indiana Cover Crops: 2011-2015

Cover Crop Acreage

Cover Crop Percentage

*Note: Darker colors indicate counties that reported a greater percentage of combined corn and soybean acres utilizing cover crops in 2015.

Cover Crop Acreage Change 2011-2015		
	Acres	Percent Change
Corn	422,608	439%
Soybeans	540,922	616%
Combined	963,530	523%

Cover Crop Percentage Change 2011-2015		
	Percentage Point Change	Percent Change
Corn	7	350%
Soybeans	9	450%
Combined	8	400%

- * Please note that no data is collected for Marion County.
- * 2011 and 2013 cover crop data was collected during the spring tillage transect. Figures collected in this manner may not be a true reflection of cover crop implementation because of winter kill and other factors.
- * A fall cover crop transect was completed in 2014 and 2015. Data from this transect is included.

Cover Crop Implementation				
Acreage	2011	2013	2014	2015
Corn	96,200	183,100	461,081	518,808
Soybeans	87,800	258,000	483,280	628,722
Combined	184,000	441,100	944,361	1,147,530
Percentage	2011	2013	2014	2015
Corn	2%	3%	8%	9%
Soybeans	2%	5%	9%	11%
Combined	2%	4%	8%	10%
