How to Prepare Delicious Dumplings

For Food Safety and Quality, Follow These 3 Cooking Steps Daily

For Maximum Taste & Texture (Not Recommended)
Simply place dumplings in hot oil until they are hot. Do not overcook. Remove from heat, drain, and serve with your favorite dipping sauce. Do not use this method for Dumplings and Veggie.

Dumplings should be cooked to 165°F.

Skillet Directions: (Chef-Recommended)

11 min.

1. Place frozen Dumplings in a 12-inch nonstick skillet. Add 1/2 cup water and 1 tablespoon vegetable oil.
2. **COVER** and cook on medium-high heat for 8 minutes, stirring occasionally.
3. **UNCOVER** and continue cooking, turning dumplings frequently, until golden brown, about 3 minutes.

Boiling Directions: (Traditional Method)

6 min.

1. Bring 3-quarts water to a boil over high heat. Add 2 tsp. salt, if desired.
2. Add frozen Dumplings to boiling water. Start timing and cook **EXACTLY 6 MINUTES** (do not overcook).
3. Drain and serve or, if desired, pan-fry until golden brown.

Microwave Directions: (Not Recommended)

Place 6 frozen Dumplings on microwave-safe plate. Add 1 teaspoon water and **COVER** with damp paper towel. Microwave at **HIGH 2** to 2-1/2 minutes for High Power Microwave Ovens (1000 to 1300 watts) or 2-1/2 to 3-1/2 minutes for Low Power Microwave Ovens (700 to 900 watts) or until Dumplings are piping hot. Let stand 1 minute. Repeat with remaining Dumplings, if desired.

Microwave ovens vary; adjust times as needed. Plate may be HOT after microwaving. Do not microwave in bag.

Keep frozen until ready to use. Do not refreeze. Refrigerate or discard leftovers.
